*The map does not include the 668 individuals enrolled from Out-of-State. The chart does include these individuals. These 668 individuals enrolled during a brief period in 2019-2020 when out-of-state enrollments were legal. The statute has since changed, and it is not legal to enroll as a patient in New Mexico at this time. However, individuals who are legally enrolled in other governmental medical cannabis program in the US can register as reciprocal participants in New Mexico.

All data is as of June 30, 2022, unless otherwise stated.

Demographics as of June 30, 2022

Something to note about the collection of the data for Gender Identity. During the course of several years, the specific questions used to gather this data have changed on the enrollment forms. This has resulted in data being collected in several different ways and may not always fully represent the current gender identification demographics. The current two-part question about gender identity will help to improve this representation and meets the updated collection practices for gender identity.
