Refreshers & CEs

We have Medic as well as Combo Refreshers - and one more CE class! The Combo Refresher covers the refresher requirements for First Responders, EMT-Basics and EMT-Intermediates. The CE class has 8 hours of CEs, with 2 of the hours of Pediatric in those 8 hours.

The EMSA refresher format is a hybrid course with the didactic material online and the skills component of the refresher completed in person. These refreshers, when complete, meet all of the refresher re-certification requirements for the state of New Mexico and National Registry of EMTs.
