Division of Health Improvement/Quality Management Bureau

Dear Mr. McDonald;

The Division of Health Improvement/Quality Management Bureau has completed a compliance survey of the services identified above. The purpose of the survey was to determine compliance with federal and state standards; to assure the health, safety, and welfare of individuals receiving services through the Developmental Disabilities Waiver; and to identify opportunities for improvement. This Report of Findings will be shared with the Developmental Disabilities Supports Division for their use in determining your current and future provider agreements. Upon receipt of this letter and Report of Findings your agency must immediately correct all deficiencies which place Individuals served at risk of harm.

# **Determination of Compliance:**

The Division of Health Improvement, Quality Management Bureau has determined your agency is in:

#### Plan of Correction:

The attached Report of Findings identifies the deficiencies found during your agency's on-site compliance review. You are required to complete and implement a Plan of Correction. Your agency has a total of 45 business days (10 business days to submit your POC for approval and 35 days to implement your *approved* Plan of Correction) from the receipt of this letter.

You were provided information during the exit meeting portion of your on-site survey. Please refer to this information (Attachment A) for specific instruction on completing your Plan of Correction. At a minimum your Plan of Correction should address the following for each Tag cited:

#### **Corrective Action for Current Citation:**

How is the deficiency going to be corrected? (i.e. obtained documents, retrain staff, individuals and/or staff
no longer in service, void/adjusts completed, etc.) This can be specific to each deficiency cited or if possible
an overall correction, i.e. all documents will be requested and filed as appropriate.

# On-going Quality Assurance/Quality Improvement Processes:

- What is going to be done on an ongoing basis? (i.e. file reviews, etc.)
- How many individuals is this going to effect? (i.e. percentage of individuals reviewed, number of files reviewed, etc.)
- How often will this be completed? (i.e. weekly, monthly, quarterly, etc.)
- Who is responsible? (responsible position within your agency)
- What steps will be taken if issues are found? (i.e. retraining, requesting documents, filing RORA, etc.)
- How is this integrated in your agency's QIS, QI Committee reviews and annual report?

# Submission of your Plan of Correction:

Please submit your agency's Plan of Correction in the available space on the two right-hand columns of the Report of Findings. (See attachment "A" for additional guidance in completing the Plan of Correction).

Within 10 business days of receipt of this letter your agency Plan of Correction must be submitted to the parties below:

- 1. Quality Management Bureau, Attention: Amanda Castaneda, Plan of Correction Coordinator 1170 North Solano Suite D Las Cruces, New Mexico 88001
- 2. Developmental Disabilities Supports Division Regional Office for region of service surveyed

QMB Report of Findings – Animas Valley Caring Hands, LLC – Northwest – June 1 - 7, 2018

Upon notification from QMB that your *Plan of Correction has been approved*, you must implement all remedies and corrective actions to come into compliance. If your Plan of Correction is denied, you must resubmit a revised plan as soon as possible for approval, as your POC approval and all remedies must be completed within 45 business days of the receipt of this letter.

Failure to submit your POC within the allotted 10 business days or complete and implement your Plan of Correction within the total 45 business days allowed may result in the imposition of a \$200 per day Civil Monetary Penalty until it is received, completed and/or implemented.

# **Billing Deficiencies:**

If you have deficiencies noted in this report of findings under the *Service Domain: Medicaid Billing/Reimbursement*, you must complete a "Void/Adjust" claim or remit the identified overpayment via a check within 30 calendar days of the date of this letter to HSD/OIG/PIU, *though this is not the preferred method of payment*. If you choose to pay via check, please include a copy of this letter with the payment. Make the check payable to the New Mexico Human Services Department and mail to:

Attention: Lisa Medina-Lujan
HSD/OIG
Program Integrity Unit
2025 S. Pacheco Street
Santa Fe, New Mexico 87505

Or if using UPS, FedEx, DHL (courier mail) send to physical address at:

Attention: Lisa Medina-Lujan HSD/OIG Program Integrity Unit 1474 Rodeo Road Santa Fe, New Mexico 87505

Please be advised that there is a one-week lag period for applying payments received by check to Void/Adjust claims. During this lag period, your other claim payments may be applied to the amount you owe even though you have sent a refund, reducing your payment amount. For this reason, we recommend that you allow the system to recover the overpayment instead of sending in a check.

#### Request for Informal Reconsideration of Findings (IRF):

If you disagree with a finding of deficient practice, you have 10 business days upon receipt of this notice to request an IRF. Submit your request for an IRF in writing to:

Request for Informal Reconsideration of Findings 5301 Central Ave NE Suite #400 Albuquerque, NM 87108 Attention: IRF request/QMB

See Attachment "C" for additional guidance in completing the request for Informal Reconsideration of Findings. The request for an IRF will not delay the implementation of your Plan of Correction which must be completed within 45 total business days (10 business days to submit your POC for approval and 35 days to implement your *approved* Plan of Correction). Providers may not appeal the nature or interpretation of the standard or regulation, the team composition or sampling methodology. If the IRF approves the modification or removal of a finding, you will be advised of any changes.

Please call the Plan of Correction Coordinator Amanda Castaneda at 575-373-5716 if you have questions about the Report of Findings or Plan of Correction. Thank you for your cooperation and for the work you perform.

Sincerely,

## Provider Instructions for Completing the QMB Plan of Correction (POC) Process

#### Introduction:

After a QMB Compliance Survey, your QMB Report of Findings will be sent to you via e-mail.

Each provider must develop and implement a Plan of Correction (POC) that identifies specific quality assurance and quality improvement activities the agency will implement to correct deficiencies and prevent continued deficiencies and non-compliance.

Agencies must submit their Plan of Correction within ten (10) business days from the date you receive the QMB Report of Findings. (Providers who do not submit a POC within 10 business days may be referred to the DDSD Regional Office for purposes of contract management or the Internal Review Committee [IRC] for possible actions or sanctions).

Agencies must fully implement their approved Plan of Correction within 45 business days (10 business days to submit your POC for approval and 35 days to implement your approved Plan of Correction) from the date they receive the QMB Report of Findings. Providers who fail to complete a POC within the 45-business days allowed will be referred to the IRC for possible actions or sanctions.

