The specific questions used to gather this data have changed on the enrollment forms and is optional. This has resulted in data being collected in several different ways and may not always fully represent the current gender identification demographics. The current, two-part question about gender identity will help to improve this representation and meets the updated collection practices for gender identity. The remaining individuals not indicated in the chart or graph are individuals who responded as "Other, not listed" in a way they could not be included in the listed categories, or they did not respond to the question.
