Community Health Worker's are employed under many job titles, including Community Health Representative, Outreach Worker, Peer Advocate, and Promotores (as) de Salud, across multiple settings. As front-line public health workers, they are essential to the health of their communities by promoting healthy behaviors, advocating for their communities, coordinating services, information counseling, providing referrals, much more.

CNM's Equity Council ensures racial equity strategies for the College while recognizing overlapping social identities, such as gender, sexuality, and class. We define equity in our community as "all people in Albuquerque are economically secure, healthy and thriving in engaged and honored communities."
