Region: Survey Date: Program Surveyed:	Northwest, Southwest, Metro July 5 - 11, 2019 Developmental Disabilities Waiver
Service Surveyed:	2018: Supported Living, Family Living, Customized In-Home Supports, Customized Community Supports.
Survey Type:	Routine
Team Leader:	Lora Norby, Healthcare Surveyor, Division of Health Improvement/Quality Management Bureau
Team Member:	Wolf Krusemark, BFA, Healthcare Surveyor Supervisor, Division of Health Improvement/Quality Management Bureau; Kayla Benally, BSW, Healthcare Surveyor, Division of Health Improvement/Quality Management Bureau; Elisa Alford, MSW, Healthcare Surveyor, Division of Health Improvement/Quality Management Bureau; Heather Driscoll, AA, Healthcare Surveyor, Division of Health Improvement/Quality Management Bureau; Monica Valdez, BS, Healthcare Surveyor Advanced/Plan of Correction Coordinator, Division of Health Improvement/Quality Management Bureau; Monica deHerrera-Pardo, LBSW, Healthcare Surveyor, Division of Health Improvement/Quality Management Bureau;

Dear Bill Kesatie;

The Division of Health Improvement/Quality Management Bureau has completed a compliance survey of the services identified above. The purpose of the survey was to determine compliance with federal and state standards; to assure the health, safety, and welfare of individuals receiving services through the Developmental Disabilities Waiver; and to identify opportunities for improvement. This Report of Findings will be shared with the Developmental Disabilities Supports Division for their use in determining your current and future provider agreements. Upon receipt of this letter and Report of Findings your agency must immediately correct all deficiencies which place Individuals served at risk of harm.

Determination of Compliance:

The Division of Health Improvement, Quality Management Bureau has determined your agency is in:

Non-Compliance: This determination is based on noncompliance with 17 or more total Tags with 0 to 5 Condition of Participation Level Tags with 75% to 100% of the survey sample affected in any Condition of Participation Level tag or any amount of Standard Level Tags with 6 or more Condition of Participation Level Tags (refer to Attachment

DIVISION OF HEALTH IMPROVEMENT

5301 Central Avenue NE, Suite 400 • Albuquerque, New Mexico • 87108 (505) 222-8623 • FAX: (505) 222-8661 • <u>https://nmhealth.org/about/dhi/</u>

D for details). The attached QMB Report of Findings indicates Standard Level and Condition of Participation Level deficiencies identified and requires completion and implementation of a Plan of Correction.

The following tags are identified as Condition of Participation Level:

- Tag # 1A32 Administrative Case File: Individual Service Plan Implementation
- Tag # LS14 Residential Service Delivery Site Case File (ISP and Healthcare requirements)
- Tag # 1A22 Agency Personnel Competency
- Tag # 1A05 General Provider Requirements/Agency Policy and Procedures Requirements
- Tag # 1A15 Healthcare Documentation Nurse Availability / Knowledge
- Tag # 1A31 Client Rights/Human Rights

The following tags are identified as Standard Level:

- Tag # 1A08 Administrative Case File (Other Required Documents)
- Tag # 1A08.1 Administrative and Residential Case File: Progress Notes
- Tag # 1A08.3 Administrative Case File: Individual Service Plan/ISP Components
- Tag # 1A32.1 Administrative Case File: Individual Service Plan Implementation (Not Completed at Frequency)
- Tag # 1A32.2 Individual Service Plan Implementation (Residential Implementation)
- Tag # 1A38 Living Care Arrangement / Community Inclusion Reporting Requirements
- Tag # IS04 Community Life Engagement
- Tag # LS14.1 Residential Service Delivery Site Case File (Other Required Documentation)
- Tag # 1A20 Direct Support Personnel Training
- Tag # 1A37 Individual Specific Training
- Tag # 1A43.1 General Events Reporting Individual Reporting
- Tag # 1A09 Medication Delivery Routine Medication Administration
- Tag # 1A09.0 Medication Delivery Routine Medication Administration
- Tag # 1A09.1 Medication Delivery PRN Medication Administration
- Tag # 1A09.1.0 Medication Delivery PRN Medication Administration
- Tag # 1A15.2 Administrative Case File: Healthcare Documentation (Therap and Required Plans)
- Tag # 1A29 Complaints / Grievances Acknowledgement
- Tag # LS06 Family Living Requirements
- Tag # LS25 Residential Health and Safety (Supported Living & Family Living)
- Tag # LS26 Supported Living Reimbursement

Plan of Correction:

The attached Report of Findings identifies the deficiencies found during your agency's on-site compliance review. You are required to complete and implement a Plan of Correction. Your agency has a total of 45 business days (10 business days to submit your POC for approval and 35 days to implement your *approved* Plan of Correction) from the receipt of this letter.

You were provided information during the exit meeting portion of your on-site survey. Please refer to this information (Attachment A) for specific instruction on completing your Plan of Correction. At a minimum your Plan of Correction should address the following for each Tag cited:

Corrective Action for Current Citation:

 How is the deficiency going to be corrected? (i.e. obtained documents, retrain staff, individuals and/or staff no longer in service, void/adjusts completed, etc.) This can be specific to each deficiency cited or if possible an overall correction, i.e. all documents will be requested and filed as appropriate.