If you have questions about the Plan of Correction process, call the Plan of Correction Coordinator at 575-373-5716 or email at <a href="mailto:AmandaE.Castaneda@state.nm.us">AmandaE.Castaneda@state.nm.us</a>. Requests for technical assistance must be requested through your Regional DDSD Office.

The POC process cannot resolve disputes regarding findings. If you wish to dispute a finding on the official Report of Findings, you must file an Informal Reconsideration of Findings (IRF) request within ten (10) business days of receiving your report. Please note that you must still submit a POC for findings that are in question (see Attachment C). *Instructions for Completing Agency POC:* 

#### Required Content

Your Plan of Correction should provide a step-by-step description of the methods to correct each deficient practice cited to prevent recurrence and information that ensures the regulation cited comes into and remains in compliance. The remedies noted in your POC are expected to be added to your Agency's required, annual Quality Assurance (QA) Plan.

If a deficiency has already been corrected since the on-site survey, the plan should state how it was corrected, the completion date (date the correction was accomplished), and how possible recurrence of the deficiency will be prevented.

The following details should be considered when developing your Plan of Correction:

The Plan of Correction must address each deficiency cited in the Report of Findings unless otherwise noted with a "No Plan of Correction Required statement." The Plan of Correction must address the five (5) areas listed below:

- 1. How the specific and realistic corrective action will be accomplished for individuals found to have been affected by the deficient practice.
- 2. How the agency will identify other individuals who have the potential to be affected by the same deficient practice, and how the agency will act to protect those individuals in similar situations.
- 3. What Quality Assurance measures will be put into place and what systemic changes made to ensure the deficient practice will not recur.
- 4. Indicate how the agency plans to monitor its performance to make certain solutions are sustained. The agency must develop a QA plan for ensuring correction is achieved and sustained. This QA plan must be implemented, and the corrective action is evaluated for its effectiveness. The plan of correction is integrated into the agency quality assurance system; and
- 5. Include dates when corrective actions will be completed. The corrective action completion dates must be acceptable to the State.

QMB Report of Findings – Animas Valley Caring Hands, LLC – Northwest – June 1 - 7, 2018

The following details should be considered when developing your Plan of Correction:

- Details about how and when Individual Served, agency personnel and administrative and service delivery site files are audited by agency personnel to ensure they contain required documents;
- Information about how medication administration records are reviewed to verify they contain all required information before they are distributed to service sites, as they are being used, and after they are completed;
- Your processes for ensuring that all required agency personnel are trained on required DDSD required trainings;
- How accuracy in billing/reimbursement documentation is assured;
- How health, safety is assured;
- For Case Management providers, how Individual Service Plans are reviewed to verify they meet requirements, how the timeliness of level of care (LOC) packet submissions and consumer visits are tracked;
- Your process for gathering, analyzing and responding to quality data indicators; and,
- Details about Quality Targets in various areas, current status, analyses about why targets were not met, and remedies implemented.

**Note:** Instruction or in-service of staff alone may not be a sufficient plan of correction. This is a good first step toward correction, but additional steps must be taken to ensure the deficiency is corrected and will not recur.

## **Completion Dates**

- The plan of correction must include a completion date (entered in the far right-hand column) for each finding.
   Be sure the date is realistic in the amount of time your Agency will need to correct the deficiency; not to exceed 45 total business days.
- Direct care issues should be corrected immediately and monitored appropriately.
- Some deficiencies may require a staged plan to accomplish total correction.
- Deficiencies requiring replacement of equipment, etc., may require more time to accomplish correction but should show reasonable time frames.

## Initial Submission of the Plan of Correction Requirements

- 1. The Plan of Correction must be completed on the official QMB Survey Report of Findings/Plan of Correction Form and received by QMB within ten (10) business days from the date you received the report of findings.
- 2. For questions about the POC process, call the POC Coordinator, Amanda Castaneda at 575-373-5716 or email at <a href="mailto:AmandaE.Castaneda@state.nm.us">AmandaE.Castaneda@state.nm.us</a> for assistance.
- 3. For Technical Assistance (TA) in developing or implementing your POC, contact your Regional DDSD Office.
- 4. Submit your POC to Amanda Castaneda, POC Coordinator in any of the following ways:
  - a. Electronically at AmandaE.Castaneda@state.nm.us (preferred method)
  - b. Fax to 575-528-5019, or
  - c. Mail to POC Coordinator, 1170 North Solano Ste D, Las Cruces, New Mexico 88001
- <u>Do not submit supporting documentation</u> (evidence of compliance) to QMB <u>until after</u> your POC has been approved by the QMB.
- 6. QMB will notify you when your POC has been "approved" or "denied."
  - a. During this time, whether your POC is "approved," or "denied," you will have a maximum of 45-business days from the date of receipt of your Report of Findings to correct all survey deficiencies.
  - b. If your POC is denied, it must be revised and resubmitted as soon as possible, as the 45-business day limit is in effect.
  - c. If your POC is denied a second time your agency may be referred to the Internal Review Committee.
  - d. You will receive written confirmation when your POC has been approved by QMB and a final deadline for completion of your POC.
  - e. Please note that all POC correspondence will be sent electronically unless otherwise requested.
- 7. Failure to submit your POC within 10 business days without prior approval of an extension by QMB will result in a referral to the Internal Review Committee and the possible implementation of monetary penalties and/or sanctions.

# **POC Document Submission Requirements**

QMB Report of Findings - Animas Valley Caring Hands, LLC - Northwest - June 1 - 7, 2018

Once your POC has been approved by the QMB Plan of Correction Coordinator you must submit copies of documents as evidence that all deficiencies have been corrected, as follows.

