RE: Vacancies on Medical Advisory Board

Dear Mr. Marshall,

The State of New Mexico Medical Cannabis Program is contacting you today regarding current vacancies on the Medical Advisory Board for the Medical Cannabis Program. As you are aware, 7.34.4.28 NMAC requires that the members of the Medical Advisory Board be chosen for appointment by the Secretary from a list proposed by the New Mexico Medical Society.

The Medical Advisory Board consists of medical providers from specific disciplines. At this time, the Medical Advisory Board has positions open for medical providers who have National Board Certification in the fields of Neurology, Infectious Disease, and Oncology.

Members of the public and other entities may submit petitions requesting that certain conditions be added to the list of conditions accepted by the medical cannabis program as a qualifying condition. The Board members play an instrumental role in considering petitions for new conditions and we are seeking well-rounded individuals who are willing to review and make recommendations on the petitions. Attached to this letter you will find a copy of our current rules and regulations for the medical advisory board which will provide you with a clear idea of the members' role and responsibilities.

Your assistance in locating dedicated and thoughtful members is greatly appreciated. If you have any other questions, please do not hesitate to contact our office.

Thank you,

Andrea Sundberg  
Patient Services Program Manager