On-going Quality Assurance/Quality Improvement Processes:

- What is going to be done on an ongoing basis? (i.e. file reviews, etc.)
- How many individuals is this going to effect? (i.e. percentage of individuals reviewed, number of files reviewed, etc.)
- How often will this be completed? (i.e. weekly, monthly, quarterly, etc.)
- Who is responsible? (responsible position within your agency)

QMB Report of Findings – Su Vida Services Incorporated – Metro, Northwest, Southwest – July 5 - 11, 2019

Survey Report #: Q.20.1.DDW.D2601.1/3/5.RTN.01.19.241

- What steps will be taken if issues are found? (i.e. retraining, requesting documents, filing RORA, etc.)
- How is this integrated in your agency's QIS, QI Committee reviews and annual report?

Submission of your Plan of Correction:

Please submit your agency's Plan of Correction in the available space on the two right-hand columns of the Report of Findings. (See attachment "A" for additional guidance in completing the Plan of Correction).

Within 10 business days of receipt of this letter your agency Plan of Correction must be submitted to the parties below:

1. Quality Management Bureau, Attention: Monica Valdez, Plan of Correction Coordinator 5301 Central Ave NE Suite 400, Albuquerque, New Mexico 87108

2. Developmental Disabilities Supports Division Regional Office for region of service surveyed

Upon notification from QMB that your *Plan of Correction has been approved*, you must implement all remedies and corrective actions to come into compliance. If your Plan of Correction is denied, you must resubmit a revised plan as soon as possible for approval, as your POC approval and all remedies must be completed within 45 business days of the receipt of this letter.

Failure to submit your POC within the allotted 10 business days or complete and implement your Plan of Correction within the total 45 business days allowed may result in the imposition of a \$200 per day Civil Monetary Penalty until it is received, completed and/or implemented.

Billing Deficiencies:

If you have deficiencies noted in this report of findings under the *Service Domain: Medicaid Billing/Reimbursement*, you must complete a "Void/Adjust" claim or remit the identified overpayment via a check within 30 calendar days of the date of this letter to HSD/OIG/PIU, *though this is not the preferred method of payment*. If you choose to pay via check, please include a copy of this letter with the payment. Make the check payable to the New Mexico Human Services Department and mail to:

Attention: *Lisa Medina-Lujan* HSD/OIG/Program Integrity Unit 1474 Rodeo Road Santa Fe, New Mexico 87505

If you have questions and would like to speak with someone at HSD/OIG/PIU, please contact:

Lisa Medina-Lujan (<u>Lisa.medina-lujan@state.nm.us</u>) OR Jennifer Goble (<u>Jennifer.goble2@state.</u>nm.us)

Please be advised that there is a one-week lag period for applying payments received by check to Void/Adjust claims. During this lag period, your other claim payments may be applied to the amount you owe even though you have sent a refund, reducing your payment amount. For this reason, we recommend that you allow the system to recover the overpayment instead of sending in a check.

Request for Informal Reconsideration of Findings (IRF):

If you disagree with a finding of deficient practice, you have 10 business days upon receipt of this notice to request an IRF. Submit your request for an IRF in writing to:

Request for Informal Reconsideration of Findings 5301 Central Ave NE Suite #400 Albuquerque, NM 87108 Attention: IRF request

See Attachment "C" for additional guidance in completing the request for Informal Reconsideration of Findings. The request for an IRF will not delay the implementation of your Plan of Correction which must be completed within 45 total

business days (10 business days to submit your POC for approval and 35 days to implement your *approved* Plan of Correction). Providers may not appeal the nature or interpretation of the standard or regulation, the team composition or sampling methodology. If the IRF approves the modification or removal of a finding, you will be advised of any changes.

Please call the Plan of Correction Coordinator Monica Valdez at 505-273-1930 if you have questions about the Report of Findings or Plan of Correction. Thank you for your cooperation and for the work you perform.

Sincerely,

Lora Norby,

Lora Norby, Team Lead/Healthcare Surveyor Division of Health Improvement Quality Management Bureau

QMB Report of Findings – Su Vida Services Incorporated – Metro, Northwest, Southwest – July 5 - 11, 2019

Survey Report #: Q.20.1.DDW.D2601.1/3/5.RTN.01.19.241

Provider Instructions for Completing the QMB Plan of Correction (POC) Process

Introduction:

After a QMB Compliance Survey, your QMB Report of Findings will be sent to you via e-mail.

Each provider must develop and implement a Plan of Correction (POC) that identifies specific quality assurance and quality improvement activities the agency will implement to correct deficiencies and prevent continued deficiencies and non-compliance.

Agencies must submit their Plan of Correction within ten (10) business days from the date you receive the QMB Report of Findings. (Providers who do not submit a POC within 10 business days may be referred to the DDSD Regional Office for purposes of contract management or the Internal Review Committee [IRC] for possible actions or sanctions).

