2009 New Mexico Middle School Youth Risk and Resiliency Survey (YRRS) Taos County

Introduction

This report contains county level middle school results from the 2009 New Mexico Middle School Youth Risk and Resiliency Survey (YRRS), a statewide survey of public school students, grades 6 -8. Statewide and county level results will be available at www.YouthRisk.org and www.health.state.nm.us/ERD/HealthData/yrrs.shtml. Together, these documents comprise a useful tool for those working on youth-related issues at the state and local level.

The YRRS is organized into two major content areas: risk behaviors and protective (resiliency) factors. Risk behaviors include behaviors associated with unintentional injury, violence, sadness and suicidal ideation, tobacco use, alcohol use, drug use, sexual activity, physical activity, and nutrition. Protective or resiliency factors are measures of the positive and supportive relationships, experiences, activities, resources and values that encourage healthy youth development. Resiliency factors and related traits include caring and supportive relationships in the family, school, community and with peers; boundaries set by the family and school; positive peer support; meaningful participation and constructive use of time in school and outside of school; and others (Appendix B).

Additionally, this report includes a section on academic measures and traits. These academic measures include getting good grades (mostly A's and B's), trying hard to do good work in school, planning to go to college, skipping or ditching school, coming to class with paper and something to write with, and completing homework.

How to Read this Report

This report has three main sections, each of which consists of a set of bar and line charts. The first section presents the results of the major risk behaviors examined in the survey. Each category of risk behavior is presented with several data charts. At the beginning of each topic area, a set of line charts gives results for multiple survey years of the YRRS (2003, 2005, 2007, and 2009). A following set of bar charts compares results for the county to results for the entire state, compares the behaviors of boys to those of girls, and makes comparisons between grade levels within the county.

The second section presents results for the academic measures and behaviors. As with the risk behaviors, there are line and bar charts presenting trends, a comparison between the state and the county, a comparison between boys and girls in the county, and a comparison of grade levels within the county. Using the same styles of charts, the third section of the report presents results for the resiliency/protective factors.

In some cases when there were very few students in a particular age or gender group, data have been suppressed to protect the anonymity of the individual respondents.

NOTE: County level YRRS reports are freely available. School district reports have been distributed to school district offices. School districts are encouraged to reproduce and share these reports with community groups concerned with prevention and health promotion. However, school district level results will not be released without express permission of the school district superintendent. Forms for requesting school district data are available at www.YouthRisk.org.

Understanding the Charts - and A Word about Error Bars

The bar charts in this report present the percentage of students who reported engaging in any given risk behavior or who reported having any given protective factor. The height of the bars conveys the percentage of students reporting each trait, and provides a quick visual comparison between different groups of students reporting that trait. A label for each bar presents the actual percentage of students who reported each trait. For instance, the chart on page 17, Personal Safety: Injury, shows that 7.2% of students in New Mexico rarely or never wore seatbelts, while 11.8% of students in Taos County rarely or never wore seatbelts.

Because of the high cost and logistical complications involved in conducting a statewide survey, the YRRS was administered to a sample of students, rather than to every single student in each school district. Because YRRS data are from a *sample* of students, and not the entire student body, the results in this report are *estimates*. As with all estimates, there is some uncertainty associated with each of these estimates. On the charts in this report, this degree of uncertainty is represented by an error bar (or confidence interval). The error bar is the thin '_I' shaped line that extends above and below the end of each bar in a chart. One of the major influences on the size of the confidence interval or error bar is the number of participants in the survey. In general, this means that with more students participating in the survey, there will be a higher degree of confidence in the results (i.e., error bars will be smaller).

The proper interpretation of an error bar can be illustrated by looking at the chart below. This chart compares the New Mexico prevalence of smoking and cocaine use to the United States prevalence for 2005, a previous survey year. The chart shows that the prevalence of current smoking was 25.7% in New Mexico and 23.0% in the United States. The error bar for the estimate of current smoking among New Mexico students extends approximately 4 percentage points in either direction, from 22.0% to 29.8%. This means that we are confident that the actual percentage of smokers in this group of students was between 22.0% and 29.8%. The error bar for the estimate current smoking in the US extends approximately 2.5 percentage points in either direction, from 20.7 to 25.3%. We are confident that the actual percentage of smokers among this group was between 20.7% and 25.3%.

