Management Bureau

Team Members: Nadine Romero, LBSW, Healthcare Surveyor, Division of Health Improvement/Quality

Management Bureau & Regina Lewis, Social & Community Service Coordinator,

Developmental Disabilities Supports Division

Dear Mr. Henderson,

The Division of Health Improvement/Quality Management Bureau has completed a compliance survey of the services identified above. The purpose of the survey was to determine compliance with federal and state standards; to assure the health, safety, and welfare of individuals receiving services through the Developmental Disabilities Waiver; and to identify opportunities for improvement. This Report of Findings will be shared with the Developmental Disabilities Supports Division for their use in determining your current and future provider contracts. Upon receipt of this letter and Report of Findings your agency must immediately correct all deficiencies which place Individuals served at risk of harm.

Quality Management Compliance Determination:

The Division of Health Improvement is issuing your agency a determination of "Substandard Compliance with Conditions of Participation."

Plan of Correction:

The attached Report of Findings identifies deficiencies found during your agency's compliance review. You are required to complete and implement a Plan of Correction. Please submit your agency's Plan of Correction in the space on the two right columns of the Report of Findings. See attachment "A" for additional guidance in completing the Plan of Correction. The response is due to the parties below within 10 business days of the receipt of this letter:

- 1. Quality Management Bureau, Attention: Plan of Correction Coordinator 5301 Central Ave. NE Suite 400 Albuquerque, NM 87108
- 2. Developmental Disabilities Supports Division Metro Regional Office

"Assuring safety and quality of care in New Mexico's health facilities and community-based programs."

Roger Gillespie, Acting Division Director • Division of Health Improvement

Quality Management Bureau • 5301 Central Ave. NE Suite 400 • Albuquerque, New Mexico 87108

(505) 222-8623 • FAX: (505) 222-8661 • http://dhi.health.state.nm.us

QMB Report of Findings - Expressions Unlimited Co. - Metro Region - April 4 - 6, 2011

Upon notification from QMB that your Plan of Correction has been approved, you must implement all remedies and corrective actions within 45 business days. If your Plan of Correction is denied, you must resubmit a revised plan as soon as possible for approval, as all remedies must still be completed within 45 business days of the receipt of this letter.

Failure to submit, complete or implement your Plan of Correction within the 45 day required time frames may result in the imposition of a \$200 per day Civil Monetary Penalty until it is received, completed and/or implemented.

Request for Informal Reconsideration of Findings (IRF):

If you disagree with a finding of deficient practice, you have 10 business days upon receipt of this notice to request an IRF. Submit your request for an IRF in writing to:

QMB Deputy Bureau Chief 5301 Central Ave NE Suite #400 Albuquerque, NM 87108 Attention: IRF request

See Attachment "C" for additional guidance in completing the request for Informal Reconsideration of Findings. The request for an IRF will not delay the implementation of your Plan of Correction which must be completed within 45 business days. Providers may not appeal the nature or interpretation of the standard or regulation, the team composition or sampling methodology. If the IRF approves the modification or removal of a finding, you will be advised of any changes.

Please call the Plan of Correction Coordinator at 505-222-8647 if you have questions about the Report of Findings or Plan of Correction. Thank you for your cooperation and for the work you perform.

Sincerely,

Tony Fragua, BFA

Provider Instructions for Completing the QMB Plan of Correction (POC) Process

Introduction:

After a QMB Compliance Review, your QMB Report of Findings will be sent to you via US mail.

Each provider must develop and implement a Plan of Correction (POC) that identifies specific quality assurance and quality improvement activities the agency will implement to correct deficiencies and prevent continued non compliance.

Agencies must submit their Plan of Correction within 10 business days from the date you receive the QMB Report of Findings. (Providers who do not submit a POC within 10 days will be referred to the Internal Review Committee [IRC] for sanctions).

If you have questions about the Plan of Correction process, call the QMB Plan of Correction Coordinator at 505-222-8647 or email at George.Perrault@state.nm.us. Requests for technical assistance must be requested through your DDSD Regional Office.

If you wish to dispute a finding on the official Report of Findings, you must file an Informal Reconsideration of Findings (IRF) request within ten (10) days of receiving your report. The POC process cannot resolve disputes regarding findings. Please note that you must still submit a POC for findings that are in question (see Attachment "C").