- 1. Your internal documents are due within a maximum of 45-business days of receipt of your Report of Findings.
- 2. It is preferred that you submit your documents via USPS or other carrier (scanned and saved to CD/DVD disc, flash drive, etc.). If documents containing HIPAA Protected Health Information (PHI) documents must be submitted through S-Comm (Therap), Fax or Postal System, do not send PHI directly to NMDOH email accounts. If the documents do not contain protected Health information (PHI) then you may submit your documents electronically scanned and attached to e-mails.
- 3. All submitted documents <u>must be annotated</u>; please be sure the tag numbers and Identification numbers are indicated on each document submitted. Documents which are not annotated with the Tag number and Identification number may not be accepted.
- 4. Do not submit original documents; Please provide copies or scanned electronic files for evidence. Originals must be maintained in the agency file(s) per DDSD Standards.
- 5. In lieu of some documents, you may submit copies of file or home audit forms that clearly indicate cited deficiencies have been corrected, other attestations of correction must be approved by the Plan of Correction Coordinator prior to their submission.
- 6. When billing deficiencies are cited, you must provide documentation to justify billing and/or void and adjust forms submitted to Xerox State Healthcare, LLC for the deficiencies cited in the Report of Findings.

Revisions, Modifications or Extensions to your Plan of Correction (post QMB approval) must be made in writing and submitted to the Plan of Correction Coordinator, prior to the due date and are approved on a case-by-case basis. No changes may be made to your POC or the timeframes for implementation without written approval of the POC Coordinator.

# Department of Health, Division of Health Improvement QMB Determination of Compliance Process

The Division of Health Improvement, Quality Management Bureau (QMB) surveys compliance of the Developmental Disabilities Waiver (DDW) standards and other state and federal regulations. For the purpose of the LCA / CI survey the CMS waiver assurances have been grouped into four (4) Service Domains: Plan of Care (ISP Implementation); Qualified Providers; Health, Welfare and Safety; and Administrative Oversight (note that Administrative Oversight listed in this document is not the same as the CMS assurance of Administrative Authority. Used in this context it is related to the agency's operational policies and procedures, Quality Assurance system and Medicaid billing and reimbursement processes.)

The QMB Determination of Compliance process is based on provider compliance or non-compliance with standards and regulations identified during the on-site survey process and as reported in the QMB Report of Findings. All areas reviewed by QMB have been agreed to by DDSD and DHI/QMB and are reflective of CMS requirements. All deficiencies (non-compliance with standards and regulations) are identified and cited as either a Standard level deficiency or a Condition of Participation level deficiency in the QMB Reports of Findings. All deficiencies require corrective action when non-compliance is identified.

Each deficiency in your Report of Findings has been predetermined to be a Standard Level Deficiency, a Condition of Participation Level Deficiency, if below 85% compliance or a non-negotiable Condition of Participation Level Deficiency. Your Agency's overall Compliance Determination is based on a Scope and Severity Scale which takes into account the number of Standard and Condition Level Tags cited as well as the percentage of Individuals affected in the sample.

# **Conditions of Participation (CoPs)**

CoPs are based on the Centers for Medicare and Medicaid Services, Home and Community-Based Waiver required assurances, in addition to the New Mexico Developmental Disability Waiver (DDW) Service Standards. The Division of Health Improvement (DHI), in conjunction with the Developmental Disability Support Division (DDSD), has identified certain deficiencies that have the potential to be a Condition of Participation Level, if the tag falls below 85% compliance based on the number of people affected. Additionally, there are what are called nonnegotiable Conditions of Participation, regardless if one person or multiple people are affected. In this context, a CoP is defined as an essential / fundamental regulation or standard, which when out of compliance directly affects the health and welfare of the Individuals served. If no deficiencies within a Tag are at the level of a CoP, it is cited as a Standard Level Deficiency.

Service Domains and CoPs for Living Care Arrangements and Community Inclusion are as follows:

<u>Service Domain: Service Plan: ISP Implementation -</u> Services are delivered in accordance with the service plan, including type, scope, amount, duration and frequency specified in the service plan.

# Potential Condition of Participation Level Tags, if compliance is below 85%:

- 1A08.3 Administrative Case File: Individual Service Plan / ISP Components
- 1A32 Administrative Case File: Individual Service Plan Implementation
- LS14 Residential Service Delivery Site Case File (ISP and Healthcare Requirements)
- IS14 CCS / CIES Service Delivery Site Case File (ISP and Healthcare Requirements)

<u>Service Domain: Qualified Providers -</u> The State monitors non-licensed/non-certified providers to assure adherence to waiver requirements. The State implements its policies and procedures for verifying that provider training is conducted in accordance with State requirements and the approved waiver.

# Potential Condition of Participation Level Tags, if compliance is below 85%:

• 1A20 - Direct Support Personnel Training

QMB Report of Findings - Animas Valley Caring Hands, LLC - Northwest - June 1 - 7, 2018

Survey Report #: Q.18.4.DDW.54929326.1.RTN.01.18.179

- **1A22 -** Agency Personnel Competency
- 1A37 Individual Specific Training

# Non-Negotiable Condition of Participation Level Tags (one or more Individuals are cited):

- 1A25.1 Caregiver Criminal History Screening
- 1A26.1 Consolidated On-line Registry Employee Abuse Registry

<u>Service Domain: Health, Welfare and Safety -</u> The State, on an ongoing basis, identifies, addresses and seeks to prevent occurrences of abuse, neglect and exploitation. Individuals shall be afforded their basic human rights. The provider supports individuals to access needed healthcare services in a timely manner.

# Potential Condition of Participation Level Tags, if compliance is below 85%:

- 1A08.2 Administrative Case File: Healthcare Requirements & Follow-up
- 1A09 Medication Delivery Routine Medication Administration
- 1A09.1 Medication Delivery PRN Medication Administration
- 1A15.2 Administrative Case File: Healthcare Documentation (Therap and Required Plans)

## Non-Negotiable Condition of Participation Level Tags (one or more Individuals are cited):

- 1A05 General Requirements / Agency Policy and Procedure Requirements
- 1A07 Social Security Income (SSI) Payments
- 1A09.2 Medication Delivery Nurse Approval for PRN Medication
- 1A15 Healthcare Documentation Nurse Availability
- **1A31 –** Client Rights/Human Rights
- LS25.1 Residential Reqts. (Physical Environment Supported Living / Family Living / Intensive Medical Living)

## QMB Determinations of Compliance (see Attachment D grid below for specifics)

# Compliance:

The QMB determination of *Compliance* indicates that a provider has either no deficiencies found during a survey or that no deficiencies at the Condition of Participation Level were found. The agency has obtained a level of compliance such that there is a minimal potential for harm to individuals' health and safety. To qualify for a determination of *Compliance*, the provider must have received no Conditions of Participation Level Deficiencies and have a minimal number of Individuals on the sample affected by the findings indicated in the Standards Level Tags.

