Improvement/Quality Management Bureau

Dear Mr. Franco & Mr. Johnson;

The Division of Health Improvement/Quality Management Bureau has completed a compliance survey of the services identified above. The purpose of the survey was to determine compliance with federal and state standards; to assure the health, safety, and welfare of individuals receiving services through the Developmental Disabilities Waiver; and to identify opportunities for improvement. This Report of Findings will be shared with the Developmental Disabilities Supports Division for their use in determining your current and future provider agreements. Upon receipt of this letter and Report of Findings your agency must immediately correct all deficiencies which place Individuals served at risk of harm.

#### **Determination of Compliance:**

The Division of Health Improvement, Quality Management Bureau has determined your agency is in:

**Non-Compliance:** This determination is based on noncompliance with 17 or more Standard Level Tags with 0 to 5 Condition of Participation Level Tags with 75% to 100% of the survey sample affected in any tag or any amount of Standard Level Tags with 6 or more Condition of Participation Level Tags (*refer to Attachment D for details*). # **Plan of Correction:**

The attached Report of Findings identifies the deficiencies found during your agency's on-site compliance review. You are required to complete and implement a Plan of Correction. Your agency has a total of 45 business days (10 business days to submit your POC for approval and 35 days to implement your *approved* Plan of Correction) from the receipt of this letter.

You were provided information during the exit meeting portion of your on-site survey. Please refer to this information (Attachment A) for specific instruction on completing your Plan of Correction. At a minimum your Plan of Correction should address the following for each Tag cited:

### **Corrective Action for Current Citation:**

• How is the deficiency going to be corrected? (i.e. obtained documents, retrain staff, individuals and/or staff no longer in service, void/adjusts completed, etc.) This can be specific to each deficiency cited or if possible an overall correction, i.e. all documents will be requested and filed as appropriate.

# On-going Quality Assurance/Quality Improvement Processes:

• What is going to be done on an ongoing basis? (i.e. file reviews, etc.)

- How many individuals is this going to effect? (i.e. percentage of individuals reviewed, number of files reviewed, etc.)
- How often will this be completed? (i.e. weekly, monthly, quarterly, etc.)
- Who is responsible? (responsible position within your agency)
- What steps will be taken if issues are found? (i.e. retraining, requesting documents, filing RORA, etc.)
- How is this integrated in your agency's QIS, QI Committee reviews and annual report?

#### **Submission of your Plan of Correction:**

Please submit your agency's Plan of Correction in the available space on the two right-hand columns of the Report of Findings. (See attachment "A" for additional guidance in completing the Plan of Correction).

Within 10 business days of receipt of this letter your agency Plan of Correction must be submitted to the parties below:

- 1. Quality Management Bureau, Attention: Amanda Castaneda, Plan of Correction Coordinator 1170 North Solano Suite D Las Cruces, New Mexico 88001
- 2. Developmental Disabilities Supports Division Regional Office for region of service surveyed

Upon notification from QMB that your *Plan of Correction has been approved*, you must implement all remedies and corrective actions to come into compliance. If your Plan of Correction is denied, you must resubmit a revised plan as soon as possible for approval, as your POC approval and all remedies must be completed within 45 business days of the receipt of this letter.

Failure to submit your POC within the allotted 10 business days or complete and implement your Plan of Correction within the total 45 business days allowed may result in the imposition of a \$200 per day Civil Monetary Penalty until it is received, completed and/or implemented.

### **Billing Deficiencies:**

If you have deficiencies noted in this report of findings under the *Service Domain: Medicaid Billing/Reimbursement*, you must complete a "Void/Adjust" claim or remit the identified overpayment via a check within 30 calendar days of the date of this letter to HSD/OIG/PIU, though this is not the preferred method of payment. If you choose to pay via check, please include a copy of this letter with the payment. Make the check payable to the New Mexico Human Services Department and mail to:

Attention: Lisa Medina-Lujan HSD/OIG Program Integrity Unit 2025 S. Pacheco Street Santa Fe, New Mexico 87505

Please be advised that there is a one-week lag period for applying payments received by check to Void/Adjust claims. During this lag period, your other claim payments may be applied to the amount you owe even though you have sent a refund, reducing your payment amount. For this reason, we recommend that you allow the system to recover the overpayment instead of sending in a check.

# Request for Informal Reconsideration of Findings (IRF):

If you disagree with a finding of deficient practice, you have 10 business days upon receipt of this notice to request an IRF. Submit your request for an IRF in writing to:

Request for Informal Reconsideration of Findings 5301 Central Ave NE Suite #400 Albuquerque, NM 87108 Attention: IRF request

See Attachment "C" for additional guidance in completing the request for Informal Reconsideration of Findings. The request for an IRF will not delay the implementation of your Plan of Correction which must be completed within 45 total business days (10 business days to submit your POC for approval and 35 days to implement your approved Plan of

# Provider Instructions for Completing the QMB Plan of Correction (POC) Process

#### Introduction:

After a QMB Compliance Survey, your QMB Report of Findings will be sent to you via e-mail.

Each provider must develop and implement a Plan of Correction (POC) that identifies specific quality assurance and quality improvement activities the agency will implement to correct deficiencies and prevent continued deficiencies and non-compliance.

Agencies must submit their Plan of Correction within ten (10) business days from the date you receive the QMB Report of Findings. (Providers who do not submit a POC within 10 business days may be referred to the DDSD Regional Office for purposes of contract management or the Internal Review Committee [IRC] for possible actions or sanctions).

Agencies must fully implement their approved Plan of Correction within 45 business days (10 business days to submit your POC for approval and 35 days to implement your approved Plan of Correction) from the date they receive the QMB Report of Findings. Providers who fail to complete a POC within the 45-business days allowed will be referred to the IRC for possible actions or sanctions.

