

EDUCATION AND TRAINING PSILOCYBIN COMMITTEE

CHAIR: BRENDA BURGARD LPCC, LSAA, ATR

Agenda

- Reciprocity
- Education and Curriculum
- Costs- training, education

Reciprocity and Recognition of Prior Training

This framework supports reciprocity pathways for clinicians, medical providers, and spiritual care professionals with prior psychedelic-related education or training completed in other jurisdictions.

Documentation for Reciprocity Review (Umbrella of proof)

- Certificates of completion or transcripts
- Training syllabi or curriculum outlines
- Documentation of supervised practice or pastoral training (if applicable)
- Professional license, ordination, or endorsement verification
- Attestation of adherence to ethical and safety standards

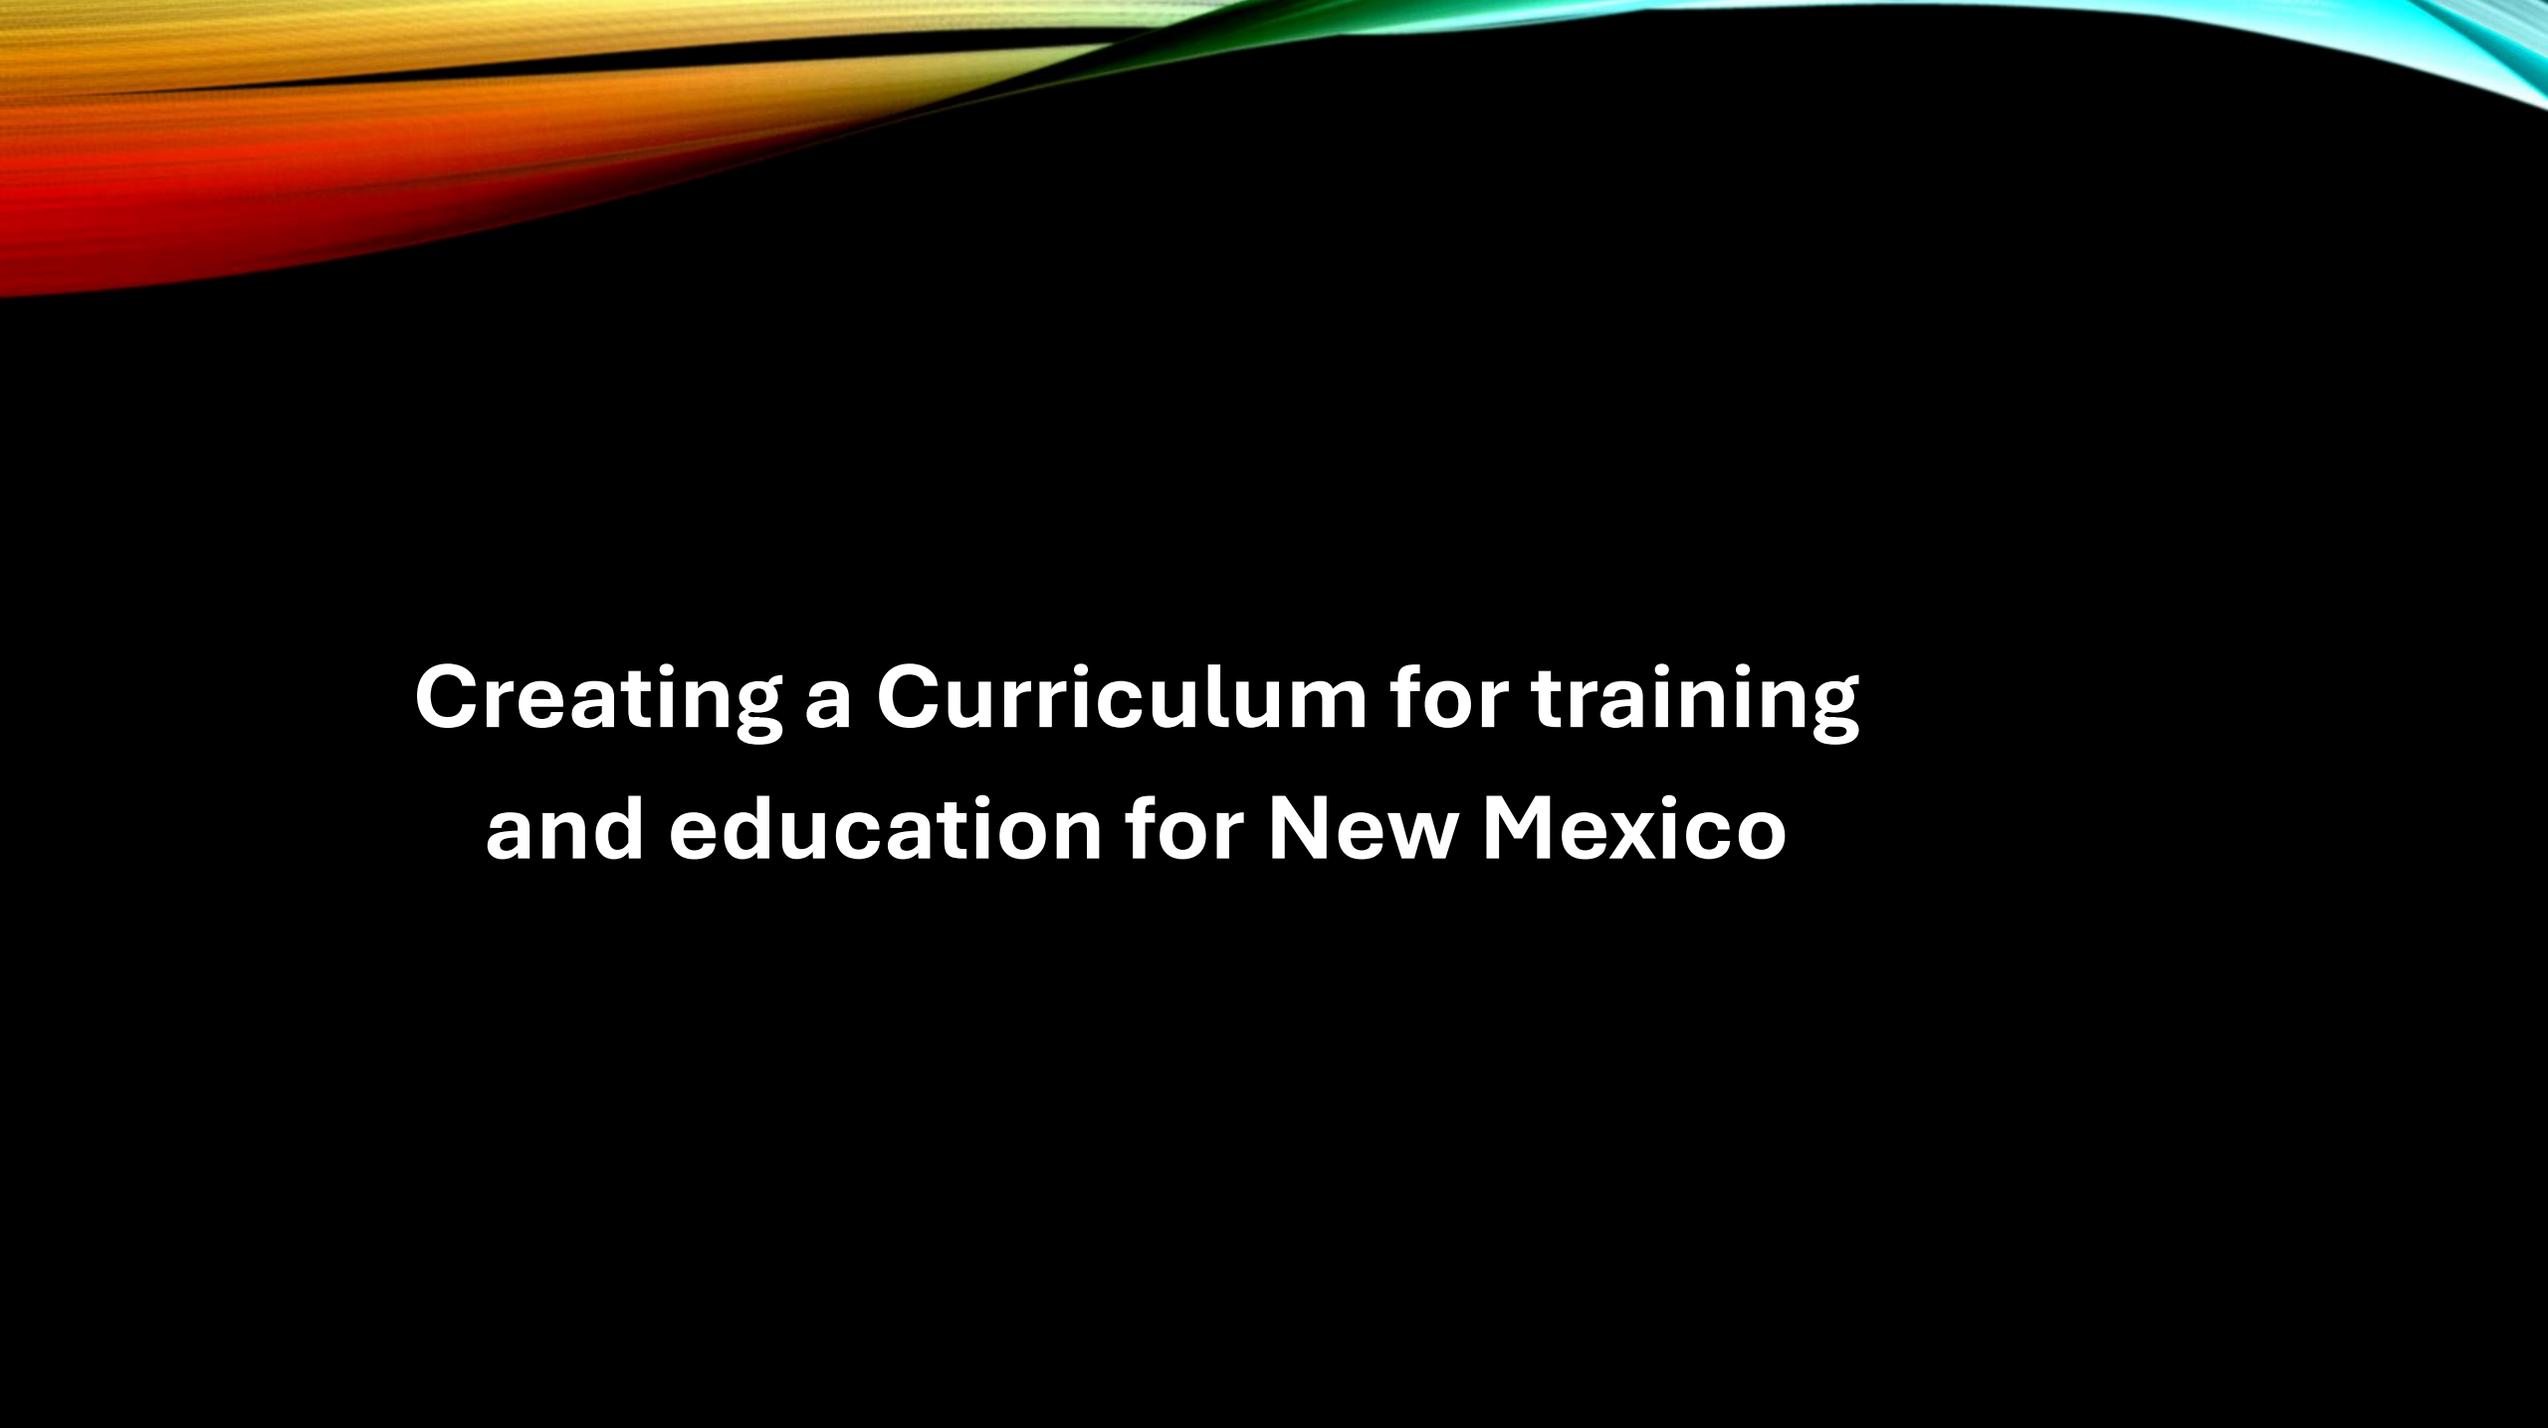

Reciprocity does not supersede New Mexico licensure requirements, statutory authority, or scope-of-practice limitations.

Questions

Should there be preapproval (grandfathered) education and training because of time constraints?

Should there be 6 to 8 hours of review for additional training and education to illegitimatize New Mexico qualifications for reciprocity to satisfy core domains?

**Creating a Curriculum for training
and education for New Mexico**

Costs – Time- Questions

Insurance liabilities- what is reasonable and affordable for New Mexico Health care practitioners.

Training – Hours required to obtain certification

Licenses - Qualifications and costs (who can have a license)

Billing- How do we bill?