# Partial-Compliance with Standard Level Tags:

The QMB determination of *Partial-Compliance with Standard Level Tags* indicates that a provider is in compliance with all Condition of Participation Level deficiencies but is out of compliance with a certain percentage of Standard Level deficiencies. This partial-compliance, if not corrected, may result in a negative outcome or the potential for more than minimal harm to individuals' health and safety. There are two ways to receive a determination of Partial Compliance with Standard Level Tags:

- 1. Your Report of Findings includes 14 or fewer Standards Level Tags with between 75% and 100% of the survey sample affected.
- 2. Your Report of Findings includes 15 or more Standard Level Tags with between 50% to 74% of the survey sample affected.

# Partial-Compliance with Standard Level Tags and Condition of Participation Level Tags:

The QMB determination of Partial-Compliance with Standard Level Tags and Condition of Participation Level Tags indicates that a provider is out of compliance with one to five (1-5) Condition of Participation Level Tags with less than 75% of the survey sample affected. This partial-compliance, if not corrected, may result in a serious negative outcome or the potential for more than minimal harm to individuals' health and safety.

# **Non-Compliance:**

The QMB determination of *Non-Compliance* indicates a provider is significantly out of compliance with both Standard Level deficiencies and Conditions of Participation level deficiencies. This non-compliance, if not corrected, may result in a serious negative outcome or the potential for more than minimal harm to individuals' health and safety. There are three ways an agency can receive a determination of Non-Compliance:

- 1. Your Report of Findings includes 15 or more Standard Level Tags with 75% to 100% of the survey sample affected.
- 2. Your Report of Findings includes any amount of Standard Level Tags with one to five (1-5) Condition of Participation Level Tags and 75 to 100% of the survey sample affected.
- 3. Your Report of Findings includes any amount of Standard Level Tags with 6 or more Condition of Participation Level Tags.

# Guidelines for the Provider Informal Reconsideration of Finding (IRF) Process

#### Introduction:

Throughout the QMB Survey process, surveyors are openly communicating with providers. Open communication means surveyors have clarified issues and/or requested missing information before completing the review through the use of the signed/dated "Document Request," or "Administrative Needs," etc. forms. Regardless, there may still be instances where the provider disagrees with a specific finding. Providers may use the following process to informally dispute a finding.

#### Instructions:

- 1. The Informal Reconsideration of the Finding (IRF) request must be received in writing to the QMB Deputy Bureau Chief within 10 business days of receipt of the final Report of Findings.
- 2. The written request for an IRF *must* be completed on the QMB Request for Informal Reconsideration of Finding form available on the QMB website: <a href="https://nmhealth.org/about/dhi/cbp/irf/">https://nmhealth.org/about/dhi/cbp/irf/</a>
- 3. The written request for an IRF must specify in detail the request for reconsideration and why the finding is inaccurate.
- 4. The IRF request must include all supporting documentation or evidence.
- 5. If you have questions about the IRF process, email the IRF Chairperson, Crystal Lopez-Beck at <a href="mailto:Crystal.Lopez-Beck@state.nm.us">Crystal.Lopez-Beck@state.nm.us</a> for assistance.

# The following limitations apply to the IRF process:

- The written request for an IRF and all supporting evidence must be received within 10 business days.
- Findings based on evidence requested during the survey and not provided may not be subject to reconsideration.
- The supporting documentation must be new evidence not previously reviewed or requested by the survey team.
- Providers must continue to complete their Plan of Correction during the IRF process
- Providers may not request an IRF to challenge the sampling methodology.
- Providers may not request an IRF based on disagreement with the nature of the standard or regulation.
- Providers may not request an IRF to challenge the team composition.
- Providers may not request an IRF to challenge the DHI/QMB determination of compliance or the length of their DDSD provider contract.

A Provider forfeits the right to an IRF if the request is not received within 10 business days of receiving the report and/or does not include all supporting documentation or evidence to show compliance with the standards and regulations.

The IRF Committee will review the request; the Provider will be notified in writing of the ruling; no face-to-face meeting will be conducted.

When a Provider requests that a finding be reconsidered, it does not stop or delay the Plan of Correction process.

Providers must continue to complete the Plan of Correction, including the finding in dispute regardless of the IRF status. If a finding is removed or modified, it will be noted and removed or modified from the Report of Findings. It should be noted that in some cases a Plan of Correction may be completed prior to the IRF process being completed. The provider will be notified in writing on the decisions of the IRF committee.

CM convenes the IDT within ten days of receipt		
of any reasonable request to convene the team,		
either in person or through teleconference.		
<b>6.6 DDSD ISP Template:</b> The ISP must be		
written according to templates provided by the		
DDSD. Both children and adults have designated		
ISP templates. The ISP template includes Vision		
Statements, Desired Outcomes, a meeting		
participant signature page, an Addendum A (i.e.		
an acknowledgement of receipt of specific		
information) and other elements depending on		
the age of the individual. The ISP templates may		
be revised and reissued by DDSD to incorporate		
initiatives that improve person - centered		
planning practices. Companion documents may		
also be issued by DDSD and be required for use		
in order to better demonstrate required elements		
of the PCP process and ISP development.		
The ISP is completed by the CM with the IDT		
input and must be completed according to the		
following requirements:		
DD Waiver Provider Agencies should not		
recommend service type, frequency, and amount		
(except for required case management services)		
on an individual budget prior to the Vision		
Statement and Desired Outcomes being		
developed.		
<ol><li>The person does not require IDT</li></ol>		
agreement/approval regarding his/her dreams,		
aspirations, and desired long-term outcomes.		
<ol><li>When there is disagreement, the IDT is</li></ol>		
required to plan and resolve conflicts in a manner		
that promotes health, safety, and quality of life		
through consensus. Consensus means a state of		
general agreement that allows members to		
support the proposal, at least on a trial basis.		
4. A signature page and/or documentation of		
participation by phone must be completed.		
5. The CM must review a current Addendum A		
and DHI ANE letter with the person and Court		