Instructions for Completing Agency POC:

Required Content

Your Plan of Correction should provide a step-by-step description of the methods to correct each deficient practice to prevent recurrence and information that ensures the regulation cited is in compliance. The remedies noted in your POC are expected to be added to your Agency's required, annual Quality Assurance Plan. (see page 3, DDW standards, effective; April 1, 2007, Chapter 1, Section I Continuous Quality Management System)

If a deficiency has already been corrected, the plan should state how it was corrected, the completion date (date the correction was accomplished), and how possible recurrence of the deficiency will be prevented.

The Plan of Correction you submit needs to address **each deficiency** in the two right hand columns with:

- 1. How the corrective action will be accomplished for all cited deficiencies in the report of findings;
- 2. How your Agency will identify all other individuals having the potential to be affected by the same deficient practice:
- 3. What measures will be put into place or what systemic changes will be made to ensure that the deficient practice will not reoccur and corrective action is sustained;
- 4. How your Agency plans to monitor corrective actions utilizing its continuous Quality Assurance/Quality Improvement Plan to assure solutions in the plan of correction are achieved and sustained, including (if appropriate):
 - Details about how and when Consumer, Personnel and Residential files are audited by Agency personnel to ensure they contain required documents;
 - Information about how Medication Administration Records are reviewed to verify they contain all required information before they are distributed, as they are being used, and after they are completed;
 - Your processes for ensuring that all staff are trained in Core Competencies, Incident Reporting, and Individual-Specific service requirements, etc;
 - How accuracy in Billing documentation is assured;

- How health, safety is assured;
- For Case Management Providers, how ISPs are reviewed to verify they meet requirements, how the timeliness of LOC packet submissions and consumer visits are tracked;
- Your process for gathering, analyzing and responding to Quality data, and
- Details about Quality Targets in various areas, current status, Root Cause Analyses about why Targets were not met, and remedies implemented.
- 5. The individual's title responsible for the Plan of Correction and completion date.

Note: Instruction or in-service of staff alone may not be a sufficient plan of correction. This is a good first step toward correction, but additional steps should be taken to ensure the deficiency is corrected and will not recur.

Completion Dates

The plan of correction must include a **completion date** (entered in the far right-hand column). Be sure the date is **realistic** in the amount of time your Agency will need to correct the deficiency; not to exceed 45 days.

Direct care issues should be corrected immediately and monitored appropriately. Some deficiencies may require a staged plan to accomplish total correction. Deficiencies requiring replacement of equipment, etc., may require more time to accomplish correction but should show reasonable time frames.

Plan of Correction Submission Requirements

- Your Plan of Correction must be completed on the official QMB Survey Report of Findings/Plan of Correction Form and received by QMB within ten (10) business days from the date you received the report of findings.
- 2. If you have questions about the POC process, call the POC Coordinator, George Perrault at 505-222-8647 for assistance.
- 3. For Technical Assistance (TA) in developing or implementing your POC, contact your local DDSD Regional Office.
- 4. Submit your POC to George Perrault, POC Coordinator in any of the following ways:
 - a. Electronically at George.Perrault@state.nm.us
 - b. Faxed to 505-222-8661, or
 - c. Mailed to QMB, 5301 Central Avenue SW, Suite 400, Albuquerque, NM 87108
- 5. Do not send supporting documentation to QMB until after your POC has been approved by QMB.
- 6. QMB will notify you when your POC has been "approve" or "denied."
 - a. Whether your POC is "approved," or "denied," you will have a maximum of 45 business days from the date of receipt of your Report of Findings to correct all survey deficiencies.
 - b. If your POC is "Denied" it must be revised and resubmitted as soon as possible, as the 45 business day limit is in effect.
 - c. If your POC is "Denied" a second time your agency may be referred to the Internal Review Committee
 - d. You will receive written confirmation that your POC has been approved by QMB and a final deadline for completion of your POC.
- Failure to submit your POC within 10 days without prior approval of an extension by QMB will result in a referral to the Internal Review Committee and the possible implementation of monetary penalties and/or sanctions.
- 8. Revisions, Modifications or Extensions to your Plan of Correction (post QMB approval) must be made in writing and submitted to the Plan of Correction Coordinator at QMB, prior to the due date and are approved on a case-by-case basis. No changes may be made to your POC or the timeframes for implementation without written approval of the POC Coordinator.

POC Document Submission Requirements

Once your POC has been approved by the QMB Plan of Correction Coordinator you must submit copies of documents as evidence that all deficiencies have been corrected, as follows.