If you have questions about the Plan of Correction process, call the Plan of Correction Coordinator at 575-373-5716 or email at <a href="mailto:AmandaE.Castaneda@state.nm.us">AmandaE.Castaneda@state.nm.us</a>. Requests for technical assistance must be requested through your Regional DDSD Office.

The POC process cannot resolve disputes regarding findings. If you wish to dispute a finding on the official Report of Findings, you must file an Informal Reconsideration of Findings (IRF) request within ten (10) business days of receiving your report. Please note that you must still submit a POC for findings that are in question (see Attachment C). *Instructions for Completing Agency POC:* 

# Required Content

Your Plan of Correction should provide a step-by-step description of the methods to correct each deficient practice cited to prevent recurrence and information that ensures the regulation cited comes into and remains in compliance. The remedies noted in your POC are expected to be added to your Agency's required, annual Quality Assurance (QA) Plan.

If a deficiency has already been corrected since the on-site survey, the plan should state how it was corrected, the completion date (date the correction was accomplished), and how possible recurrence of the deficiency will be prevented.

The following details should be considered when developing your Plan of Correction:

The Plan of Correction must address each deficiency cited in the Report of Findings unless otherwise noted with a "No Plan of Correction Required statement." The Plan of Correction must address the five (5) areas listed below:

- 1. How the specific and realistic corrective action will be accomplished for individuals found to have been affected by the deficient practice.
- 2. How the agency will identify other individuals who have the potential to be affected by the same deficient practice, and how the agency will act to protect those individuals in similar situations.
- 3. What Quality Assurance measures will be put into place and what systemic changes made to ensure the deficient practice will not recur.
- 4. Indicate how the agency plans to monitor its performance to make certain solutions are sustained. The agency must develop a QA plan for ensuring correction is achieved and sustained. This QA plan must be implemented and the corrective action is evaluated for its effectiveness. The plan of correction is integrated into the agency quality assurance system; and
- 5. Include dates when corrective actions will be completed. The corrective action completion dates must be acceptable to the State.

The following details should be considered when developing your Plan of Correction:

- Details about how and when Individual Served, agency personnel and administrative and service delivery site files are audited by agency personnel to ensure they contain required documents;
- Information about how medication administration records are reviewed to verify they contain all required information before they are distributed to service sites, as they are being used, and after they are completed;
- Your processes for ensuring that all required agency personnel are trained on required DDSD required trainings;
- How accuracy in billing/reimbursement documentation is assured;
- How health, safety is assured;
- For Case Management providers, how Individual Service Plans are reviewed to verify they meet requirements, how the timeliness of level of care (LOC) packet submissions and consumer visits are tracked:
- Your process for gathering, analyzing and responding to quality data indicators; and,
- Details about Quality Targets in various areas, current status, analyses about why targets were not met, and remedies implemented.

**Note:** <u>Instruction or in-service of staff alone may not be a sufficient plan of correction.</u> This is a good first step toward correction, but additional steps must be taken to ensure the deficiency is corrected and will not recur.

#### **Completion Dates**

- The plan of correction must include a completion date (entered in the far right-hand column) for each finding.
   Be sure the date is realistic in the amount of time your Agency will need to correct the deficiency; not to exceed 45 total business days.
- Direct care issues should be corrected immediately and monitored appropriately.
- Some deficiencies may require a staged plan to accomplish total correction.
- Deficiencies requiring replacement of equipment, etc., may require more time to accomplish correction but should show reasonable time frames.

#### Initial Submission of the Plan of Correction Requirements

- 1. The Plan of Correction must be completed on the official QMB Survey Report of Findings/Plan of Correction Form and received by QMB within ten (10) business days from the date you received the report of findings.
- 2. For questions about the POC process, call the POC Coordinator, Amanda Castaneda at 575-373-5716 or email at <a href="mailto:AmandaE.Castaneda@state.nm.us">AmandaE.Castaneda@state.nm.us</a> for assistance.
- 3. For Technical Assistance (TA) in developing or implementing your POC, contact your Regional DDSD Office.
- 4. Submit your POC to Amanda Castaneda, POC Coordinator in any of the following ways:
  - a. Electronically at AmandaE.Castaneda@state.nm.us (preferred method)
  - b. Fax to 575-528-5019, or
  - c. Mail to POC Coordinator, 1170 North Solano Ste D, Las Cruces, New Mexico 88001
- <u>Do not submit supporting documentation</u> (evidence of compliance) to QMB <u>until after</u> your POC has been approved by the QMB.
- 6. QMB will notify you when your POC has been "approved" or "denied."
  - a. During this time, whether your POC is "approved," or "denied," you will have a maximum of 45-business days from the date of receipt of your Report of Findings to correct all survey deficiencies.
  - b. If your POC is denied, it must be revised and resubmitted as soon as possible, as the 45-business day limit is in effect.
  - c. If your POC is denied a second time your agency may be referred to the Internal Review Committee.
  - d. You will receive written confirmation when your POC has been approved by QMB and a final deadline for completion of your POC.
  - e. Please note that all POC correspondence will be sent electronically unless otherwise requested.
- 7. Failure to submit your POC within 10 business days without prior approval of an extension by QMB will result in a referral to the Internal Review Committee and the possible implementation of monetary penalties and/or sanctions.

# **POC Document Submission Requirements**

Once your POC has been approved by the QMB Plan of Correction Coordinator you must submit copies of documents as evidence that all deficiencies have been corrected, as follows.