How does knowing the upper and lower limits of our error bars help us? While it appears at first glance that New Mexico had a higher prevalence of smoking than the United States (25.7% vs. 23.0%), a closer look at the error bars shows a more complicated picture. The error bars for the New Mexico estimate (22.0% - 29.8%) and the US estimate (20.7% - 25.3%) overlap. Because of this overlap, we do not have a high degree of confidence that the prevalence of smoking in New Mexico is actually different from the prevalence in the United States. In other words, the difference between the prevalence of smoking in New Mexico and the United States is not statistically significant.

For cocaine use it also appears that in 2005, New Mexico had a higher prevalence than the United States (7.9% vs. 3.4%). The error bar for New Mexico extends from 6.6% to 9.5%, and the error bar for the United States extends from 2.8% to 4.4%. Because the higher bound of the US error bar (4.4%) is lower than the lower bound of the NM error bar (6.6%), these error bars do not overlap. For cocaine use, we are confident in saying that the New Mexico prevalence was higher than the US prevalence. In other words, the difference between the 2005 prevalence of cocaine use in New Mexico and the United States was a statistically significant difference.

For some small counties, error bars have been removed from this report. With small populations, the number of students sampled can approach the total student population. In these cases, error bars would have limited meaning because with a high percentage of students surveyed, there is less uncertainty around the estimates than error bars suggest.

Methodology

The YRRS was implemented in the fall semester of the 2009-10 school year. All public school districts in New Mexico were invited to participate in the 2009 Middle School YRRS. Of 89 districts statewide, 74 districts participated. From each participating school district, schools with students from 6th to 8th grades were selected to participate.* The probability of selection of each school was proportional to the size of its 6th-8th grade population. In large school districts only some of the schools were selected to participate, while in small districts, all schools were selected. Classrooms were systematically selected from each school, and all students in each selected classroom were asked to participate.

In each participating school, a single day was arranged on which to administer the survey. Questionnaire forms and pencils were distributed to each student in participating classes, and students were asked to fill out the questionnaires independently of other students and without teacher assistance.

Questionnaires were electronically scanned, and data were analyzed using STATA 10.1, a statistical software program.

Limitations of the YRRS

All information from the YRRS was self-reported by the participating students. While most questions on the YRRS come from nationally validated surveys, and data quality has been demonstrated to be very high in national surveys, there is no way to guarantee the truthfulness of the participants in any survey that relies on self-reporting.

A good response rate is one of the most important goals in conducting a survey. At the school district level, a response rate is the percentage of all students selected for the survey who complete and return a useable questionnaire form. At the state level, the response rate incorporates the participation of school districts and schools as well as the participation of students. An adequate response rate means that survey results are more likely to represent the actual student population. The statewide response rate for the 2009 Middle School YRRS was 68%, an adequate response rate to represent the population.

In order to achieve a statewide response rate of 60% or greater, we aimed for a 75% response rate from each participating school district. Most participating school districts and counties met this target or were close to it. While the response rate was generally very good in participating schools, the overall response rate was driven down by the school districts that declined to participate.

* The High School YRRS was also conducted at the same time; results from that survey are published separately.

Participation in Taos County

The response rate for Taos County was 72%.

A high response rate produces survey results that are more representative of the student population. A response rate of at least 60% allows generalization of results to the entire student body. A response rate of 75% is excellent and allows a high degree of confidence in results. Because a high response rate means that more students have been surveyed, a high response rate will also be reflected in the error bars (i.e., with a higher response rate and more students included in the survey, error bars will be smaller and confidence intervals will be narrower). Response rates below 60% are considered low, and caution should be exercised in interpreting results. Low response rates indicate that the data may represent only students who participated in the survey and not necessarily the entire student body.