Agencies must fully implement their approved Plan of Correction within 45 business days (10 business days to submit your POC for approval and 35 days to implement your approved Plan of Correction) from the date they receive the QMB Report of Findings. Providers who fail to complete a POC within the 45-business days allowed will be referred to the IRC for possible actions or sanctions.

If you have questions about the Plan of Correction process, call the Plan of Correction Coordinator at 505-273-1930 or email at <u>MonicaE.Valdez@state.nm.us</u>. Requests for technical assistance must be requested through your Regional DDSD Office.

The POC process cannot resolve disputes regarding findings. If you wish to dispute a finding on the official Report of Findings, you must file an Informal Reconsideration of Findings (IRF) request within ten (10) business days of receiving your report. Please note that you must still submit a POC for findings that are in question (see Attachment C).

Instructions for Completing Agency POC:

Required Content

Your Plan of Correction should provide a step-by-step description of the methods to correct each deficient practice cited to prevent recurrence and information that ensures the regulation cited comes into and remains in compliance. The remedies noted in your POC are expected to be added to your Agency's required, annual Quality Assurance (QA) Plan.

If a deficiency has already been corrected since the on-site survey, the plan should state how it was corrected, the completion date (date the correction was accomplished), and how possible recurrence of the deficiency will be prevented.

The following details should be considered when developing your Plan of Correction:

The Plan of Correction must address each deficiency cited in the Report of Findings unless otherwise noted with a "No Plan of Correction Required statement." The Plan of Correction must address the five (5) areas listed below:

- 1. How the specific and realistic corrective action will be accomplished for individuals found to have been affected by the deficient practice.
- 2. How the agency will identify other individuals who have the potential to be affected by the same deficient practice, and how the agency will act to protect those individuals in similar situations.
- 3. What Quality Assurance measures will be put into place and what systemic changes made to ensure the deficient practice will not recur.
- 4. Indicate how the agency plans to monitor its performance to make certain solutions are sustained. The agency must develop a QA plan for ensuring correction is achieved and sustained. This QA plan must be implemented, and the corrective action is evaluated for its effectiveness. The plan of correction is integrated into the agency quality assurance system; and
- 5. Include dates when corrective actions will be completed. The corrective action completion dates must be acceptable to the State.

The following details should be considered when developing your Plan of Correction:

- Details about how and when Individual Served, agency personnel and administrative and service delivery site files are audited by agency personnel to ensure they contain required documents;
- Information about how medication administration records are reviewed to verify they contain all required information before they are distributed to service sites, as they are being used, and after they are completed;
- Your processes for ensuring that all required agency personnel are trained on required DDSD required trainings;
- How accuracy in billing/reimbursement documentation is assured;
- How health, safety is assured;
- For Case Management providers, how Individual Service Plans are reviewed to verify they meet requirements, how the timeliness of level of care (LOC) packet submissions and consumer visits are tracked;
- Your process for gathering, analyzing and responding to quality data indicators; and,
- Details about Quality Targets in various areas, current status, analyses about why targets were not met, and remedies implemented.

Note: <u>Instruction or in-service of staff alone may not be a sufficient plan of correction</u>. This is a good first step toward correction, but additional steps must be taken to ensure the deficiency is corrected and will not recur.

Completion Dates

- The plan of correction must include a **completion date** (entered in the far right-hand column) for each finding. Be sure the date is **realistic** in the amount of time your Agency will need to correct the deficiency; not to exceed 45 total business days.
- Direct care issues should be corrected immediately and monitored appropriately.
- Some deficiencies may require a staged plan to accomplish total correction.
- Deficiencies requiring replacement of equipment, etc., may require more time to accomplish correction but should show reasonable time frames.

Initial Submission of the Plan of Correction Requirements

- 1. The Plan of Correction must be completed on the official QMB Survey Report of Findings/Plan of Correction Form and received by QMB within ten (10) business days from the date you received the report of findings.
- 2. For questions about the POC process, call the POC Coordinator, Monica Valdez at 505-273-1930 or email at <u>MonicaE.Valdez@state.nm.us</u> for assistance.
- 3. For Technical Assistance (TA) in developing or implementing your POC, contact your Regional DDSD Office.
- 4. Submit your POC to Monica Valdez, POC Coordinator in any of the following ways:
 - a. Electronically at MonicaE.Valdez@state.nm.us (preferred method)
 - b. Fax to 505-222-8661, or
 - c. Mail to POC Coordinator, 5301 Central Ave NE Suite 400, Albuquerque, New Mexico 87108
- 5. <u>Do not submit supporting documentation</u> (evidence of compliance) to QMB <u>until after your POC has been approved</u> by the QMB.
- 6. QMB will notify you when your POC has been "approved" or "denied."
 - a. During this time, whether your POC is "approved," or "denied," you will have a maximum of 45-business days from the date of receipt of your Report of Findings to correct all survey deficiencies.
 - b. If your POC is denied, it must be revised and resubmitted as soon as possible, as the 45-business day limit is in effect.
 - c. If your POC is denied a second time your agency may be referred to the Internal Review Committee.
 - d. You will receive written confirmation when your POC has been approved by QMB and a final deadline for completion of your POC.
 - e. Please note that all POC correspondence will be sent electronically unless otherwise requested.
- 7. Failure to submit your POC within 10 business days without prior approval of an extension by QMB will result in a referral to the Internal Review Committee and the possible implementation of monetary penalties and/or sanctions.