- 1. Your internal documents are due within a maximum of 45-business days of receipt of your Report of Findings.
- 2. It is preferred that you submit your documents via USPS or other carrier (scanned and saved to CD/DVD disc, flash drive, etc.). If documents containing HIPAA Protected Health Information (PHI) documents must be submitted through S-Comm (Therap), Fax or Postal System, do not send PHI directly to NMDOH email accounts. If the documents do not contain protected Health information (PHI) then you may submit your documents electronically scanned and attached to e-mails.
- 3. All submitted documents <u>must be annotated</u>; please be sure the tag numbers and Identification numbers are indicated on each document submitted. Documents which are not annotated with the Tag number and Identification number may not be accepted.
- 4. Do not submit original documents; Please provide copies or scanned electronic files for evidence. Originals must be maintained in the agency file(s) per DDSD Standards.
- 5. In lieu of some documents, you may submit copies of file or home audit forms that clearly indicate cited deficiencies have been corrected, other attestations of correction must be approved by the Plan of Correction Coordinator prior to their submission.
- 6. When billing deficiencies are cited, you must provide documentation to justify billing and/or void and adjust forms submitted to Xerox State Healthcare, LLC for the deficiencies cited in the Report of Findings.

Revisions, Modifications or Extensions to your Plan of Correction (post QMB approval) must be made in writing and submitted to the Plan of Correction Coordinator, prior to the due date and are approved on a case-by-case basis. No changes may be made to your POC or the timeframes for implementation without written approval of the POC Coordinator.

# Department of Health, Division of Health Improvement QMB Determination of Compliance Process

The Division of Health Improvement, Quality Management Bureau (QMB) surveys compliance of the Developmental Disabilities Waiver (DDW) standards and other state and federal regulations. For the purpose of the LCA / CI survey the CMS waiver assurances have been grouped into four (4) Service Domains: Plan of Care (ISP Implementation); Qualified Providers; Health, Welfare and Safety; and Administrative Oversight (note that Administrative Oversight listed in this document is not the same as the CMS assurance of Administrative Authority. Used in this context it is related to the agency's operational policies and procedures, Quality Assurance system and Medicaid billing and reimbursement processes.)

The QMB Determination of Compliance process is based on provider compliance or non-compliance with standards and regulations identified during the on-site survey process and as reported in the QMB Report of Findings. All areas reviewed by QMB have been agreed to by DDSD and DHI/QMB and are reflective of CMS requirements. All deficiencies (non-compliance with standards and regulations) are identified and cited as either a Standard level deficiency or a Condition of Participation level deficiency in the QMB Reports of Findings. All deficiencies require corrective action when non-compliance is identified.

Each deficiency in your Report of Findings has been predetermined to be a Standard Level Deficiency, a Condition of Participation Level Deficiency, if below 85% compliance or a non-negotiable Condition of Participation Level Deficiency. Your Agency's overall Compliance Determination is based on a Scope and Severity Scale which takes into account the number of Standard and Condition Level Tags cited as well as the percentage of Individuals affected in the sample.

# **Conditions of Participation (CoPs)**

CoPs are based on the Centers for Medicare and Medicaid Services, Home and Community-Based Waiver required assurances, in addition to the New Mexico Developmental Disability Waiver (DDW) Service Standards. The Division of Health Improvement (DHI), in conjunction with the Developmental Disability Support Division (DDSD), has identified certain deficiencies that have the potential to be a Condition of Participation Level, if the tag falls below 85% compliance based on the number of people affected. Additionally, there are what are called nonnegotiable Conditions of Participation, regardless if one person or multiple people are affected. In this context, a CoP is defined as an essential / fundamental regulation or standard, which when out of compliance directly affects the health and welfare of the Individuals served. If no deficiencies within a Tag are at the level of a CoP, it is cited as a Standard Level Deficiency.

Service Domains and CoPs for Living Care Arrangements and Community Inclusion are as follows:

<u>Service Domain: Service Plan: ISP Implementation -</u> Services are delivered in accordance with the service plan, including type, scope, amount, duration and frequency specified in the service plan.

# Potential Condition of Participation Level Tags, if compliance is below 85%:

- 1A08.3 Administrative Case File: Individual Service Plan / ISP Components
- 1A32 Administrative Case File: Individual Service Plan Implementation
- LS14 Residential Service Delivery Site Case File (ISP and Healthcare Requirements)
- IS14 CCS / CIES Service Delivery Site Case File (ISP and Healthcare Requirements)

<u>Service Domain: Qualified Providers -</u> The State monitors non-licensed/non-certified providers to assure adherence to waiver requirements. The State implements its policies and procedures for verifying that provider training is conducted in accordance with State requirements and the approved waiver.

# Potential Condition of Participation Level Tags, if compliance is below 85%:

• 1A20 - Direct Support Personnel Training

- 1A22 Agency Personnel Competency
- 1A37 Individual Specific Training

# Non-Negotiable Condition of Participation Level Tags (one or more Individuals are cited):

- 1A25.1 Caregiver Criminal History Screening
- 1A26.1 Consolidated On-line Registry Employee Abuse Registry

<u>Service Domain: Health, Welfare and Safety -</u> The State, on an ongoing basis, identifies, addresses and seeks to prevent occurrences of abuse, neglect and exploitation. Individuals shall be afforded their basic human rights. The provider supports individuals to access needed healthcare services in a timely manner.

# Potential Condition of Participation Level Tags, if compliance is below 85%:

- 1A08.2 Administrative Case File: Healthcare Requirements & Follow-up
- 1A09 Medication Delivery Routine Medication Administration
- 1A09.1 Medication Delivery PRN Medication Administration
- 1A15.2 Administrative Case File: Healthcare Documentation (Therap and Required Plans)

#### Non-Negotiable Condition of Participation Level Tags (one or more Individuals are cited):

- 1A05 General Requirements / Agency Policy and Procedure Requirements
- 1A07 Social Security Income (SSI) Payments
- 1A09.2 Medication Delivery Nurse Approval for PRN Medication
- 1A15 Healthcare Documentation Nurse Availability
- **1A31** Client Rights/Human Rights
- LS25.1 Residential Reqts. (Physical Environment Supported Living / Family Living / Intensive Medical Living)

# Guidelines for the Provider Informal Reconsideration of Finding (IRF) Process

# Introduction:

Throughout the QMB Survey process, surveyors are openly communicating with providers. Open communication means surveyors have clarified issues and/or requested missing information before completing the review through the use of the signed/dated "Document Request," or "Administrative Needs," etc. forms. Regardless, there may still be instances where the provider disagrees with a specific finding. Providers may use the following process to informally dispute a finding.

