

**SWITCH ELECTRONIC AIDS TO DAILY LIVING (EADL)
LOAN BANK - ITEM LIST**

Item No.	Item	Source	Description	Item Cost
1	 SensiTrac Flat Pad	Ablenet	Easy secure mounting system for flat surfaces for a variety of switches like the “Big Red” and “Jelly Bean” switches.	49.00
2	 Mini Stunt Remote Car	Enabling Devices	Switch Access Stunt Car and Platform Popular mini stunt car responds to your capability switches. Car has multiple functions. Blue tray (included) fits on a wheelchair table.	39.95
3	 Switch Adapted Friendly Firefly	Enabling Devices	A toy that will appeal to younger clients to encourage switch access during evaluation. Plays songs and vibrates when activated by switch device. Toy also has different textures, which help develop tactile skills, each activation by the switch runs the toy 10 to 15 seconds.	25.95
4	 Joystick Switch	Enabling Devices	Allows User to Control Four different devices/functions with Joystick control. This joystick is perfect for teaching directionality as well as other spatial relationships. The joystick activates four different devices depending on the direction the switch is moved. Great switch for activating remote control cars for example. Pushing the switch to the left will activate one device, moving it backwards will activate another and so forth.	64.95
5	 Adjustable Finger Tip Switch	Enabling Devices	Switch allows user with very limited movement to activate a device with one finger movement. Switch moves with client. Sensitivity and switch modes are adjustable. Adjustable sensitivity allows the user to activate a special circuit with the touch of a finger providing a timed (0 to 120 seconds), latched or momentary output.	69.95