- 1. Your internal documents are due within a <u>maximum</u> of 45 business days of receipt of your Report of Findings.
- 2. You may submit your documents by postal mail, fax, or electronically on disc or scanned and attached to e-mails.
- 3. All submitted documents <u>must be annotated</u>: please be sure the tag numbers and Identification numbers are indicated on each document submitted. Documents which are not annotated with the Tag number and Identification number may not be accepted.
- 4. Do not submit original documents; hard copies or scanned and electronically submitted copies are fine. Originals must be maintained in the agency file(s) per DDSD Standards.
- 5. In lieu of some documents, you may submit copies of file or home audit forms that clearly indicate cited deficiencies have been corrected, other attestations of correction must be approved by the Plan of Correction Coordinator prior to their submission.
- 6. For billing deficiencies, you must submit:
 - a. Evidence of an internal audit of billing documentation for a sample of individuals and timeframes;
 - b. Copies of "void and adjust" forms submitted to correct all over-billed or unjustified units billed identified during your internal audit.

QMB Scope and Severity Matrix

Each deficiency in your Report of Findings is scored on a Scope and Severity Scale. The culmination of each deficiency's Scope and Severity is used to determine degree of compliance to standards and regulations and level of QMB Compliance Determination.

				SCOPE	
			Isolated 01% - 15%	Pattern 16% - 79%	Widespread 80% - 100%
SEVERITY	High Impact	Immediate Jeopardy to individual health and or safety	J.	К.	L.
		Actual harm	G.	Н.	I.
	Medium Impact	No Actual Harm Potential for more than	D.	E.	F. (3 or more)
	Mec	minimal harm	D . (2 or less)		F. (no conditions of participation)
	Low Impact	No Actual Harm Minimal potential for harm.	Α.	B.	C.

Scope and Severity Definitions:

Isolated:

A deficiency that is limited to 1% to 15% of the sample, usually impacting few individuals in the sample.

Pattern:

A deficiency that impacts a number or group of individuals from 16% to 79% of the sample is defined as a pattern finding. Pattern findings suggest the need for system wide corrective actions.

Widespread:

A deficiency that impacts most or all (80% to 100%) of the individuals in the sample is defined as widespread or pervasive. Widespread findings suggest the need for system wide corrective actions as well as the need to implement a Continuous Quality Improvement process to improve or build infrastructure. Widespread findings could be referred to the Internal Review Committee for review and possible actions or sanctions.

QMB Determinations of Compliance

• "Substantial Compliance with Conditions of Participation"

The QMB determination of "Substantial Compliance with Conditions of Participation" indicates that a provider is in substantial compliance with all 'Conditions of Participation' and other standards and regulations. The agency has obtained a level of compliance such that there is a minimal potential for harm to individuals' health and safety. To qualify for a determination of Substantial Compliance with Conditions of Participation, the provider must be in compliance with all Conditions of Participation.

"Non-Compliance with Conditions of Participation"

The QMB determination of "Non-Compliance with Conditions of Participation" indicates that a provider is out of compliance with one (1) or more 'Conditions of Participation.' This non-compliance, if not corrected, is likely to result in a serious negative outcome or the potential for more than minimal harm to individuals' health and safety.

Providers receiving a <u>repeat</u> determination of 'Non-Compliance' may be referred by QMB to the Internal Review Committee (IRC) for consideration of remedies and possible actions.

"Sub-Standard Compliance with Conditions of Participation":

The QMB determination of "Sub-Standard Compliance with Conditions of Participation" indicates a provider is significantly out of compliance with Conditions of Participation and/or has:

- Multiple findings of widespread non-compliance with any standard or regulation with a significant potential for more than minimal harm.
- Any finding of actual harm or Immediate Jeopardy.

Providers receiving a <u>repeat</u> determination of 'Substandard Compliance' will be referred by QMB to the Internal Review Committee (IRC) for consideration of remedies and possible actions.

Guidelines for the Provider Informal Reconsideration of Finding (IRF) Process

Introduction:

Throughout the QMB Survey process, surveyors are openly communicating with providers. Open communication means that surveyors have clarified issues and/or requested missing information before completing the review. Regardless, there may still be instances where the provider disagrees with a specific finding. Providers may use the following process to informally dispute a finding.

Instructions:

- 1. The Informal Reconsideration of the Finding (IRF) request must be in writing to the QMB Deputy Bureau Chief **within 10 working days** of receipt of the final report.
- 2. The written request for an IRF must be completed on the QMB Request for Informal Reconsideration of Finding Form available on the QMB website: http://dhi.health.state.nm.us/qmb
- 3. The written request for an IRF must specify in detail the request for reconsideration and why the finding is inaccurate.
- 4. The IRF request must include all supporting documentation or evidence.