#### Instructions:

- 1. The Informal Reconsideration of the Finding (IRF) request must be received in writing to the QMB Deputy Bureau Chief within 10 business days of receipt of the final Report of Findings.
- 2. The written request for an IRF *must* be completed on the QMB Request for Informal Reconsideration of Finding form available on the QMB website: <a href="https://nmhealth.org/about/dhi/cbp/irf/">https://nmhealth.org/about/dhi/cbp/irf/</a>
- The written request for an IRF must specify in detail the request for reconsideration and why the finding is inaccurate.
- 4. The IRF request must include all supporting documentation or evidence.
- 5. If you have questions about the IRF process, email the IRF Chairperson, Crystal Lopez-Beck at <a href="mailto:Crystal.Lopez-Beck@state.nm.us">Crystal.Lopez-Beck@state.nm.us</a> for assistance.

#### The following limitations apply to the IRF process:

- The written request for an IRF and all supporting evidence must be received within 10 business days.
- Findings based on evidence requested during the survey and not provided may not be subject to reconsideration.
- The supporting documentation must be new evidence not previously reviewed or requested by the survey team.
- Providers must continue to complete their Plan of Correction during the IRF process
- Providers may not request an IRF to challenge the sampling methodology.
- Providers may not request an IRF based on disagreement with the nature of the standard or regulation.
- Providers may not request an IRF to challenge the team composition.
- Providers may not request an IRF to challenge the DHI/QMB determination of compliance or the length of their DDSD provider contract.

A Provider forfeits the right to an IRF if the request is not received within 10 business days of receiving the report and/or does not include all supporting documentation or evidence to show compliance with the standards and regulations.

The IRF Committee will review the request; the Provider will be notified in writing of the ruling; no face-to-face meeting will be conducted.

When a Provider requests that a finding be reconsidered, it does not stop or delay the Plan of Correction process. **Providers must continue to complete the Plan of Correction, including the finding in dispute regardless of the IRF status.** If a finding is removed or modified, it will be noted and removed or modified from the Report of Findings. It should be noted that in some cases a Plan of Correction may be completed prior to the IRF process being completed. The provider will be notified in writing on the decisions of the IRF committee.

#### **QMB** Determinations of Compliance

## Compliance:

The QMB determination of *Compliance* indicates that a provider has either no deficiencies found during a survey or that no deficiencies at the Condition of Participation Level were found. The agency has obtained a level of compliance such that there is a minimal potential for harm to individuals' health and safety. To qualify for a determination of *Compliance*, the provider must have received no Conditions of Participation Level Deficiencies and have a minimal number of Individuals on the sample affected by the findings indicated in the Standards Level Tags.

#### Partial-Compliance with Standard Level Tags:

The QMB determination of *Partial-Compliance with Standard Level Tags* indicates that a provider is in compliance with all Condition of Participation Level deficiencies but is out of compliance with a certain percentage of Standard Level deficiencies. This partial-compliance, if not corrected, may result in a negative outcome or the potential for more than minimal harm to individuals' health and safety. There are two ways to receive a determination of Partial Compliance with Standard Level Tags:

- 1. Your Report of Findings includes 16 or fewer Standards Level Tags with between 75% and 100% of the survey sample affected in any tag.
- 2. Your Report of Findings includes 17 or more Standard Level Tags with between 50% to 74% of the survey sample affected in any tag.

# Partial-Compliance with Standard Level Tags and Condition of Participation Level Tags:

The QMB determination of Partial-Compliance with Standard Level Tags and Condition of Participation Level Tags indicates that a provider is out of compliance with one to five (1-5) Condition of Participation Level Tags. This partial-compliance, if not corrected, may result in a serious negative outcome or the potential for more than minimal harm to individuals' health and safety.

#### Non-Compliance:

The QMB determination of *Non-Compliance* indicates a provider is significantly out of compliance with both Standard Level deficiencies and Conditions of Participation level deficiencies. This non-compliance, if not corrected, may result in a serious negative outcome or the potential for more than minimal harm to individuals' health and safety. There are three ways an agency can receive a determination of Non-Compliance:

- 1. Your Report of Findings includes 17 or more Standard Level Tags with 0 to 5 Condition of Participation Level Tags with 75% to 100% of the survey sample affected in any tag.
- 2. Your Report of Findings includes any amount of Standard Level Tags with 6 or more Condition of Participation Level Tags.

20.5.1 Individual Data Form (IDF):		
The Individual Data Form provides an overview of demographic information as well as other key		
personal, programmatic, insurance, and health		
related information. It lists medical information;		
assistive technology or adaptive equipment; diagnoses; allergies; information about whether		
a guardian or advance directives are in place;		
information about behavioral and health related		
needs; contacts of Provider Agencies and team		
members and other critical information. The IDF		
automatically loads information into other fields		
and forms and must be complete and kept		

be opened and continuously updated by Living Supports, CCS- Group, ANS, CIHS and case management when applicable to the person in order for accurate data to auto populate other documents like the Health Passport and Physician Consultation Form. Although the Primary Provider Agency is ultimately responsible for keeping this form current, each provider collaborates and communicates critical information to update this form.		
Chapter 3: Safeguards 3.1.2 Team Justification Process: DD Waiver participants may receive evaluations or reviews conducted by a variety of professionals or clinicians. These evaluations or reviews typically include recommendations or suggestions for the person/guardian or the team to consider. The team justification process includes: 1. Discussion and decisions about non-health related recommendations are documented on the Team Justification form. 2. The Team Justification form documents that the person/guardian or team has considered the recommendations and has decided: a. to implement the recommendation; b. to create an action plan and revise the ISP, if necessary; or c. not to implement the recommendation currently. 3. All DD Waiver Provider Agencies participate in information gathering, IDT meeting attendance, and accessing supplemental resources if needed and desired. 4. The CM ensures that the Team Justification Process is followed and complete.