appointed guardian or parents of a minor, if applicable.		
6.6.3 Additional Requirements for Adults: Because children have access to other funding		
sources, a larger array of services are available		
to adults than to children through the DD Waiver. (See Chapter 7: Available Services and Individual		
Budget Development). The ISP Template for		
adults is also more extensive, including Action Plans, Teaching and Support Strategies (TSS),		
Written Direct Support Instructions (WDSI), and		
Individual Specific Training (IST) requirements.		
6.6.3.1. Action Plan: Each Desired Outcome		
requires an Action Plan. The Action Plan addresses individual strengths and capabilities in		
reaching Desired Outcomes. Multiple service types may be included in the Action Plan under a		
single Desired Outcome. Multiple Provider		
Agencies can and should be contributing to Action Plans toward each Desired Outcome.		
Action Plans include actions the person		
will take; not just actions the staff will take.  2. Action Plans delineate which activities		
will be completed within one year.		
3. Action Plans are completed through IDT consensus during the ISP meeting.		
4. Action Plans must indicate under		
"Responsible Party" which DSP or service provider (i.e. Family Living, CCS, etc.) are		
responsible for carrying out the Action Step.		
6.6.3.2 Teaching and Supports Strategies		
(TSS) and Written Direct Support Instructions (WDSI): After the ISP meeting, IDT members		
conduct a task analysis and assessments		
necessary to create effective TSS and WDSI to support those Action Plans that require this extra		
detail. All TSS and WDSI should support the		
person in achieving his/her Vision.		

6.6.3.3 Individual Specific Training in the ISP: The CM, with input from each DD Waiver Provider Agency at the annual ISP meeting, completes the IST requirements section of the ISP form listing all training needs specific to the individual. Provider Agencies bring their proposed IST to the annual meeting. The IDT must reach a consensus about who needs to be trained, at what level (awareness, knowledge or skill), and within what timeframe. (See Chapter 17.10 Individual-Specific Training for more information about IST.)		
6.8 ISP Implementation and Monitoring: All DD Waiver Provider Agencies with a signed SFOC are required to provide services as detailed in the ISP. The ISP must be readily accessible to Provider Agencies on the approved budget. (See Chapter 20: Provider Documentation and Client Records.) CMs facilitate and maintain communication with the person, his/her representative, other IDT members, Provider Agencies, and relevant parties to ensure that the person receives the maximum benefit of his/her services and that revisions to the ISP are made as needed. All DD Waiver Provider Agencies are required to cooperate with monitoring activities conducted by the CM and the DOH. Provider Agencies are required to respond to issues at the individual level and agency level as described in Chapter 16: Qualified Provider Agencies.		
Chapter 20: Provider Documentation and Client Records: 20.2 Client Records Requirements: All DD Waiver Provider Agencies are required to create and maintain individual client records. The contents of client records vary depending on the unique needs of the person receiving services and the resultant information produced. The extent of		

documentation required for individual client records per service type depends on the location of the file, the type of service being provided, and the information necessary.		
Developmental Disabilities (DD) Waiver Service Standards effective 11/1/2012 revised 4/23/2013; 6/15/2015		
Chapter 6 (CCS) 3. Agency Requirements: G. Consumer Records Policy: All Provider Agencies shall maintain at the administrative office a confidential case file for each individual. Provider agency case files for individuals are required to comply with the DDSD Individual Case File Matrix policy.		
Chapter 7 (CIHS) 3. Agency Requirements: E. Consumer Records Policy: All Provider Agencies must maintain at the administrative office a confidential case file for each individual. Provider agency case files for individuals are required to comply with the DDSD Individual Case File Matrix policy.		
Chapter 11 (FL) 3. Agency Requirements: D. Consumer Records Policy: All Family Living Provider Agencies must maintain at the administrative office a confidential case file for each individual. Provider agency case files for individuals are required to comply with the DDSD Individual Case File Matrix policy.

1. Semi-Annual Reports: Family Living Provider		
must submit written semi-annual status reports to		
the individual's Case Manager and other IDT		
Members no later than one hundred ninety (190)		
calendar days after the ISP effective date. When		

reports are developed in any other language than English, it is the responsibility of the provider to translate the reports into English. The semi-annual reports must contain the following written documentation:		
<ul> <li>a. Name of individual and date on each page;</li> <li>b. Timely completion of relevant activities from ISP Action Plans;</li> <li>c. Progress towards desired outcomes in the ISP accomplished during the past six months;</li> <li>d. Significant changes in routine or staffing;</li> <li>e. Unusual or significant life events, including significant change of health condition;</li> <li>f. Data reports as determined by IDT members; and</li> <li>g. Signature of the agency staff responsible for preparing the reports.</li> </ul>		
CHAPTER 7 (CIHS) 3. Agency Requirements: F. Customized In-Home Supports Provider Agency Reporting Requirements: 1. Semi-Annual Reports: Customized In-Home Supports providers must submit written semi- annual status reports to the individual's Case Manager and other IDT members no later than one hundred ninety (190) calendar days after the ISP effective date and fourteen (14) calendar days prior to the annual ISP meeting. When reports are developed in any language other than English, it is the responsibility of the provider to translate the reports into English. The semi-annual reports must contain the following written documentation:		
<ul> <li>a. Name of individual and date on each page;</li> <li>b. Timely completion of relevant activities from ISP Action Plans;</li> <li>c. Progress towards desired outcomes in the ISP accomplished during the past six (6)</li> </ul>

CHAPTER 6 (CCS) 3. Agency Requirements:  Reporting Requirements: Progress Reports: Customized Community Supports providers must submit written status reports to the individual's Case Manager and other IDT members. When reports are developed in any language other than English, it is the responsibility of the provider to translate the reports into English. These reports are due at two points in time: a mid-cycle report due on day 190 of the ISP cycle and a second summary report due two weeks prior to the annual ISP meeting that covers all progress since the beginning of the ISP cycle up to that point. These reports must contain the following written documentation:		
1. Semi-annual progress reports one hundred ninety (190) days following the date of the annual ISP, and 14 days prior to the annual IDT meeting:		
<ul> <li>a. Identification of and implementation of a Meaningful Day definition for each person served;</li> <li>b. Documentation for each date of service delivery summarizing the following: <ol> <li>i. Choice based options offered throughout the day; and</li> <li>ii. Progress toward outcomes using age</li> </ol> </li> </ul>		

appropriate strategies specified in each individual's action steps in the ISP, and associated support plans/WDSI.