<u>Total</u>	<u>Number of students</u> 353	<u>Percent (%)</u> 100%
<u>Gender</u> Girls	184	(52.3%)
Boys Race/Ethnicity	168	(47.7%)

Personal Information	<u>Number</u>	<u>(%)</u>
1. How old are you? A. 10 years old or younger	1	(0.3%)
B. 11 years old	88	(0.3%) (24.9%)
C. 12 years old	121	(34.3%)
D. 13 years old	105	、, (29.7%)
E. 14 years old	34	(9.6%)
F. 15 years old	4	(1.1%)
G. 16 years old or older	0	(0.0%)
2. What is your sex?		
A. Female	184	(52.3%)
B. Male	168	(47.7%)
3. In what grade are you?		
A. 6th grade	131	(37.1%)
B. 7th grade C. 8th grade	116 106	(32.9%)
D. Other	0	(30.0%) (0.0%)
	0	(0.078)
4. Are you Hispanic or Latino?		
A. Yes	289	(17.2%)
B. No	60	(17.2%)
5. What is your race? (Select one or more responses.)		
NOTE: Total may add up to more or less than 100% because respondents were allowed to choose multiple responses, and many students who identified		
Hispanic ethnicity on question 4 did not choose a response for race.		(0.00()
A. American Indian or Alaska Native B. Asian	33	(9.3%)
B. Asian C. Black or African American	11	(3.1%)
D. Native Hawaiian or Other Pacific Islander	13 6	(3.7%) (1.7%)
E. White	139	(39.4%)
	100	(3311/0)

6. During the past 12 months, how would you describe your grades in		
school?	<u>%</u>	<u>(95% CI)</u>
A. Mostly A's	25.6	(19.8 - 32.3)
B. Mostly B's	32.7	(29.1 - 36.5)
C. Mostly C's	23.1	,
D. Mostly D's		(1.8 - 6.1)
E. Mostly F's	2.3	(0.9 - 5.8)
F. None of these grades	0.8	(0.2 - 2.8)
G. Not sure	12.1	(9.0 - 16.1)
Personal Safety		
The next 3 questions ask about personal safety.		
7. When you ride a bicycle, how often do you wear a helmet?		
A. I do not ride a bicycle	22.2	(16.9 - 28.7)
B. Never wear a helmet	50.0	(43.0 - 57.0)
C. Rarely wear a helmet	12.5	,
D. Sometimes wear a helmet		(4.1 - 11.7)
E. Most of the time wear a helmet	4.1	· · · ·
F. Always wear a helmet	4.1	(2.5 - 6.7)
8. How often do you wear a seat belt when riding in a car?		
A. Never	5.4	(2.5 - 11.2)
B. Rarely	6.4	(4.0 - 10.1)
C. Sometimes	14.6	(10.9 - 19.1)
D. Most of the time	27.7	(21.0 - 35.7)
E. Always	45.9	(38.5 - 53.4)
9. Have you ever ridden in a car driven by someone who had been drinking		
alcohol?		
A. Yes	35.4	(28.7 - 42.6)
B. No	51.8	(43.7 - 59.8)
C. Not sure	12.8	(9.1 - 17.8)
Violence-Related Behaviors		
The next 2 questions ask about violence-related behaviors.		
10. Have you ever carried a weapon, such as a gun, knife, or club?		
A. Yes	41.4	(32.0 - 51.5)
B. No	58.6	(48.5 - 68.0)
11. Have you ever been in a physical fight?		
A. Yes	61.9	(53.9 - 69.4)
B. No	38.1	(30.6 - 46.1)

The next question asks about bullying. Bullying is when 1 or more
students tease, threaten, spread rumors about, hit, shove, or hurt
another student over and over again. It is not bullying when 2
students of about the same strength or power argue or fight or tease
each other in a friendly way.