The following limitations apply to the IRF process:

- The request for an IRF and all supporting evidence must be received within 10 days.
- Findings based on evidence requested during the survey and not provided may not be subject to reconsideration.
- The supporting documentation must be new evidence not previously reviewed or requested by the survey team.
- Providers must continue to complete their Plan of Correction during the IRF process
- Providers may not request an IRF to challenge the sampling methodology.
- Providers may not request an IRF based on disagreement with the nature of the standard or regulation.
- Providers may not request an IRF to challenge the team composition.
- Providers may not request an IRF to challenge the QMB compliance determination or the length of their DDSD provider contract.

A Provider forfeits the right to an IRF if the request is not made within 10 working days of receiving the report and/or does not include all supporting documentation or evidence to show compliance with the standards and regulations.

QMB has 30 working days to complete the review and notify the provider of the decision. The request will be reviewed by the IRF committee. The Provider will be notified in writing of the ruling; no face to face meeting will be conducted.

When a Provider requests that a finding be reconsidered, it does not stop or delay the Plan of Correction process. Providers must continue to complete the Plan of Correction, including the finding in dispute regardless of the IRF status. If a finding is removed or modified, it will be noted and removed or modified from the Report of Findings. It should be noted that in some cases a Plan of Correction may be completed prior to the IRF process being completed. The provider will be notified in writing on the decisions of the IRF committee.

7.1.13.9 INCIDENT MANAGEMENT SYSTEM REPORTING REQUIREMENTS FOR COMMUNITY BASED SERVICE PROVIDERS:

- E. Quality Improvement System for Community Based Service Providers: The community based service provider shall establish and implement a quality improvement system for reviewing alleged complaints and incidents. The incident management system shall include written documentation of corrective actions taken. The community based service provider shall maintain documented evidence that all alleged violations are thoroughly investigated, and shall take all reasonable steps to prevent further incidents. The community based service provider shall provide the following internal monitoring and facilitating quality improvement system:
- (1) community based service providers funded through the long-term services division to provide waiver services shall have current incident management policy and procedures in place, which comply with the department's current requirements:
- (2) community based service providers providing developmental disabilities services must have a designated incident management coordinator in place:
- (4) community based service providers providing developmental disabilities services must have an incident management committee to address internal and external incident reports for the purpose of looking at internal root causes and to take action on identified trends or issues.

(4) community based service providers providing developmental disabilities services must have an incident management committee to address internal and external incident reports for the purpose of looking at internal root causes and to take action on identified trends or issues.

When #48 was asked if the Agency had an Incident Management Quality Improvement System, which included, a process for reviewing alleged, complaints & incident; documentation of internal investigations of alleged violations; reasonable steps taken to prevent further incident and documentation of corrective active, the following was reported:

• #48 stated, "We are currently not trending now."

- Loratadine 10mg (1 time daily)
- Simvastatin 40mg (1 time daily)

January 2011

Medication Administration Records contain the following medications. No Physician's Orders were found for the following medications:

- Levothyroxine 50mgmcg (1 time daily)
- Loratadine 10mg (1 time daily)
- Simvastatin 40mg (1 time daily)

February 2011

Medication Administration Records contain the following medications. No Physician's Orders were found for the following medications:

- Levothyroxine 50mgmcg (1 time daily)
- Loratadine 10mg (1 time daily)
- Simvastatin 40mg (1 time daily)

Individual #3

December 2010

During on-site survey Medication Administration Records were requested for months of December 2010, January 2011, and February 2011. As of 4/8/2011, Medication Administration Records for December 2010 had not been provided.

During on-site survey Physician Orders were requested. As of 4/8/2011, Physician Orders had not been provided.

January 2011

During on-site survey Medication Administration Records were requested for months of December administering medications.

Model Custodial Procedure Manual D. Administration of Drugs

Unless otherwise stated by practitioner, patients will not be allowed to administer their own medications. Document the practitioner's order authorizing the self-administration of medications.

All PRN (As needed) medications shall have complete detail instructions regarding the administering of the medication. This shall include:

- > symptoms that indicate the use of the medication.
- > exact dosage to be used, and
- the exact amount to be used in a 24 hour period.

2010, January 2011, and February 2011. As of 4/8/2011, Medication Administration Records for January 2011 had not been provided.

During on-site survey Physician Orders were requested. As of 4/8/2011, Physician Orders had not been provided.

February 2011

During on-site survey Physician Orders were requested. As of 4/8/2011, Physician Orders had not been provided.