POC Document Submission Requirements

QMB Report of Findings – Su Vida Services Incorporated – Metro, Northwest, Southwest – July 5 - 11, 2019

Survey Report #: Q.20.1.DDW.D2601.1/3/5.RTN.01.19.241

Once your POC has been approved by the QMB Plan of Correction Coordinator you must submit copies of documents as evidence that all deficiencies have been corrected, as follows.

- 1. Your internal documents are due within a maximum of 45-business days of receipt of your Report of Findings.
- It is preferred that you submit your documents via USPS or other carrier (scanned and saved to CD/DVD disc, flash drive, etc.). If documents containing HIPAA Protected Health Information (PHI) documents must be submitted through S-Comm (Therap), Fax or Postal System, do not send PHI directly to NMDOH email accounts. If the documents <u>do not</u> contain protected Health information (PHI) then you may submit your documents electronically scanned and attached to e-mails.
- All submitted documents <u>must be annotated</u>; please be sure the tag numbers and Identification numbers are indicated on each document submitted. Documents which are not annotated with the Tag number and Identification number may not be accepted.
- 4. Do not submit original documents; Please provide copies or scanned electronic files for evidence. Originals must be maintained in the agency file(s) per DDSD Standards.
- In lieu of some documents, you may submit copies of file or home audit forms that clearly indicate cited deficiencies have been corrected, other attestations of correction must be approved by the Plan of Correction Coordinator prior to their submission.
- 6. When billing deficiencies are cited, you must provide documentation to justify billing and/or void and adjust forms submitted to Xerox State Healthcare, LLC for the deficiencies cited in the Report of Findings.

Revisions, Modifications or Extensions to your Plan of Correction (post QMB approval) must be made in writing and submitted to the Plan of Correction Coordinator, prior to the due date and are approved on a case-by-case basis. No changes may be made to your POC or the timeframes for implementation without written approval of the POC Coordinator.

Attachment B

Department of Health, Division of Health Improvement QMB Determination of Compliance Process

The Division of Health Improvement, Quality Management Bureau (QMB) surveys compliance of the Developmental Disabilities Waiver (DDW) standards and other state and federal regulations. For the purpose of the LCA / CI survey the CMS waiver assurances have been grouped into four (4) Service Domains: Plan of Care (ISP Implementation); Qualified Providers; Health, Welfare and Safety; and Administrative Oversight (note that Administrative Oversight listed in this document is not the same as the CMS assurance of Administrative Authority. Used in this context it is related to the agency's operational policies and procedures, Quality Assurance system and Medicaid billing and reimbursement processes.)

The QMB Determination of Compliance process is based on provider compliance or non-compliance with standards and regulations identified during the on-site survey process and as reported in the QMB Report of Findings. All areas reviewed by QMB have been agreed to by DDSD and DHI/QMB and are reflective of CMS requirements. All deficiencies (non-compliance with standards and regulations) are identified and cited as either a Standard level deficiency or a Condition of Participation level deficiency in the QMB Reports of Findings. All deficiencies require corrective action when non-compliance is identified.

Each deficiency in your Report of Findings has been predetermined to be a Standard Level Deficiency, a Condition of Participation Level Deficiency, if below 85% compliance or a non-negotiable Condition of Participation Level Deficiency. Your Agency's overall Compliance Determination is based on a Scope and Severity Scale which takes into account the number of Standard and Condition Level Tags cited as well as the percentage of Individuals affected in the sample.

Conditions of Participation (CoPs)

CoPs are based on the Centers for Medicare and Medicaid Services, Home and Community-Based Waiver required assurances, in addition to the New Mexico Developmental Disability Waiver (DDW) Service Standards. The Division of Health Improvement (DHI), in conjunction with the Developmental Disability Support Division (DDSD), has identified certain deficiencies that have the potential to be a Condition of Participation Level, if the tag falls below 85% compliance based on the number of people affected. Additionally, there are what are called non-negotiable Conditions of Participation, regardless if one person or multiple people are affected. In this context, a CoP is defined as an essential / fundamental regulation or standard, which when out of compliance directly affects the health and welfare of the Individuals served. If no deficiencies within a Tag are at the level of a CoP, it is cited as a Standard Level Deficiency.

Service Domains and CoPs for Living Care Arrangements and Community Inclusion are as follows:

<u>Service Domain: Service Plan: ISP Implementation -</u> Services are delivered in accordance with the service plan, including type, scope, amount, duration and frequency specified in the service plan.