teleconierence.			
<b>6.6 DDSD ISP Template:</b> The ISP must be			
written according to templates provided by the			
DDSD. Both children and adults have			
designated ISP templates. The ISP template includes Vision Statements, Desired Outcomes,			
a meeting participant signature page, an			
Addendum A (i.e. an acknowledgement of			
receipt of specific information) and other			
elements depending on the age of the individual.			

The ISP templates may be revised and reissued	
by DDSD to incorporate initiatives that improve	
person - centered planning practices.	
Companion documents may also be issued by	
DDSD and be required for use in order to better	
demonstrate required elements of the PCP	
process and ISP development.	
The ISP is completed by the CM with the IDT	
input and must be completed according to the	
following requirements:	
DD Waiver Provider Agencies should not	
recommend service type, frequency, and	
amount (except for required case management	
services) on an individual budget prior to the	
Vision Statement and Desired Outcomes being	
developed.	
2. The person does not require IDT	
agreement/approval regarding his/her dreams,	
aspirations, and desired long-term outcomes.	
3. When there is disagreement, the IDT is	
required to plan and resolve conflicts in a	
manner that promotes health, safety, and quality	
of life through consensus. Consensus means a	
state of general agreement that allows members	
to support the proposal, at least on a trial basis.	
4. A signature page and/or documentation of	
participation by phone must be completed.	
5. The CM must review a current Addendum A	
and DHI ANE letter with the person and Court	
appointed guardian or parents of a minor, if	
applicable.	
6.6.3 Additional Requirements for Adults:	
Because children have access to other funding	
sources, a larger array of services are available	
to adults than to children through the DD	
Waiver. (See Chapter 7: Available Services and	
Individual Budget Development). The ISP	
Template for adults is also more extensive,	
including Action Plans, Teaching and Support	
Strategies (TSS), Written Direct Support	

Instructions (WDSI), and Individual Specific Training (IST) requirements.		
Training (151) requirements.		
<b>6.6.3.1. Action Plan:</b> Each Desired Outcome requires an Action Plan. The Action Plan addresses individual strengths and capabilities		
in reaching Desired Outcomes. Multiple service		
types may be included in the Action Plan under a single Desired Outcome. Multiple Provider		
Agencies can and should be contributing to Action Plans toward each Desired Outcome.		
Action Plans include actions the person will		
take; not just actions the staff will take.  2. Action Plans delineate which activities will be		
completed within one year.		
3. Action Plans are completed through IDT consensus during the ISP meeting.		
4. Action Plans must indicate under		
"Responsible Party" which DSP or service		
provider (i.e. Family Living, CCS, etc.) are		
responsible for carrying out the Action Step.		
6.6.3.2 Teaching and Supports Strategies		
(TSS) and Written Direct Support Instructions (WDSI): After the ISP meeting, IDT		
members conduct a task analysis and		
assessments necessary to create effective TSS		
and WDSI to support those Action Plans that		
require this extra detail. All TSS and WDSI		
should support the person in achieving his/her		
Vision.		
6.6.3.3 Individual Specific Training in the ISP:		
The CM, with input from each DD Waiver		
Provider Agency at the annual ISP meeting, completes the IST requirements section of the		
ISP form listing all training needs specific to the		
individual. Provider Agencies bring their		
proposed IST to the annual meeting. The IDT		
must reach a consensus about who needs to be		
trained, at what level (awareness, knowledge or		

skill), and within what timeframe. (See Chapter		
17.10 Individual-Specific Training for more		
information about IST.)		
6.8 ISP Implementation and Monitoring: All		
DD Waiver Provider Agencies with a signed		
SFOC are required to provide services as		
detailed in the ISP. The ISP must be readily		
accessible to Provider Agencies on the		
approved budget. (See Chapter 20: Provider		
Documentation and Client Records.) CMs		
facilitate and maintain communication with the		
person, his/her representative, other IDT		
members, Provider Agencies, and relevant		
parties to ensure that the person receives the		
maximum benefit of his/her services and that revisions to the ISP are made as needed. All DD		
Waiver Provider Agencies are required to		
cooperate with monitoring activities conducted by the CM and the DOH. Provider Agencies are		
required to respond to issues at the individual		
level and agency level as described in Chapter

Requirements: 19.5 Semi-Annual Reporting: The semi-annual report provides status updates

to life circumstances, health, and progress	
toward ISP goals and/or goals related to	
professional and clinical services provided	
through the DD Waiver. This report is submitted	
to the CM for review and may guide actions	
taken by the person's IDT if necessary. Semi-	
annual reports may be requested by DDSD for	
QA activities.	
Semi-annual reports are required as follows:	
1. DD Waiver Provider Agencies, except AT,	
EMSP, Supplemental Dental, PRSC, SSE and	
Crisis Supports, must complete semi-annual	
reports.	
2. A Respite Provider Agency must submit a	
semi-annual progress report to the CM that	
describes progress on the Action Plan(s) and	
Desired Outcome(s) when Respite is the only	
service included in the ISP other than Case	
Management for an adult age 21 or older.	
3. The first semi-annual report will cover the time	
from the start of the person's ISP year until the	
end of the subsequent six-month period (180	
calendar days) and is due ten calendar days	
after the period ends (190 calendar days).	
4. The second semi-annual report is integrated	
into the annual report or professional	
assessment/annual re-evaluation when	
applicable and is due 14 calendar days prior to	
the annual ISP meeting.	
5. Semi-annual reports must contain at a	
minimum written documentation of:	
a. the name of the person and date on each	
page;	
b. the timeframe that the report covers;	
c. timely completion of relevant activities from	
ISP Action Plans or clinical service goals during	
timeframe the report is covering;