Developmental Disabilities (DD) Waiver Service Standards 2/26/2018; Eff Date: 3/1/2018  Chapter 11: Community Inclusion:  11.1 General Scope and Intent of Services:  Community Inclusion (CI) is the umbrella term used to describe services in this chapter. In general, CI refers to opportunities for people with I/DD to access and participate in activities and functions of community life. The DD waiver program offers Customized Community Supports (CCS), which refers to non-work activities and Community Integrated Employment (CIE) which refers to paid work experiences or activities to obtain paid work. CCS and CIE services are mandated to be provided in the community to the fullest extent possible.  11.4 Person Centered Assessments (PCA) and Career Development Plans: Agencies who are providing CCS and/or CIE to people with I/DD are required to complete a person-centered assessment (PCA) is an instrument used to identify individual needs and strengths to be addressed in the person's ISP. A PCA is a PCP tool that is intended to be used for the service agency to get to know the person whom they are supporting. It should be used to guide services for the person. A career development plan, developed by the CIE Provider Agency, must be in place for job seekers or those already working to outline the tasks needed to obtain, maintain, or seek advanced opportunities in employment. For those who are employed, the career development plan addresses topics such as a plan to fade paid supports from the worksite or strategies to improve opportunities for career advancement. CCS and CIE Provider Agencies must adhere to	Based on record review, the Agency did not maintain a confidential case file for Individuals receiving Inclusion Services for 1 of 9 individuals. the following requirements related to a PCA and		
Career Development Plan:		
A person-centered assessment should		
contain, at a minimum:		
a. information about the person's		
background and status;		
b. the person's strengths and interests;		
c. conditions for success to integrate		
into the community, including		
conditions for job success (for those		
who are working or wish to work); and		
d. support needs for the individual.		
2. The agency must have documented		
evidence that the person, guardian, and		
family as applicable were involved in the		
person-centered assessment.		
3. Timelines for completion: The initial PCA		
must be completed within the first 90 calendar		
days of the person receiving services.		
Thereafter, the Provider Agency must ensure		
that the PCA is reviewed and updated annually.		
An entirely new PCA must be completed every		
five years. If there is a significant change in a		
person's circumstance, a new PCA may be		
required because the information in the PCA		
may no longer be relevant. A significant change		
may include but is not limited to: losing a job,		
changing a residence or provider, and/or		
moving to a new region of the state.		
4. If a person is receiving more than one		
type of service from the same provider, one

acceptable.

6. A career development plan is developed		
by the CIE provider and can be a separate		
document or be added as an addendum to a		
PCA. The career development plan should		
have specific action steps that identify who		

does what and by when.		
Chapter 20: Provider Documentation and		
Client Records: 20.2 Client Records		
Requirements: All DD Waiver Provider Agencies		
are required to create and maintain individual client records. The contents of client records vary		
depending on the unique needs of the person		
receiving services and the resultant information		
produced. The extent of documentation required		
for individual client records per service type		
depends on the location of the file, the type of		
service being provided, and the information		
necessary.		
DD Waiver Provider Agencies are required to adhere to the following:		
15. Client records must contain all documents		
essential to the service being provided and		
essential to ensuring the health and safety of the		
person during the provision of the service.

<b>Developmental Disabilities Supports Division</b>		
(DDSD) DIRECTOR'S RELEASE (DR) #:		
16.01.01 <b>EFFECTIVE DATE</b> : January 15, 2016		
Rescind Policy Number: VAP-001; Procedure Number: VAPP-001		
I. SUMMARY: Effective January 15, 2016,		
the Department of Health/Developmental		
Disabilities Supports Division (DDSD) rescinded		
the Vocational Assessment Profile Policy (VAP-		
001) and Vocational Assessment Profile		
Procedure for Individuals on the Developmental		
Disabilities Waiver Who Are and Who Are Not Jackson Class Members (VAPP-001) dated July		
16, 2008.		
II. REQUIREMENTS AND CLARIFICATIONS:		
To replace this policy and procedure, it is the		
expectation that providers who support		
individuals on the Developmental Disabilities		

Waiver (DDW) complete an annual personcentered assessment. This is a requirement for all DD Waiver recipients who receive Customized Community Supports and/or Community Integrated Employment services, including Jackson Class Members who receive Community Inclusion Services. In addition, for new allocations, individuals transferring from Mi Via Waiver services to traditional DD Waiver services, or for individuals who are new to a provider or are requesting a service for the first time, a person-centered assessment shall be completed within 90 days. A person-centered assessment is a tool to elicit information about a person. The tool is to be used for person-centered planning and collecting information that shall be included in the Individual Service Plan (ISP). A person-centered assessment should contain, at a minimum: Information about the individual's background and current status, the individual's strengths, interests, conditions for success to integrate into the community, including conditions for job success (for individuals who are working or wish to work), and support needs for the individual. A person-centered assessment must include individual and/or family involvement. Additionally, information from staff members who are closest to the individual and who know the individual the best should be included in the assessment. A new person-centered assessment should be completed at least every five years. If there is a significant change in an individual's circumstance, a new assessment will be required sooner. Person-centered assessments should reviewed and be updated annually. Changes to the updated assessment should be signed and dated in order to demonstrate that the

assessment was reviewed.