Medication Administration Records did not contain the diagnosis for which the medication is prescribed:

Dronabinol 2.5mg (2 times daily)

Medication Administration Records contained missing entries. No documentation found indicating reason for missing entries:

 Dronabinol 2.5mg (2 times daily) – Blank 2/1, 2 & 3 (12 PM)

Individual #5

December 2010

Medication Administration Records contained missing entries. No documentation found indicating reason for missing entries:

- Dovonex 0.005% Cream (2 times daily) Blank 12/28, 29, 30 & 31 (8PM)
- Flovent HFA 110mcg (2 times daily) Blank 12/31 (8PM)

Medication Administration Records did not contain the diagnosis for which the medication is prescribed:

Humira 40mg/0.8ml PEN (Inject every other week)

Medication Administration Records contain the

following medications. No Physician's Orders were found for the following medications:

- Levothyroxine 100mcg (1 time daily)
- Risperidone 3mg (1 time daily)
- Tegretol XR 200mg (1 time daily)
- Benztropine MES 2mg (2 times daily)
- Flovent HFA 110mcg (2 times daily)
- Oxybutynin 5mg (2 times daily)

January 2011

Medication Administration Records contained missing entries. No documentation found indicating reason for missing entries:

- Humira 40mg/0.8ml Pen (Inject every other week) – Blank 1/18
- Thick-it (2 times daily) Blank 1/30 (8PM)
- Dovonex 0.005% Cream (2 times daily) Blank 1/2, 8, 9, 15, 16, 22, 23 & 30 (7AM); 1/2, 5, 6, 7, 8, 12, 13, 14, 15, 16, 19, 20, 22, 23, 26, 27, 28, 29 & 30 (8PM)

Medication Administration Records did not contain the diagnosis for which the medication is prescribed:

Humira 40mg/0.8ml PEN (Inject every other week)

Medication Administration Records contain the following medications. No Physician's Orders were found for the following medications:

- Levothyroxine 100mcg (1 time daily)
- Risperidone 3mg (1 time daily)
- Tegretol XR 200mg (1 time daily)

- Benztropine MES 2mg (2 times daily)
- Flovent HFA 110mcg (2 times daily)
- Oxybutynin 5mg (2 times daily)

February 2011

Medication Administration Records did not contain the diagnosis for which the medication is prescribed:

Humira 40mg/0.8ml PEN (Inject every other week)

Medication Administration Records indicates medication was given on following dates, however back of MAR contained the entry "not here" for each of those dates. MAR notes contradicts that the medication was given:

Dovonex 0.005% Cream (2 times daily) – 2/1,
 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 & 12 (AM & PM)

Medication Administration Records indicates medication was given on following dates, however back of MAR contained the entry "not here" for each of those dates. MAR notes contradicts that the medication was given:

Dovonex 0.005% Cream (2 times daily) – 2/1,
 2, 3, 4, 7, 8, 9 & 10 (7AM) & 2/1, 2 & 7 (PM)

Medication Administration Records contained missing entries. No documentation found indicating reason for missing entries:

Dovonex 0.005% Cream (2 times daily) – Blank 2/13, 14, 19, 20, 25, 26, 27 & 28 (7AM) & 2/13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25 & 26 (PM)

Medication Administration Records contain the following medications. No Physician's Orders were found for the following medications:

• Levothyroxine 100mcg (1 time daily)

 Risperidone 3mg (1 time daily) Tegretol XR 200mg (1 time daily) Benztropine MES 2mg (2 times daily) Flovent HFA 110mcg (2 times daily) April 2011 Medication Administration Records did not contain the diagnosis for which the medication is prescribed: Humira 40mg/0.8ml PEN (Inject every other week)

- (d) The facility shall have a Medication Administration Record (MAR) documenting medication administered to residents, **including over-the-counter medications.** This documentation shall include:
 - (i) Name of resident;
 - (ii) Date given;
 - (iii) Drug product name;
 - (iv) Dosage and form;
 - (v) Strength of drug;
 - (vi) Route of administration;
 - (vii) How often medication is to be taken;
 - (viii) Time taken and staff initials;
 - (ix) Dates when the medication is discontinued

contain the dosage for the following medication:

• Guaifenesnin-DM 100-10/5ml (PRN)

Medication Administration Records contain the following medications. No Physician's Orders were found for the following medications:

- Acetaminophen 325mg (PRN)
- Albuterol 90mcg Inhaler (PRN)
- Guaifenesin-DM 100-10/5ml (PRN)
- Naproxen 500mg (PRN)
- Pseudoephedrine 30mg (PRN)

February 2011

Medication Administration Records did not contain the exact amount to be used in a 24 hour period:

- Albuterol 90cg Inhaler (PRN)
- Guaifenesnin-DM 100-10/5ml (PRN)

Medication Administration Records did not contain the dosage for the following medication;

• Guaifenesnin-DM 100-10/5ml (PRN)

Medication Administration Records contain the following medications. No Physician's Orders were found for the following medications:

- Acetaminophen 325mg (PRN)
- Albuterol 90mcg Inhaler (PRN)
- Guaifenesin-DM 100-10/5ml (PRN)
- Naproxen 500mg (PRN)
- Pseudoephedrine 30mg (PRN)

or changed;

 The name and initials of all staff administering medications.