must adhere to the following requirements		
related to a PCA and Career Development Plan:		
5. A person-centered assessment should		
contain, at a minimum:		
a. information about the person's background		
and status;		
b. the person's strengths and interests;		
c. conditions for success to integrate into the		
community, including conditions for job success		
(for those who are working or wish to work); and		
d. support needs for the individual.		
6. The agency must have documented evidence		
that the person, guardian, and family as		
applicable were involved in the person-centered		
assessment.		
7. Timelines for completion: The initial PCA must		
be completed within the first 90 calendar days of		
the person receiving services. Thereafter, the		
Provider Agency must ensure that the PCA is		
reviewed and updated annually. An entirely new		
PCA must be completed every five years. If		
there is a significant change in a person's		
circumstance, a new PCA may be required		
because the information in the PCA may no		
longer be relevant. A significant change may		
include but is not limited to: losing a job,		
changing a residence or provider, and/or moving		
to a new region of the state.		
8. If a person is receiving more than one type of		
service from the same provider, one PCA with		
information about each service is acceptable.		
9. Changes to an updated PCA should be		
signed and dated to demonstrate that the		
assessment was reviewed.		
10. A career development plan is developed by		
the CIE provider and can be a separate		
document or be added as an addendum to a		
PCA. The career development plan should have

20.5.3 Health Passport and Physician Consultation Form: All Primary and Secondary Provider Agencies must use the Health Passport and Physician Consultation form from the Therap system. This standardized document contains individual, physician and emergency contact information, a complete list of current medical diagnoses, health and safety risk factors, allergies, and information regarding insurance, guardianship, and advance directives. The Health Passport also includes a standardized form to use at medical appointments called the Physician Consultation form. The Physician Consultation form contains a list of all current medications. Requirements for the Health Passport and Physician Consultation form are: 2. The Primary and Secondary Provider Agencies must ensure that a current copy of the Health Passport and Physician Consultation forms are printed and available at all service delivery sites. Both forms must be reprinted and placed at all service delivery sites each time the e-CHAT is updated for any reason and whenever there is a change to contact information contained in the IDF.		
Chapter 13: Nursing Services: 13.2.9 Healthcare Plans (HCP): 1. At the nurse's discretion, based on prudent nursing practice, interim HCPs may be developed to address issues that must be implemented immediately after admission, readmission or change of medical condition to provide safe services prior to completion of the e-CHAT and		

formal care planning process. This includes interim

ARM plans for those persons newly identified at moderate or high risk for aspiration. All interim plans must be removed if the plan is no longer needed or when final HCP including CARMPs are in place to avoid duplication of plans.  2. In collaboration with the IDT, the agency nurse is required to create HCPs that address all the areas identified as required in the most current e-CHAT summary		
13.2.10 Medical Emergency Response Plan (MERP):  1. The agency nurse is required to develop a Medical Emergency Response Plan (MERP) for all conditions marked with an "R" in the e-CHAT summary report. The agency nurse should use her/his clinical judgment and input from the Interdisciplinary Team (IDT) to determine whether shown as "C" in the e-CHAT summary report or other conditions also warrant a MERP.  2. MERPs are required for persons who have one or more conditions or illnesses that present a likely potential to become a life-threatening situation.

Developmental Disabilities (DD) Waiver Service Standards 2/26/2018; Eff Date: 3/1/2018 Chapter 20: Provider Documentation and Client Records: 20.2 Client Records Requirements: All DD Waiver Provider Agencies are required to create and maintain individual client records. The contents of client records vary depending on the unique needs of the person receiving services and the resultant information produced. The extent of documentation required for individual client records per service type depends on the location of the file, the type of service being provided, and the information necessary.  DD Waiver Provider Agencies are required to adhere to the following:  1. Client records must contain all documents essential to the service being provided and essential to ensuring the health and safety of the person during the provision of the service.  2. Provider Agencies must have readily accessible records in home and community settings in paper or electronic form. Secure access to electronic records through the Therap web based system using computers or mobile devices is acceptable.  3. Provider Agencies are responsible for ensuring that all plans created by nurses, RDs, therapists or BSCs are present in all needed settings.  4. Provider Agencies must maintain records of all documents produced by agency personnel or contractors on behalf of each person, including any routine notes or data, annual assessments, semi-annual reports, evidence of training provided/received, progress notes, and any other interactions for which billing is generated.	Based on record review, the Agency did not maintain a complete and confidential case file in the residence for 3 of 9 Individuals receiving Living Care Arrangements. Provider Agencies must maintain records of all documents produced by agency personnel or contractors on behalf of each person, including any routine notes or data, annual assessments, semi-annual reports, evidence of training provided/received, progress notes, and any other interactions for which billing is generated.  5. Each Provider Agency is responsible for maintaining the daily or other contact notes documenting the nature and frequency of service delivery, as well as data tracking only for the services provided by their agency.  6. The current Client File Matrix found in Appendix A Client File Matrix details the minimum requirements for records to be stored in agency office files, the delivery site, or with DSP while providing services in the community.  7. All records pertaining to JCMs must be retained permanently and must be made available to DDSD upon request, upon the termination or expiration of a provider agreement, or upon provider withdrawal from services.		
20.5.3 Health Passport and Physician Consultation Form: All Primary and Secondary Provider Agencies must use the Health Passport and Physician Consultation form from the Therap system. This standardized document contains individual, physician and emergency contact information, a complete list of current medical diagnoses, health and safety risk factors, allergies, and information regarding insurance, guardianship, and advance directives. The Health Passport also includes a standardized form to use at medical appointments called the Physician Consultation form. The Physician Consultation form contains a list of all current medications.