All records pertaining to JCMs must be retained permanently and must be made available to DDSD upon request, upon the termination or expiration of a provider agreement, or upon provider withdrawal from services.		
20.5.3 Health Passport and Physician Consultation Form: All Primary and Secondary Provider Agencies must use the Health Passport and Physician Consultation form from the Therap system. This standardized document contains individual, physician and emergency contact information, a complete list of current medical diagnoses, health and safety risk factors, allergies, and information regarding insurance, guardianship, and advance directives. The Health Passport also includes a standardized form to use at medical appointments called the Physician Consultation form. The Physician Consultation form contains a list of all current medications. Requirements for the Health Passport and Physician Consultation form are: 2. The Primary and Secondary Provider Agencies must ensure that a current copy of the Health Passport and Physician Consultation forms are printed and available at all service delivery sites. Both forms must be reprinted and placed at all service delivery sites each time the e-CHAT is updated for any reason and whenever there is a change to contact information contained in the IDF.		

**Chapter 13: Nursing Services:** 

### 13.2.9 Healthcare Plans (HCP): 1. At the nurse's discretion, based on prudent nursing practice, interim HCPs may be developed to address issues that must be implemented immediately after admission, readmission or change of medical condition to provide safe services prior to completion of the e-CHAT and formal care planning process. This includes interim ARM plans for those persons newly identified at moderate or high risk for aspiration. All interim plans must be removed if the plan is no longer needed or when final HCP including CARMPs are in place to avoid duplication of plans. 2. In collaboration with the IDT, the agency nurse is required to create HCPs

summary

- 1. The agency nurse is required to develop a Medical Emergency Response Plan (MERP) for all conditions marked with an "R" in the e-CHAT summary report. The agency nurse should use her/his clinical judgment and input from the Interdisciplinary Team (IDT) to determine whether shown as "C" in the e-CHAT summary report or other conditions also warrant a MERP.
- 2. MERPs are required for persons who have one or more conditions or illnesses that present a likely potential to become a life-threatening situation.

Developmental Disabilities (DD) Waiver Service Standards 2/26/2018; Eff Date: 3/1/2018  Chapter 13: Nursing Services  13.2.11 Training and Implementation of Plans:  1. RNs and LPNs are required to provide Individual Specific Training (IST) regarding HCPs and MERPs.  2. The agency nurse is required to deliver and document training for DSP/DSS regarding the healthcare interventions/strategies and MERPs that the DSP are responsible to implement, clearly indicating level of competency achieved by each trainee as described in Chapter 17.10 Individual-Specific Training.	After an analysis of the evidence it has been determined there is a significant potential for a negative outcome to occur.  Based on interview, the Agency did not ensure training competencies were met for 4 of 18 Direct Support Personnel.  When DSP were asked, if the Individual had a Positive Behavioral Supports Plan (PBSP), have you been trained on the PBSP and what does the plan cover, the following was reported:	Provider: State your Plan of Correction for the deficiencies cited in this tag here (How is the deficiency going to be corrected? Reaching an awareness level may be accomplished by reading plans or other information. The trainee is cognizant of information related to a person's specific condition. Verbal or written recall of basic information or knowing where to access the information can verify awareness. Reaching a knowledge level may take the form of observing a plan in action, reading a plan more thoroughly, or having a plan described by the author or their designee. This should be repeated until competence is demonstrated. Demonstration of skill or observed implementation of the techniques or strategies verifies skill level competence. IST must be arranged and conducted at least annually. IST includes training on the ISP Desired Outcomes, Action Plans, strategies, and information about the person's preferences regarding privacy, communication style, and routines. More frequent training may be necessary if the annual ISP changes before the year ends.  2. IST for therapy-related WDSI, HCPs, MERPs, CARMPs, PBSA, PBSP, and BCIP, must occur at least annually and more often if plans change, or if monitoring by the plan author or agency finds incorrect implementation, when new DSP or CM are assigned to work with a person, or when an existing DSP or CM requires a refresher.  3. The competency level of the training is based on the IST section of the ISP.  4. The person should be present for and involved in IST whenever possible.  5. - d. recommendations made through a Healthcare Plan (HCP), including a Comprehensive Aspiration Risk Management Plan (CARMP), or another plan.
- 2. When the person/guardian disagrees with a recommendation or does not agree with the implementation of that recommendation, Provider Agencies follow the DCP and attend the meeting coordinated by the CM. During this meeting:
  - a. Providers inform the person/guardian of the rationale for that recommendation, so that the benefit is made clear. This will be done in layman's terms and will include basic sharing of information designed to assist the person/guardian with understanding the risks and benefits of the recommendation.
  - b. The information will be focused on the specific area of concern by the person/guardian. Alternatives should be presented, when available, if the guardian is interested in considering other options for implementation.
  - c. Providers support the person/guardian to make an informed decision.
  - d. The decision made by the person/guardian during the meeting is accepted; plans are modified; and the IDT honors this health decision in every setting.

Consultation Process (DCP): Health decisions		
are the sole domain of waiver participants, their		
guardians or healthcare decision makers.		
Participants and their healthcare decision makers		
can confidently make decisions that are		
compatible with their personal and cultural		
values. Provider Agencies are required to support		
the informed decision making of waiver		
participants by supporting access to medical		
consultation, information, and other available		
resources according to the following:		
2. The DCP is used when a person or his/her		
guardian/healthcare decision maker has		
concerns, needs more information about health-		
related issues, or has decided not to follow all or		
part of an order, recommendation, or suggestion.		
This includes, but is not limited to:		
a. medical orders or recommendations from the		
Primary Care Practitioner, Specialists or		
other licensed medical or healthcare		
practitioners such as a Nurse Practitioner		
(NP or CNP), Physician Assistant (PA) or		
Dentist;		
b. clinical recommendations made by		
registered/licensed clinicians who are either		