O. All JU Udys	1.3	(0.2 - 7.3)

27. During the past 7 days, on how many days were you in the same room		
with someone who was smoking cigarettes?	<u>%</u>	<u>(95% CI)</u>
A. 0 days	60.9	(53.1 - 68.2)
B. 1 or 2 days	14.7	(11.0 - 19.4)
C. 3 or 4 days	6.8	(4.3 - 10.5)
D. 5 or 6 days	5.2	(2.5 - 10.6)
E. 7 days	12.4	(8.6 - 17.4)
28. Do you think smoke from other people's cigarettes is harmful to you?		
A. Definitely yes	52.5	(11 1 62 6)
B. Probably yes	52.5 27.3	(41.1 - 63.6) (22.6 - 32.5)
C. Probably not	27.3 12.4	(22.0 - 32.3) (7.6 - 19.4)
D. Definitely not	7.8	(7.0 - 19.4) (3.7 - 15.7)
	7.0	(3.7 - 13.7)
29. Do you think that you will try smoking a cigarette soon?		
A. I have already tried smoking cigarettes	18.1	(13.6 - 23.8)
B. Yes	10.4	(6.5 - 16.3)
C. No	71.5	(64.5 - 77.6)
30.		
Do you think you will smoke a cigarette at anytime during the next year?		
A. Definitely yes	13.9	(9.1 - 20.8)
B. Probably yes	10.5	(7.2 - 15.0)
C. Probably not	14.6	(11.0 - 19.2)
D. Definitely not	60.9	(53.1 - 68.3)
31. If one of your best friends offered you a cigarette, would you smoke it?		
A. Definitely yes	8.9	(4.5 - 16.9)
B. Probably yes	15.3	(10.0 - 22.6)
C. Probably not	18.2	(14.6 - 22.5)
D. Definitely not		(51.2 - 63.9)
		()
32. During this school year, were you taught in any of your classes about the		
dangers of tobacco use?		
A. Yes	44.9	(35.1 - 55.1)
B. No	35.2	(25.3 - 46.6)
C. Not sure	19.9	(14.0 - 27.5)

Alcohol

The next 8 questions ask about drinking alcohol. This includes drinking beer, wine, wine coolers, and liquor such as rum, gin, vodka, or whiskey. For these questions, drinking alcohol does not include drinking a few sips of wine for religious purposes.

33. Have you ever had a drink of alcohol, other than a few sips?A. YesB. No	<u>%</u> 45.7 54.3	<u>(95% CI)</u> (39.0 - 52.6) (47.4 - 61.0)
34. How old were you when you had your first drink of alcohol other than a few		
sips? A. I have never had a drink of alcohol other than a few sips B. 8 years old or younger C. 9 years old D. 10 years old E. 11 years old F. 12 years old G. 13 years old or older	52.0 12.1 4.6 9.4 8.7 7.4 5.8	(44.8 - 59.1) (8.8 - 16.4) (2.5 - 8.2) (6.1 - 14.3) (5.2 - 14.2) (4.1 - 12.9) (2.5 - 13.0)
35. During the past 30 days, on how many days did you have at least one drink of alcohol?		
A. 0 days B. 1 or 2 days C. 3 to 5 days D. 6 to 9 days E. 10 to 19 days F. 20 to 29 days G. All 30 days	73.8 12.4 5.0 3.4 0.7 0.8 4.0	(67.0 - 79.5) (8.5 - 17.7) (2.2 - 11.0) (2.1 - 5.4) (0.2 - 2.4) (0.1 - 4.1) (2.0 - 7.9)
36. During the past 30 days, on how many days did you have 5 or more drinks of alcohol in a row, that is, within a couple of hours?		
A. 0 days	84.1	(78.8 - 88.2)
B. 1 day	7.1	(4.0 - 12.4)
C. 2 days	3.3	(1.9 - 5.5)
D. 3 to 5 days	2.3	(1.2 - 4.2)
E. 6 to 9 days	1.0	(0.4 - 2.6)
F. 10 to 19 days	0.2	(0.0 - 1.1)
G. 20 or more days	2.1	(0.6 - 7.0)
37. If you wanted to get some beer, wine, or hard liquor (for example, vodka, whiskey, or gin), how easy would it be for you to get?		
A. Very hard	42.2	(34.5 - 50.4)
B. Sort of hard	19.5	(15.3 - 24.4)
C. Sort of easy	18.6	(14.6 - 23.4)
D. Very easy	19.7	(15.8 - 24.3)