Model Custodial Procedure Manual D. Administration of Drugs

Unless otherwise stated by practitioner, patients will not be allowed to administer their own medications. Document the practitioner's order authorizing the self-administration of medications.

All PRN (As needed) medications shall have complete detail instructions regarding the administering of the medication. This shall include:

- symptoms that indicate the use of the medication,
- > exact dosage to be used, and
- the exact amount to be used in a 24 hour period.

Department of Health Developmental Disabilities Supports Division (DDSD) Medication Assessment and Delivery Policy - Eff. November 1, 2006

F. PRN Medication

3. Prior to self-administration, self-administration with physical assist or assisting with delivery of PRN medications, the direct support staff must contact the agency nurse to describe observed symptoms and thus assure that the PRN medication is being used according to instructions given by the ordering PCP. In cases of fever, respiratory distress (including coughing), severe pain, vomiting, diarrhea, change in responsiveness/level of consciousness, the nurse must strongly consider the need to conduct a face-to-face assessment to assure that the PRN does not mask a condition better treated by seeking medical attention. This does not apply to home based/family living settings where the provider is related by affinity or by consanguinity to the individual.

Individual #5

February 2011

Medication Administration Records did not contain the exact amount to be used in a 24 hour period:

Dulcolax (PRN)

Medication Administration Records did not contain the strength of the medication which is to be given:

• Dulcolax (PRN)

No Effectiveness was noted on the Medication Administration Record for the following PRN medication:

Acetaminophen 650mg – PRN – 2/20 (given 1 time

4. The agency nurse shall review the utilization of PRN medications routinely. Frequent or escalating use of PRN medications must be reported to the PCP and discussed by the Interdisciplinary for changes to the overall support plan (see Section H of this policy).

H. Agency Nurse Monitoring

1. Regardless of the level of assistance with medication delivery that is required by the individual or the route through which the medication is delivered, the agency nurses must monitor the individual's response to the effects of their routine and PRN medications. The frequency and type of monitoring must be based on the nurse's assessment of the individual and consideration of the individual's diagnoses, health status, stability, utilization of PRN medications and level of support required by the individual's condition and the skill level and needs of the direct care staff. Nursing monitoring should be based on prudent nursing practice and should support the safety and independence of the individual in the community setting. The health care plan shall reflect the planned monitoring of the individual's response to medication.

Department of Health Developmental Disabilities Supports Division (DDSD) - Procedure Title: Medication Assessment and Delivery Procedure Eff Date: November 1, 2006

C. 3. Prior to delivery of the PRN, direct support staff must contact the agency nurse to describe observed symptoms and thus assure that the PRN is being used according to instructions given by the ordering PCP. In cases of fever, respiratory distress (including coughing), severe pain, vomiting, diarrhea, change in responsiveness/level of consciousness, the nurse must strongly consider the need to conduct a face-to-face assessment to assure that the PRN does not mask a condition better treated by seeking medical attention.

(References: Psychotropic Medication Use Policy, Section D, page 5 Use of PRN Psychotropic Medications; and, Human Rights Committee Requirements Policy, Section B, page 4 Interventions Requiring Review and Approval – Use of PRN Medications).		
a. Document conversation with nurse including all reported signs and symptoms, advice given and action taken by staff.		
4. Document on the MAR each time a PRN medication is used and describe its effect on the individual (e.g., temperature down, vomiting lessened, anxiety increased, the condition is the same, improved, or worsened, etc.).