Potential Condition of Participation Level Tags, if compliance is below 85%:

- 1A08.3 Administrative Case File: Individual Service Plan / ISP Components
- **1A32** Administrative Case File: Individual Service Plan Implementation
- LS14 Residential Service Delivery Site Case File (ISP and Healthcare Requirements)
- IS14 CCS / CIES Service Delivery Site Case File (ISP and Healthcare Requirements)

<u>Service Domain: Qualified Providers -</u> The State monitors non-licensed/non-certified providers to assure adherence to waiver requirements. The State implements its policies and procedures for verifying that provider training is conducted in accordance with State requirements and the approved waiver.

Potential Condition of Participation Level Tags, if compliance is below 85%:

- **1A20** Direct Support Personnel Training
- **1A22** Agency Personnel Competency
- 1A37 Individual Specific Training

Non-Negotiable Condition of Participation Level Tags (one or more Individuals are cited):

• 1A25.1 – Caregiver Criminal History Screening

QMB Report of Findings - Su Vida Services Incorporated - Metro, Northwest, Southwest - July 5 - 11, 2019

Survey Report #: Q.20.1.DDW.D2601.1/3/5.RTN.01.19.241

• 1A26.1 – Consolidated On-line Registry Employee Abuse Registry

<u>Service Domain: Health, Welfare and Safety -</u> The State, on an ongoing basis, identifies, addresses and seeks to prevent occurrences of abuse, neglect and exploitation. Individuals shall be afforded their basic human rights. The provider supports individuals to access needed healthcare services in a timely manner.

Potential Condition of Participation Level Tags, if compliance is below 85%:

- 1A08.2 Administrative Case File: Healthcare Requirements & Follow-up
- 1A09 Medication Delivery Routine Medication Administration
- 1A09.1 Medication Delivery PRN Medication Administration
- **1A15.2** Administrative Case File: Healthcare Documentation (Therap and Required Plans)

Non-Negotiable Condition of Participation Level Tags (one or more Individuals are cited):

- 1A05 General Requirements / Agency Policy and Procedure Requirements
- 1A07 Social Security Income (SSI) Payments
- 1A09.2 Medication Delivery Nurse Approval for PRN Medication
- 1A15 Healthcare Documentation Nurse Availability / Knowledge
- **1A31** Client Rights/Human Rights
- LS25.1 Residential Reqts. (Physical Environment Supported Living / Family Living / Intensive Medical Living)

Attachment C

Guidelines for the Provider Informal Reconsideration of Finding (IRF) Process

Introduction:

QMB Report of Findings – Su Vida Services Incorporated – Metro, Northwest, Southwest – July 5 - 11, 2019

Survey Report #: Q.20.1.DDW.D2601.1/3/5.RTN.01.19.241

Throughout the QMB Survey process, surveyors are openly communicating with providers. Open communication means surveyors have clarified issues and/or requested missing information before completing the review through the use of the signed/dated "Document Request," or "Administrative Needs," etc. forms. Regardless, there may still be instances where the provider disagrees with a specific finding. Providers may use the following process to informally dispute a finding.

Instructions:

- The Informal Reconsideration of the Finding (IRF) request must be received in writing to the QMB Deputy Bureau Chief <u>within 10 business days</u> of receipt of the final Report of Findings (*Note: No extensions are* granted for the IRF).
- 2. The written request for an IRF *must* be completed on the QMB Request for Informal Reconsideration of Finding form available on the QMB website: <u>https://nmhealth.org/about/dhi/cbp/irf/</u>
- 3. The written request for an IRF must specify in detail the request for reconsideration and why the finding is inaccurate.
- 4. The IRF request must include all supporting documentation or evidence.
- 5. If you have questions about the IRF process, email the IRF Chairperson, Crystal Lopez-Beck at <u>Crystal.Lopez-Beck@state.nm.us</u> for assistance.

The following limitations apply to the IRF process:

- The written request for an IRF and all supporting evidence must be received within 10 business days.
- Findings based on evidence requested during the survey and not provided may not be subject to reconsideration.
- The supporting documentation must be new evidence not previously reviewed or requested by the survey team.
- Providers must continue to complete their Plan of Correction during the IRF process
- Providers may not request an IRF to challenge the sampling methodology.
- Providers may not request an IRF based on disagreement with the nature of the standard or regulation.
- Providers may not request an IRF to challenge the team composition.
- Providers may not request an IRF to challenge the DHI/QMB determination of compliance or the length of their DDSD provider contract.

A Provider forfeits the right to an IRF if the request is not received within 10 business days of receiving the report and/or does not include all supporting documentation or evidence to show compliance with the standards and regulations.

The IRF Committee will review the request; the Provider will be notified in writing of the ruling; no face-to-face meeting will be conducted.

When a Provider requests that a finding be reconsidered, it does not stop or delay the Plan of Correction process. **Providers must continue to complete the Plan of Correction, including the finding in dispute regardless of the IRF status.** If a finding is removed or modified, it will be noted and removed or modified from the Report of Findings. It should be noted that in some cases a Plan of Correction may be completed prior to the IRF process being completed. The provider will be notified in writing on the decisions of the IRF committee.

