

## Recommended responses √

- Notifying parent / guardian at the end of the day of the suspected infestation.
- Providing information on the biology of head lice and methods to eliminate infestations.

## Unjustified responses X

- Excluding or quarantining the student or his/her possessions.
- Violating confidentiality of the affected student and his/her family.
- Notifying other students and parents of minor health issues affecting classmates.
- · Mass screening of children for head lice or their eggs.
- · Applying insecticides to classrooms and buses.
- · Reporting cases of head lice to youth or social services.
- · Bagging of coats and clothes.
- Restricting the use of headphones or helmets.