Agencies delivering Community Living Services, Community Inclusion Services and Private Duty Nursing Services. Chapter 1. III. E. (1 - 4) (1) Documentation of nursing assessment activities (a) The following hierarchy shall be used to determine which provider agency is responsible for completion of the HAT and MAAT and related subsequent planning and training: (i) Community living services provider agency; (ii) Private duty nursing provider agency; (iii) Adult habilitation provider agency; (iv) Community access provider agency; (iv) Community access provider agency; (b) The provider agency must arrange for their nurse to complete the Health Assessment Tool (HAT) and the Medication Administration Assessment Tool (MAAT) on at least an annual basis for each individual receiving community living, community inclusion or private duty nursing services, unless the provider agency arranges for the individual's Primary Care Practitioner (PCP) to voluntarily complete these assessments in lieu of the agency nurse. Agency nurses may also complete these assessments in collaboration with the Primary Care Practitioner if they believe such consultation is necessary for an accurate assessment. Family Living Provider Agencies have the option of having the subcontracted caregiver complete the HAT instead of the nurse or PCP, if the caregiver is comfortable doing so. However, the		

agency nurse must be available to assist the		
caregiver upon request.		
(c) For newly allocated individuals, the HAT and the		
MAAT must be completed within seventy-two (72)		
hours of admission into direct services or two weeks		
following the initial ISP, whichever comes first.		
(d) For individuals already in services, the HAT and		
the MAAT must be completed at least fourteen (14)		
days prior to the annual ISP meeting and submitted		
to all members of the interdisciplinary team. The		
HAT must also be completed at the time of any		
significant change in clinical condition and upon		
return from any hospitalizations. In addition to		
annually, the MAAT must be completed at the time		
of any significant change in clinical condition, when		
a medication regime or route change requires		
delivery by licensed or certified staff, or when an		
individual has completed additional training		
designed to improve their skills to support self-		
administration (see DDSD Medication Assessment		
and Delivery Policy).		
(e) Nursing assessments conducted to determine		
current health status or to evaluate a change in		
clinical condition must be documented in a signed		
progress note that includes time and date as well as		
subjective information including the individual		
complaints, signs and symptoms noted by staff,		
family members or other team members; objective		
information including vital signs, physical		
examination, weight, and other pertinent data for the		
given situation (e.g., seizure frequency, method in		
which temperature taken); assessment of the		
clinical status, and <i>plan</i> of action addressing		
relevant aspects of all active health problems and		
follow up on any recommendations of medical		
consultants.		
(2) Health related plans		
(a) For individuals with chronic conditions that have		
the potential to exacerbate into a life-threatening		
situation, a medical crisis prevention and		
intervention plan must be written by the nurse or		
other appropriately designated healthcare		

professional.		
(b) Crisis prevention and intervention plans must be		
written in user-friendly language that is easily		
understood by those implementing the plan.		
(c) The nurse shall also document training		
regarding the crisis prevention and intervention		
plan delivered to agency staff and other team		
members, clearly indicating competency		
determination for each trainee.		
(d) If the individual receives services from separate		
agencies for community living and community		
inclusion services, nurses from each agency shall		
collaborate in the development of and training		
delivery for crisis prevention and intervention plans		
to assure maximum consistency across settings.		
(3) For all individuals with a HAT score of 4, 5 or 6,		
the nurse shall develop a comprehensive healthcare		
plan that includes health related supports identified		
in the ISP (The healthcare plan is the equivalent of		
a nursing care plan; two separate documents are		
not required nor recommended):		
(a) Each healthcare plan must include a statement		
of the person's healthcare needs and list		
measurable goals to be achieved through		
implementation of the healthcare plan. Needs		
statements may be based upon supports needed		
for the individual to maintain a current strength,		
ability or skill related to their health, prevention		
measures, and/or supports needed to remediate,		
minimize or manage an existing health condition.		
(b) Goals must be measurable and shall be revised		
when an individual has met the goal and has the		
potential to attain additional goals or no longer		
requires supports in order to maintain the goal.		
(c) Approaches described in the plan shall be		
individualized to reflect the individual's unique		
needs, provide guidance to the caregiver(s) and		
designed to support successful interactions. Some		
interventions may be carried out by staff, family		
members or other team members, and other		
interventions may be carried out directly by the		
nurse – persons responsible for each intervention		

shall be specified in the plan.		
(d) Healthcare plans shall be written in language		
that will be easily understood by the person(s)		
identified as implementing the interventions.		
(e) The nurse shall also document training on the		
healthcare plan delivered to agency staff and other		
team members, clearly indicating competency		
determination for each trainee. If the individual		
receives services from separate agencies for		
community living and community inclusion services,		
nurses from each agency shall collaborate in the		
development of and training delivery for healthcare		
plans to assure maximum consistency across		
settings.		
(f) Healthcare plans must be updated to reflect		
relevant discharge orders whenever an individual		
returns to services following a hospitalization.		
(g) All crisis prevention and intervention plans and		
healthcare plans shall include the individual's name		
and date on each page and shall be signed by the		
author.		
(h) Crisis prevention and intervention plans as well		
as healthcare plans shall be reviewed by the nurse		
at least quarterly, and updated as needed.		
(4) General Nursing Documentation		
(a) The nurse shall complete legible and signed		
progress notes with date and time indicated that		
describe all interventions or interactions conducted		
with individuals served as well as all interactions		
with other healthcare providers serving the		
individual. All interactions shall be documented		
whether they occur by phone or in person. (b) For individuals with a HAT score of 4, 5 or 6, or		
who have identified health concerns in their ISP,		
the nurse shall provide the interdisciplinary team		
with a quarterly report that indicates current health		
status and progress to date on health related ISP		
·		
desired outcomes and action plans as well as progress toward goals in the healthcare plan.		