Attachment D

QMB Determinations of Compliance

Compliance:

The QMB determination of *Compliance* indicates that a provider has either no deficiencies found during a survey or that no deficiencies at the Condition of Participation Level were found. The agency has obtained a level of compliance such that there is a minimal potential for harm to individuals' health and safety. To qualify for a determination of *Compliance*, the provider must have received no Conditions of Participation Level Deficiencies and have a minimal number of Individuals on the sample affected by the findings indicated in the Standards Level Tags.

Partial-Compliance with Standard Level Tags:

The QMB determination of *Partial-Compliance with Standard Level Tags* indicates that a provider is in compliance with all Condition of Participation Level deficiencies but is out of compliance with a certain percentage of Standard Level deficiencies. This partial-compliance, if not corrected, may result in a negative outcome or the potential for more than minimal harm to individuals' health and safety. There are two ways to receive a determination of Partial Compliance with Standard Level Tags:

- 1. Your Report of Findings includes 16 or fewer Standards Level Tags with between 75% and 100% of the survey sample affected in any tag.
- 2. Your Report of Findings includes 17 or more Standard Level Tags with between 50% to 74% of the survey sample affected in any tag.

Partial-Compliance with Standard Level Tags and Condition of Participation Level Tags:

The QMB determination of *Partial-Compliance with Standard Level Tags and Condition of Participation Level Tags* indicates that a provider is out of compliance with one to five (1 - 5) Condition of Participation Level Tags. This partial-compliance, if not corrected, may result in a serious negative outcome or the potential for more than minimal harm to individuals' health and safety.

Non-Compliance:

The QMB determination of *Non-Compliance* indicates a provider is significantly out of compliance with both Standard Level deficiencies and Conditions of Participation level deficiencies. This non-compliance, if not corrected, may result in a serious negative outcome or the potential for more than minimal harm to individuals' health and safety. There are three ways an agency can receive a determination of Non-Compliance:

- 1. Your Report of Findings includes 17 or more total Tags with 0 to 5 Condition of Participation Level Tags with 75% to 100% of the survey sample affected in any Condition of Participation Level tag.
- 2. Your Report of Findings includes any amount of Standard Level Tags with 6 or more Condition of Participation Level Tags.

Compliance				Weighting

Required Documents)			
Developmental Disabilities (DD) Waiver Service Standards 2/26/2018; Re-Issue: 12/28/2018; Eff 1/1/2019 Chapter 20: Provider Documentation and Client Records: 20.2 Client Records Requirements: All DD Waiver Provider Agencies are required to create and maintain individual client records. The contents of client records vary depending on the unique needs of the person receiving services and the resultant information produced. The extent of documentation required for individual client records per service type depends on the location of the file, the type of service being provided, and the information necessary. DD Waiver Provider Agencies are required to adhere to the following: 1. Client records must contain all documents essential to the service being provided and essential to ensuring the health and safety of the person during the provision of the service. 2. Provider Agencies must have readily accessible records in home and community settings in paper or electronic form. Secure access to electronic records through the Therap web based system using computers or mobile devices is acceptable. 3. Provider Agencies are responsible for	 Based on record review, the Agency did not maintain a complete and confidential case file at the administrative office for 2 of 18 individuals. Review of the Agency administrative individual case files revealed the following items were not found, incomplete, and/or not current: Physical Therapy Plan (Therapy Intervention Plan TIP): Not Found (#4) Not Current (#7) 	Provider: State your Plan of Correction for the deficiencies cited in this tag here (How is the deficiency going to be corrected? This can be specific to each deficiency cited or if possible an overall correction?): → Provider: Enter your ongoing Quality Assurance/Quality Improvement processes as it related to this tag number here (What is going to be done? How many individuals is this going to affect? How often will this be completed? Who is responsible? What steps will be taken if issues are found?): →	

ensuring that all plans created by nurses, RDs,	
therapists or BSCs are present in all needed	
settings.	
4. Provider Agencies must maintain records of	
all documents produced by agency personnel or	
contractors on behalf of each person, including	
any routine notes or data, annual assessments,	
semi-annual reports, evidence of training	
provided/received, progress notes, and any	
other interactions for which billing is generated.	
5. Each Provider Agency is responsible for	
maintaining the daily or other contact notes	
documenting the nature and frequency of	
service delivery, as well as data tracking only for	
the services provided by their agency.	
6. The current Client File Matrix found in	
Appendix A Client File Matrix details the	
minimum requirements for records to be stored	
in agency office files, the delivery site, or with	
DSP while providing services in the community.	
7. All records pertaining to JCMs must be	
retained permanently and must be made	
available to DDSD upon request, upon the	
termination or expiration of a provider	
agreement, or upon provider withdrawal from	
services.	
20.5.1 Individual Data Form (IDF):	
The Individual Data Form provides an overview	
of demographic information as well as other key	
personal, programmatic, insurance, and health	
related information. It lists medical information;	
assistive technology or adaptive equipment;	
diagnoses; allergies; information about whether	
a guardian or advance directives are in place;	
information about behavioral and health related	
needs; contacts of Provider Agencies and team	
members and other critical information. The IDF	
automatically loads information into other fields	
and forms and must be complete and kept	