38. How wrong do your parents feel it would be for you to drink alcohol (beer, wine, or hard liquor) regularly?

wine, or hard liquor) regularly?	<u>%</u>	<u>(95% CI)</u>
A. Very wrong	70.7	
B. Wrong	15.9	,
C. A little bit wrong	7.7	
D. Not wrong at all	5.7	
	0.11	(2.1 22.3)
39. How wrong do you think it is for someone your age to drink alcohol (beer, wine, or hard liquor) regularly?		
A. Very wrong	50.5	(42.3 - 58.6)
B. Wrong	24.1	(20.0 - 28.7)
C. A little bit wrong	18.5	(13.8 - 24.2)
D. Not wrong at all	7.0	(3.8 - 12.4)
40. How much do you think people risk harming themselves (physically or in other ways) if they have one or two drinks of beer, wine, or hard liquor nearly every day?		
A. No risk		(9.9 - 25.6)
B. Slight risk	16.5	(11.9 - 22.4)
C. Moderate risk	26.8	(20.2 - 34.7)
D. Great risk	40.4	(32.0 - 49.4)
Marijuana and other Drug Use The next 6 questions ask about marijuana use and other drug use. Marijuana also is called grass or pot.		
41. Have you ever used marijuana?		
A. Yes	27.3	(19.8 - 36.4)
B. No	72.7	(63.6 - 80.2)
42. How old were you when you tried marijuana for the first time?		
A. I have never tried marijuana	72.5	(63.3 - 80.1)
B. 8 years old or younger	3.9	(2.3 - 6.6)
C. 9 years old	3.7	(1.4 - 9.7)
D. 10 years old	5.8	(3.7 - 9.1)
E. 11 years old	5.5	(2.3 - 12.4)
F. 12 years old	4.5	(2.5 - 7.9)
G. 13 years old or older	4.0	(2.1 - 7.5)
43. During the past 30 days, how many times did you use marijuana?		
A. 0 times	80.9	(74.4 - 86.1)
B. 1 or 2 times	5.8	(3.9 - 8.6)
C. 3 to 9 times		10 10 11
	5.6	(2.9 - 10.4)
D. 10 to 19 times	4.3	(2.1 - 8.6)
D. 10 to 19 times E. 20 to 39 times F. 40 or more times		

44. Have you ever used any form of cocaine, including powder, crack, or freebase?	<u>%</u>	<u>(95% CI)</u>
A. Yes	<u>78</u> 4.9	(3.0 - 8.1)
B. No	95.1	(91.9 - 97.0)
		, , , , , , , , , , , , , , , , , , ,
45. Have you ever sniffed glue, or breathed the contents of spray cans, or inhaled any paints or sprays to get high?		
A. Yes	16.1	(11.8 - 21.5)
B. No	83.9	(11.5 21.5) (78.5 - 88.2)
	0010	(7010 0012)
46.		
Have you ever used a needle to inject any illegal drug into your body?		
A. Yes	0.6	(0.1 - 2.7)
B. No	99.4	(97.3 - 99.9)
Sexual Behavior		
The next 4 questions ask about sexual intercourse.		
47. Have you ever had sexual intercourse?		
A. Yes	14.6	(10.0 - 20.7)
B. No	85.4	(79.3 - 90.0)
48.		
How old were you when you had sexual intercourse for the first time?		
A. I have never had sexual intercourse	85.3	(79.1 - 89.9)
B. 8 years old or younger	1.3	· · · ·
C. 9 years old	0.9	(0.2 - 3.6)
D. 10 years old E. 11 years old	0.1 4.8	(0.0 - 1.0)
F. 12 years old	4.0 2.1	(2.9 - 7.9) (1.1 - 4.0)
G. 13 years old or older	5.4	(2.7 - 10.6)
	0.1	(2.7 10.0)
49. With how many people have you ever had sexual intercourse?		
A. I have never had sexual intercourse	85.6	(79.3 - 90.2)
B. 1 person	5.3	(3.2 - 8.8)
C. 2 people	2.9	(1.7 - 5.0)
D. 3 people	1.4	(0.6 - 3.6)
E. 4 people	0.6	· · · ·
F. 5 people		(0.5 - 6.8)
G. 6 or more people	2.2	(0.6 - 7.9)
50. The last time you had sexual intercourse, did you or your partner use a condom?		
A. I have never had sexual intercourse	85.6	(79.3 - 90.2)
B. Yes	85.6 8.4	. ,
C. No	6.0	(3.7 - 12.2)
	0.0	(3.7 5.0)

Body Weight The next 6 questions ask about body weight.