Developmental Disabilities (DD) Waiver Service Standards effective 4/1/2007

CHAPTER 5 IV. COMMUNITY INCLUSION		
SERVICES PROVIDER AGENCY		
REQUIREMENTS		
B. IDT Coordination		
(1) Community Inclusion Services Provider		
Agencies shall participate on the IDT as specified in		
the ISP Regulations (7.26.5 NMAC), and shall		
ensure direct support staff participation as needed		
ensure direct support stair participation as needed		
to plan effectively for the individual; and		
(2) Coordinate with the IDT to ensure that each		
individual participating in Community Inclusion		
Services who has a score of 4, 5, or 6 on the HAT		
has a Health Care Plan developed by a licensed		
nurse, and if applicable, a Crisis		
Prevention/Intervention Plan.

Developmental Disabilities (DD) Waiver Service	Based on record review, the Agency failed to ensure	
Standards effective 4/1/2007	that Orientation and Training requirements were met	
CHAPTER 1 IV. GENERAL REQUIREMENTS	for 2 of 6 Direct Service Professionals.	
FOR PROVIDER AGENCY SERVICE		
PERSONNEL: The objective of this section is to	Review of Direct Service Professionals training	
establish personnel standards for DD Medicaid	records found no evidence of the following required	
Waiver Provider Agencies for the following services:	DOH/DDSD trainings and certification being	
Community Living Supports, Community Inclusion	completed:	
Services, Respite, Substitute Care and Personal		
Support Companion Services. These standards	 Assisting With Medication Delivery (DSP #42 & 	
apply to all personnel who provide services, whether	45)	
directly employed or subcontracting with the		
Provider Agency. Additional personnel requirements		
and qualifications may be applicable for specific		
service standards.		
C. Orientation and Training Requirements:		
Orientation and training for direct support staff and		
his or her supervisors shall comply with the DDSD/DOH Policy Governing the Training		
Requirements for Direct Support Staff and Internal		
Service Coordinators Serving Individuals with		
Developmental Disabilities to include the following:		
(1) Each new employee shall receive appropriate		
orientation, including but not limited to, all		
policies relating to fire prevention, accident		
prevention, incident management and		
reporting, and emergency procedures; and		
(2) Individual-specific training for each individual		
under his or her direct care, as described in the		
individual service plan, prior to working alone		
with the individual.		
Department of Health (DOH) Developmental		
Disabilities Supports Division (DDSD) Policy -		
Policy Title: Training Requirements for Direct		
Service Agency Staff Policy - Eff. March 1, 2007 -		
II. POLICY STATEMENTS:		
A. Individuals shall receive services from competent		
and qualified staff.		
B. Staff shall complete individual-specific (formerly		
known as "Addendum B") training requirements in		

accordance with the specifications described in the		
individual service plan (ISP) of each individual		
served.		
C. Staff shall complete training on DOH-approved		
incident reporting procedures in accordance with 7		
NMAC 1.13.		
D. Staff providing direct services shall complete		
training in universal precautions on an annual basis.		
The training materials shall meet Occupational		
Safety and Health Administration (OSHA)		
requirements.		
E. Staff providing direct services shall maintain		
certification in first aid and CPR. The training		
materials shall meet OSHA requirements/guidelines.		
F. Staff who may be exposed to hazardous		
chemicals shall complete relevant training in		
accordance with OSHA requirements.		
G. Staff shall be certified in a DDSD-approved		
behavioral intervention system (e.g., Mandt, CPI)		
before using physical restraint techniques. Staff		
members providing direct services shall maintain		
certification in a DDSD-approved behavioral		
intervention system if an individual they support has		
a behavioral crisis plan that includes the use of		
physical restraint techniques.		
H. Staff shall complete and maintain certification in		
a DDSD-approved medication course in accordance		
with the DDSD Medication Delivery Policy M-001.		
Staff providing direct services shall complete		
safety training within the first thirty (30) days of		
employment and before working alone with an		
individual receiving services.