current. This form is initiated by the CM. It must be opened and continuously updated by Living Supports, CCS- Group, ANS, CIHS and case management when applicable to the person in order for accurate data to auto populate other documents like the Health Passport and Physician Consultation Form. Although the Primary Provider Agency is ultimately responsible for keeping this form current, each provider collaborates and communicates critical information to update this form.		
Chapter 3: Safeguards 3.1.2 Team		
Justification Process: DD Waiver participants		
may receive evaluations or reviews conducted		
by a variety of professionals or clinicians. These evaluations or reviews typically include		
recommendations or suggestions for the		
person/guardian or the team to consider. The		
team justification process includes:		
1. Discussion and decisions about non-health		
related recommendations are documented on		
the Team Justification form.		
2. The Team Justification form documents that		
the person/guardian or team has considered the recommendations and has decided:		
a. to implement the recommendation;		
b. to create an action plan and revise the ISP, if		
necessary; or		
c. not to implement the recommendation		
currently.		
3. All DD Waiver Provider Agencies participate		
in information gathering, IDT meeting		
attendance, and accessing supplemental		
resources if needed and desired.		
4. The CM ensures that the Team Justification		
Process is followed and complete.

requires a person-centered service plan for		going to be done? How many individuals is this going to affect? How often will this be completed?	
every person receiving HCBS. The DD Waiver's		Who is responsible? What steps will be taken if	
person-centered service plan is the ISP.		issues are found?): \rightarrow	
6.5.2 ISP Revisions: The ISP is a dynamic			
document that changes with the person's			
desires, circumstances, and need. IDT members			
must collaborate and request an IDT meeting			
from the CM when a need to modify the ISP			
arises. The CM convenes the IDT within ten			
days of receipt of any reasonable request to			
convene the team, either in person or through			
teleconference.			
6.6 DDSD ISP Template: The ISP must be			
written according to templates provided by the			
DDSD. Both children and adults have			
designated ISP templates. The ISP template			
includes Vision Statements, Desired Outcomes,			
a meeting participant signature page, an			
Addendum A (i.e. an acknowledgement of			

receipt of specific information) and other			
elements depending on the age of the individual.			
The ISP templates may be revised and reissued			
by DDSD to incorporate initiatives that improve			
person - centered planning practices.			
Companion documents may also be issued by			
DDSD and be required for use in order to better			
demonstrate required elements of the PCP			
process and ISP development.			
The ISP is completed by the CM with the IDT			
input and must be completed according to the			
following requirements:			
1. DD Waiver Provider Agencies should not			
recommend service type, frequency, and			
amount (except for required case management			
services) on an individual budget prior to the			
Vision Statement and Desired Outcomes being			
developed.			
2. The person does not require IDT			
agreement/approval regarding his/her dreams,			
aspirations, and desired long-term outcomes.			
3. When there is disagreement, the IDT is			
required to plan and resolve conflicts in a			
manner that promotes health, safety, and quality			
of life through consensus. Consensus means a			
state of general agreement that allows members			
to support the proposal, at least on a trial basis.			
4. A signature page and/or documentation of			
participation by phone must be completed.			
5. The CM must review a current Addendum A			
and DHI ANE letter with the person and Court			
appointed guardian or parents of a minor, if			
applicable.			
6.6.3 Additional Requirements for Adults:			
Because children have access to other funding			
sources, a larger array of services are available			
to adults than to children through the DD			
Waiver. (See Chapter 7: Available Services and			
Individual Budget Development). The ISP			
	1	1	

Template for adults is also more extensive,	
including Action Plans, Teaching and Support	
Strategies (TSS), Written Direct Support	
Instructions (WDSI), and Individual Specific	
Training (IST) requirements.	
6.6.3.1. Action Plan: Each Desired Outcome	
requires an Action Plan. The Action Plan	
addresses individual strengths and capabilities	
in reaching Desired Outcomes. Multiple service	
types may be included in the Action Plan under	
a single Desired Outcome. Multiple Provider	
Agencies can and should be contributing to	
Action Plans toward each Desired Outcome.	
1. Action Plans include actions the person will	
take; not just actions the staff will take.	
2. Action Plans delineate which activities will be	
completed within one year.	
3. Action Plans are completed through IDT	
consensus during the ISP meeting. 4. Action Plans must indicate under	
"Responsible Party" which DSP or service	
provider (i.e. Family Living, CCS, etc.) are	
responsible for carrying out the Action Step.	
responsible for carrying out the Action Step.	
6.6.3.2 Teaching and Supports Strategies	
(TSS) and Written Direct Support	
Instructions (WDSI): After the ISP meeting, IDT	
members conduct a task analysis and	
assessments necessary to create effective TSS	
and WDSI to support those Action Plans that	
require this extra detail. All TSS and WDSI	
should support the person in achieving his/her	
Vision.	
6.6.3.3 Individual Specific Training in the ISP:	
The CM, with input from each DD Waiver	
Provider Agency at the annual ISP meeting,	
completes the IST requirements section of the	
ISP form listing all training needs specific to the	