All DD Waiver Nursing services must be provided by a Registered Nurse (RN) or licensed practical nurse (LPN) with a current New Mexico license in good standing.  2. Nurses must comply with all aspects of the New Mexico Nursing Practice Act including:  a. An RN must provide face-to-face supervision and oversight for LPNs, Certified Medication Aides (CMAs) and DSP who have been delegated specific nursing tasks.  b. An LPN or CMA may not work without the routine oversight of an RN.		
13.3.2 Scope of Ongoing Adult Nursing Services (OANS): Ongoing Adult Nursing Services (OANS) are an array of services that are available to young adult and adults who require supports for specific chronic or acute health conditions. Chapter 3 Safeguards: 3.1.1 Decision
Consultation Process (DCP): Health decisions are the sole domain of waiver participants, their guardians or healthcare decision makers.

Consultation Process (DCP): Health decisions are the sole domain of waiver participants, their guardians or healthcare decision makers. Participants and their healthcare decision makers can confidently make decisions that are compatible with their personal and cultural values. Provider Agencies are required to support the informed decision making of waiver participants by supporting access to medical consultation, information, and other available resources according to the following:

- 1. The DCP is used when a person or his/her guardian/healthcare decision maker has concerns, needs more information about health-related issues, or has decided not to follow all or part of an order, recommendation, or suggestion. This includes, but is not limited to:
- a. medical orders or recommendations from the Primary Care Practitioner, Specialists or other licensed medical or healthcare practitioners such as a Nurse Practitioner (NP or CNP), Physician Assistant (PA) or Dentist;
- b. clinical recommendations made by registered/licensed clinicians who are either members of the IDT or clinicians who have performed an evaluation such as a videofluoroscopy;
- c. health related recommendations or suggestions from oversight activities such as the Individual Quality Review (IQR) or other DOH review or oversight activities; and
- d. recommendations made through a Healthcare

2. When the person/guardian disagrees with a recommendation or does not agree with the implementation of that recommendation, Provider Agencies follow the DCP and attend the meeting coordinated by the CM. During this meeting: a. Providers inform the person/guardian of the rationale for that recommendation, so that the benefit is made clear. This will be done in layman's terms and will include basic sharing of information designed to assist the person/guardian with understanding the risks and benefits of the recommendation. b. The information will be focused on the specific area of concern by the person/guardian. Alternatives should be presented, when available, if the guardian is interested in considering other options for implementation. c. Providers support the person/guardian to make an informed decision. d. The decision made by the person/guardian during the meeting is accepted; plans are modified;	
and the IDT honors this health decision in every	
setting.	
Chapter 13 Nursing Services: 13.2.5 Electronic Nursing Assessment and Planning Process: The nursing assessment	
process includes several DDSD mandated tools:	
the electronic Comprehensive Nursing Assessment	
Tool (e-CHAT), the Aspiration Risk Screening Tool	
(ARST) and the Medication Administration	
Assessment Tool (MAAT) . This process includes	
developing and training Health Care Plans and	
Medical Emergency Response Plans.	
The following hierarchy is based on budgeted	
services and is used to identify which Provider Agency nurse has primary responsibility for	
completion of the nursing assessment process and	
Additional communication and collaboration for	
related subsequent planning and training. Additional communication and collaboration for	

planning specific to CCS or CIE services may be		
needed.		
The hierarchy for Nursing Assessment and		
Planning responsibilities is:		
Living Supports: Supported Living, IMLS or      AND		
Family Living via ANS;		
2. Customized Community Supports- Group; and		
3. Adult Nursing Services (ANS):		
a. for persons in Community Inclusion with health-		
related needs; or		
b. if no residential services are budgeted but		
assessment is desired and health needs may exist.		
13.2.6 The Electronic Comprehensive Health		
Assessment Tool (e-CHAT)		
1. The e-CHAT is a nursing assessment. It may not		
be delegated by a licensed nurse to a non-licensed		
person.		
2. The nurse must see the person face-to-face to		
complete the nursing assessment. Additional		
information may be gathered from members of the		
IDT and other sources.		
3. An e-CHAT is required for persons in FL, SL,		
IMLS, or CCS-Group. All other DD Waiver		
recipients may obtain an e-CHAT if needed or		
desired by adding ANS hours for assessment and		
consultation to their budget.		
4. When completing the e-CHAT, the nurse is		
required to review and update the electronic record		
and consider the diagnoses, medications,		
treatments, and overall status of the person.		
Discussion with others may be needed to obtain		
critical information.		
5. The nurse is required to complete all the e-		
CHAT assessment questions and add additional		
pertinent information in all comment sections.

(MAAT) at least two weeks before the annual ISP		
meeting.		
2. After completion of the MAAT, the nurse will		
present recommendations regarding the level of		
assistance with medication delivery (AWMD) to the		
IDT. A copy of the MAAT will be sent to all the		
team members two weeks before the annual ISP		
meeting and the original MAAT will be retained in		
the Provider Agency records.		
3. Decisions about medication delivery are made		
by the IDT to promote a person's maximum		
independence and community integration. The IDT		
will reach consensus regarding which criteria the		
person meets, as indicated by the results of the		
MAAT and the nursing recommendations, and the		
decision is documented this in the ISP.		
13.2.9 Healthcare Plans (HCP):		
At the nurse's discretion, based on prudent		
nursing practice, interim HCPs may be developed		
to address issues that must be implemented		
immediately after admission, readmission or		
change of medical condition to provide safe		
services prior to completion of the e-CHAT and		
formal care planning process. This includes interim		
ARM plans for those persons newly identified at		
moderate or high risk for aspiration. All interim		
plans must be removed if the plan is no longer		
needed or when final HCP including CARMPs are		
in place to avoid duplication of plans.		
2. In collaboration with the IDT, the agency nurse		
is required to create HCPs that address all the		
areas identified as required in the most current e-		
CHAT summary report which is indicated by "R" in		
the HCP column. At the nurse's sole discretion,		
based on prudent nursing practice, HCPs may be		
combined where clinically appropriate. The nurse		
should use nursing judgment to determine whether		
to also include HCPs for any of the areas indicated		
by "C" on the e-CHAT summary report. The nurse		
may also create other HCPs plans that the nurse		

determines are warranted.