51.	How do you describe your weight?	<u>%</u>	<u>(95% CI)</u>
	A. Very underweight	5.4	(3.6 - 7.9)
	B. Slightly underweight	14.8	,
	C. About the right weight	58.0	(50.5 - 65.2)
	D. Slightly overweight	19.4	(16.2 - 23.1)
	E. Very overweight	2.4	(1.2 - 4.6)
52.	Which of the following are you trying to do about your weight?		
	A. Lose weight	39.0	(32.4 - 46.0)
	B. Gain weight	9.4	(4.9 - 17.3)
	C. Stay the same weight	30.6	(25.8 - 35.9)
	D. I am not trying to do anything about my weight	20.9	(16.4 - 26.3)
53.			
55.	Have you ever exercised to lose weight or to keep from gaining weight?		
	A. Yes	66.0	(59.4 - 72.0)
	B. No	34.0	(28.0 - 40.6)
54.	Have you ever eaten less food, fewer calories, or foods low in fat to		
	lose weight or to keep from gaining weight?		
	A. Yes	34.6	(29.3 - 40.3)
	B. No	65.4	(59.7 - 70.7)
55.	Have you ever gone without eating for 24 hours or more (also called fasting) to lose weight or to keep from gaining weight?		
	A. Yes	16.9	(11.9 - 23.6)
	B. No	83.1	(76.4 - 88.1)
56.	Have you ever vomited or taken laxatives to lose weight or to keep from gaining weight?		
	A. Yes	4.7	(2.8 - 7.7)
	B. No	95.3	(92.3 - 97.2)
	Physical Activity		

Physical Activity The next 4 questions ask about physical activity. 57. During the past 7 days, on how many days were you physically active for a total of **at least 60 minutes per day**? (Add up all the time you spend in any kind of physical activity that increases your heart rate and makes you breathe hard some of the time.)

	any kind of physical activity that increases your heart rate and makes you		
	breathe hard some of the time.)	<u>%</u>	<u>(95% CI)</u>
	A. 0 days	20.9	(15.6 - 27.4)
	B. 1 day	2.1	(1.1 - 4.0)
	C. 2 days	9.1	(5.6 - 14.5)
	D. 3 days	9.0	(5.8 - 13.6)
	E. 4 days	9.6	(6.5 - 13.8)
	F. 5 days	10.3	(6.9 - 15.2)
	G. 6 days	7.8	(5.0 - 12.1)
	H. 7 days	31.3	(27.0 - 36.0)
58	. On an average school day, how many hours do you watch TV?		
	A. I do not watch TV on an average school day	11.7	(7.3 - 18.3)
	B. Less than 1 hour per day	17.1	(13.5 - 21.4)
	C. 1 hour per day	11.9	(8.2 - 16.9)
	D. 2 hours per day	21.1	(15.7 - 27.7)
	E. 3 hours per day	18.2	(13.0 - 24.8)
	F. 4 hours per day	8.8	(5.4 - 14.1)
	G. 5 or more hours per day	11.2	(7.9 - 15.7)
59	. On an average school day, how many hours do you play video or		
	computer games or use a computer for something that is not school work?		
	(Include activities such as Nintendo, Game Boy, PlayStation, Xbox, computer games, and the Internet.)		
	A. I do not play video or computer games or use a computer for something		
	that is not school work	21.7	(15.0 - 30.4)
	B. Less than 1 hour per day	26.6	(21.1 - 33.0)
	C. 1 hour per day	16.8	(13.2 - 21.1)
	D. 2 hours per day	15.2	(11.0 - 20.8)
	E. 3 hours per day	11.2	(8.4 - 14.9)
	F. 4 hours per day	2.0	(0.9 - 4.2)
	G. 5 or more hours per day	6.4	(4.6 - 8.9)

60. In an average week when you are in school, on how many days do you go to physical education (PE) classes?

A. 0 days	29.1	(17.0 - 45.2)
B. 1 day	3.8	(2.1 - 6.7)
C. 2 days	7.1	(3.2 - 14.9)
D. 3 days	5.1	(1.1 - 20.3)
E. 4 days	2.8	(1.0 - 8.1)
F. 5 days	52.1	(37.8 - 66.0)

Health-Related Topics The next 3 questions ask about other health-related topics.