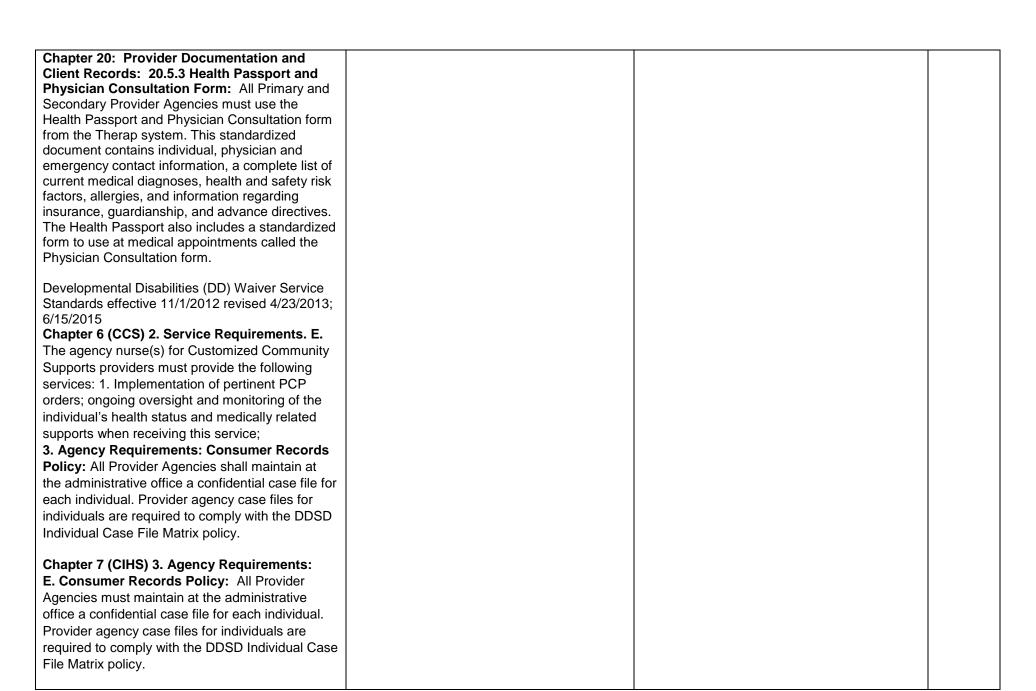

members of the IDT or clinicians who have performed an evaluation such as a video-fluoroscopy;  c. health related recommendations or suggestions from oversight activities such as the Individual Quality Review (IQR) or other DOH review or oversight activities; and d. recommendations made through a Healthcare Plan (HCP), including a Comprehensive Aspiration Risk Management Plan (CARMP), or another plan.

When completing the e-CHAT, the nurse is required to review and update the electronic record and consider the diagnoses, medications, treatments, and overall status of the person. Discussion with others may be needed to obtain critical information.  5. The nurse is required to complete all the e-CHAT assessment questions and add additional pertinent information in all comment sections.		
13.2.7 Aspiration Risk Management Screening Tool (ARST)		
13.2.8 Medication Administration Assessment Tool (MAAT):  1. A licensed nurse completes the DDSD Medication Administration Assessment Tool (MAAT) at least two weeks before the annual ISP meeting.  2. After completion of the MAAT, the nurse will present recommendations regarding the level of assistance with medication delivery (AWMD) to the IDT. A copy of the MAAT will be sent to all the team members two weeks before the annual ISP meeting and the original MAAT will be retained in the Provider Agency records.  3. Decisions about medication delivery are made by the IDT to promote a person's maximum independence and community integration. The IDT will reach consensus regarding which criteria the person meets, as indicated by the results of the MAAT and the nursing recommendations, and the decision is documented this in the ISP.

RE: Request for an Informal Reconsideration of Findings

Dear Mr. McDonald,

Your request for a Reconsideration of Findings was received on July 20, 2018. Your request and the supporting evidence provided have been reviewed. Based on the review of applicable standards and regulations, review of the survey process and the evidence you provided, the following determinations have been made:

#### Regarding Tag #1A08.3 & 1A29

Determination: The IRF committee is upholding the original findings in the report of findings. You are required to complete the remainder of your Plan of Correction as previously indicated. Based on the QMB Document Request Form, the Addendum A and Grievance and Compliant Procedures for Individual #5 were requested from and signed by Lyndsey McDonald on 6/6/2018. The agency was given the opportunity to reconcile documentation and a final copy of the QMB Document Request Form, still listing these items as not provided or justified, was provided to the agency and signed by James McDonald on 6/7/2018 indicating acknowledgement of the findings. No documentation and/or justification was provided to surveyors while on-site to refute the findings.

#### Regarding Tag #IS12

Determination: The IRF committee is removing the original finding in the report of findings. Individual #5 does not receive an Inclusion Service through the agency and therefore did not require a Person Centered Assessment. Since this was the only citation in this section, Tag IS12 will be removed.

## Regarding Tag #1A20

Determination: The IRF committee is removing the original finding in the report of findings. Based on documentation provided and the QMB Training Document Request Form, DSP #542 did have their certification for First Aid and CPR during the on-site survey. Since DSP #542 was the only staff cited in this section, Tag 1A20 will be removed.

This concludes the Informal Reconsideration of Finding process. The IRF process is separate and apart from the Informal Dispute Resolution process or the Medicaid Fair Hearing process when DOH sanctions are imposed on a provider.

Thank you. Respectfully,

Crystal Lopez-Beck

Dear Mr. McDonald;

The Division of Health Improvement/Quality Management Bureau has received, reviewed and approved the supporting documents you submitted for your Plan of Correction. The documents you provided verified that all previously cited survey Deficiencies have been corrected. In addition, as a result of your compliance survey, completed during Pilot 1 (April 1 – June 30, 2018) of the revised QMB survey process, your agency has been rescored based on changes made after the pilot. You are now in Partial-Compliance with Standard Level Tags and Condition of Participation Level Tags. Therefore, an on-site verification survey is no longer necessary.

## The Plan of Correction process is now complete.

# Furthermore, your agency is now determined to be in Compliance with all Conditions of Participation.

To maintain ongoing compliance with standards and regulations, continue to use the Quality Assurance (self-auditing) processes you described in your Plan of Correction.

Consistent use of these Quality Assurance processes will enable you to identify and promptly respond to problems, enhance your service delivery, and result in fewer deficiencies cited in future QMB surveys.

Thank you for your cooperation with the Plan of Correction process, for striving to come into compliance with standards and regulations, and for helping to provide the health, safety and personal growth of the people you serve.

Sincerely,

Amanda Castañeda