# 13.2.10 Medical Emergency Response Plan (MERP): 1. The agency nurse is required to develop a Medical Emergency Response Plan (MERP) for all conditions marked with an "R" in the e-CHAT summary report. The agency nurse should use her/his clinical judgment and input from the Interdisciplinary Team (IDT) to determine whether shown as "C" in the e-CHAT summary report or other conditions also warrant a MERP. 2. MERPs are required for persons who have one or more conditions or illnesses that present a likely potential to become a life-threatening situation. **Chapter 20: Provider Documentation and Client** Records: 20.5.3 Health Passport and Physician Consultation Form: All Primary and Secondary Provider Agencies must use the Health Passport and Physician Consultation form from the Therap system. This standardized document contains individual, physician and emergency contact information, a complete list of current medical diagnoses, health and safety risk factors, allergies, and information regarding insurance, guardianship, and advance directives. The Health Passport also includes a standardized form to use at medical appointments called the Physician Consultation form. In addition, the MAAT must be updated for any significant change of medication regime, change of route that requires delivery by licensed or certified staff, or when an individual has completed training designed to improve their skills to support self-administration.		
a. For newly-allocated or admitted individuals, assessments are required to be completed within three (3) business days of admission or two (2) weeks following the initial ISP meeting, whichever comes first.		
b. For individuals already in services, the required assessments are to be completed no more than forty-five (45) calendar days and at least fourteen (14) calendar days prior to the annual ISP meeting.		
c. Assessments must be updated within three (3) business days following any significant change of clinical condition and within three (3) business days following return from hospitalization.		

d. Other nursing assessments conducted to

Each HRC is required to have a provision for	
emergency approval of rights restrictions based	
upon credible threats of harm against self or	
others that may arise between scheduled HRC	
meetings (e.g., locking up sharp knives after a	
serious attempt to injure self or others or a	
disclosure, with a credible plan, to seriously	
injure or kill someone). The confidential and	
HIPAA compliant emergency meeting may be	
via telephone, video or conference call, or

emergency phone meeting, and a subsequent	
follow-up emergency meeting in complex and/or	
ongoing situations.	
8. The HRC with primary responsibility for	
implementation of the rights restriction will

basis, i.e., each meeting discussion for an	
individual will be recorded separately, and	
minutes of all meetings will be retained at the	
agency for at least six years from the final date	
of continuance of the restriction.	
3.3.3 HRC and Behavioral Support: The HRC	
reviews temporary restrictions of rights that are	
related to medical issues or health and safety	
considerations such as decreased mobility (e.g.,	
the use of bed rails due to risk of falling during	
the night while getting out of bed). However,	
other temporary restrictions may be	
implemented because of health and safety	
considerations arising from behavioral issues.	
Positive Behavioral Supports (PBS) are	
mandated and used when behavioral support is	
needed and desired by the person and/or the	
IDT. PBS emphasizes the acquisition and	
maintenance of positive skills (e.g. building	
healthy relationships) to increase the person's	
quality of life understanding that a natural

- **21.9.1 Requirements for Daily Units:** For services billed in daily units, Provider Agencies must adhere to the following:
- 1. A day is considered 24 hours from midnight to midnight.
- 2. If 12 or fewer hours of service are provided, then one-half unit shall be billed. A whole unit can be billed if more than 12 hours of service is provided during a 24-hour period.
- 3. The maximum allowable billable units cannot exceed 340 calendar days per ISP year or 170 calendar days per six months.
- 4. When a person transitions from one Provider Agency to another during the ISP year, a standard formula to calculate the units billed by each Provider Agency must be applied as follows:
- a. The discharging Provider Agency bills the number of calendar days that services were provided multiplied by .93 (93%).
- b. The receiving Provider Agency bills the remaining days up to 340 for the ISP year.
- **21.9.2 Requirements for Monthly Units:** For services billed in monthly units, a Provider Agency must adhere to the following:
- 1. A month is considered a period of 30 calendar days.
- 2. At least one hour of face-to-face billable

Documentation received accounted for 12 units.

Dear Mr. Franco & Mr. Johnson;

The Division of Health Improvement Quality Management Bureau received and reviewed the documents you submitted for your Plan of Correction. Your Plan of Correction is not closed.

# Your Plan of Correction will be considered for closure when a Verification survey confirms that you have corrected all survey deficiencies and sustained all corrections.

The Quality Management Bureau will need to conduct a verification survey to ensure previously cited deficiencies have been corrected and that systemic Quality Improvement and Quality Assurance processes have been effective at sustaining corrections.

If the Verification survey determines survey deficiencies have been corrected and corrective measures have effectively maintained compliance with DDW Standards, your Plan of Correction will be considered for closure.

If the Verification survey identifies repeat deficiencies, the Plan of Correction process will continue and your case may be referred to the Internal Review Committee for discussion of possible civil monetary penalties possible monetary fines and/or other sanctions.

Thank you for your cooperation with the Plan of Correction process.

Sincerely,

Amanda Castañeda