individual. Provider Agencies bring their	
proposed IST to the annual meeting. The IDT	
must reach a consensus about who needs to be	
trained, at what level (awareness, knowledge or	
skill), and within what timeframe. (See Chapter	
17.10 Individual-Specific Training for more information about IST.)	
information about 131.)	
6.8 ISP Implementation and Monitoring: All	
DD Waiver Provider Agencies with a signed	
SFOC are required to provide services as	
detailed in the ISP. The ISP must be readily	
accessible to Provider Agencies on the	
approved budget. (See Chapter 20: Provider	
Documentation and Client Records.) CMs facilitate and maintain communication with the	
person, his/her representative, other IDT	
members, Provider Agencies, and relevant	
parties to ensure that the person receives the	
maximum benefit of his/her services and that	
revisions to the ISP are made as needed. All DD	
Waiver Provider Agencies are required to	
cooperate with monitoring activities conducted	
by the CM and the DOH. Provider Agencies are	
required to respond to issues at the individual level and agency level as described in Chapter	
16: Qualified Provider Agencies.	
re. Qualitieu rievider rigenolee.	
Chapter 20: Provider Documentation and	
Client Records: 20.2 Client Records	
Requirements: All DD Waiver Provider	
Agencies are required to create and maintain	
individual client records. The contents of client	
records vary depending on the unique needs of the person receiving services and the resultant	
information produced. The extent of	
documentation required for individual client	
records per service type depends on the location	
of the file, the type of service being provided,	
and the information necessary.

Tag # IS04 Community Life Engagement	Standard Level Deficiency		
 Developmental Disabilities (DD) Waiver Service Standards 2/26/2018; Re-Issue: 12/28/2018; Eff 1/1/2019 Chapter 11: Community Inclusion 11.1 General Scope and Intent of Services: Community Inclusion (CI) is the umbrella term used to describe services in this chapter. In general, CI refers to opportunities for people with I/DD to access and participate in activities and functions of community life. The DD waiver program offers Customized Community Supports (CCS), which refers to non-work activities and Community Integrated Employment (CIE) which refers to paid work. CCS and CIE services are mandated to be provided in the community to the fullest extent possible. 11.3 Implementation of a Meaningful Day: The objective of implementing a Meaningful Day is to plan and provide supports to implement the person's definition of his/her own meaningful day, contained in the ISP. Implementation activities of the person's meaningful day are documented in daily schedules and progress notes. 1. Meaningful Day includes: a. purposeful and meaningful work; b. substantial and sustained opportunity for optimal health; c. self-empowerment; d. personalized relationships; e. skill development and/or maintenance; and f. social, educational, and community inclusion activities that are directly linked to the vision, Desired Outcomes and Action Plans stated in the person's ISP. 	Based on record review, the Agency did not have evidence of their implementation of a meaningful day in daily schedules / individual calendar and progress notes for 2 of 18 Individuals. Review of the individual case files found there is no individualized schedule that can be modified easily based on the individual needs, preferences and circumstances and that outline planned activities per day, week and month including date, time, location and cost of the activity: Calendar / Daily Calendar: • Not Found (#6, 11)	Provider: State your Plan of Correction for the deficiencies cited in this tag here (How is the deficiency going to be corrected? This can be specific to each deficiency cited or if possible an overall correction?): → Provider: Enter your ongoing Quality Assurance/Quality Improvement processes as it related to this tag number here (What is going to be done? sometimes used to refer to "Meaningful Day" or "Adult Habilitation" activities. CLE refers to supporting people in their communities, in non- work activities. Examples of CLE activities may include participating in clubs, classes, or recreational activities in the community; learning new skills to become more independent; volunteering; or retirement activities. Meaningful Day activities should be developed with the four guideposts of CLE in mind1. The four guideposts of CLE are: a. individualized supports for each person; b. promotion of community membership and contribution; c. use of human and social capital to decrease dependence on paid supports; and d. provision of supports that are outcome- oriented and regularly monitored. 3. The term "day" does not mean activities between 9:00 a.m. to 5:00 p.m. on weekdays. 4. Community Inclusion is not limited to specific hours or days of the week. These services may not be used to supplant the responsibility of the Living Supports Provider Agency for a person who receives both services.

information contained in the IDF.	
Chapter 13: Nursing Services:	
13.2.9 Healthcare Plans (HCP):	
1. At the nurse's discretion, based on prudent	
nursing practice, interim HCPs may be	
developed to address issues that must be	
implemented immediately after admission,	
readmission or change of medical condition to	
provide safe services prior to completion of the	
e-CHAT and formal care planning process. This	
includes interim ARM plans for those persons	
newly identified at moderate or high risk for	
aspiration. All interim plans must be removed if	
the plan is no longer needed or when final HCP	
including CARMPs are in place to avoid	
duplication of plans.	
2. In collaboration with the IDT, the agency	
nurse is required to create HCPs that address all	
the areas identified as required in the most	
current e-CHAT summary	
13.2.10 Medical Emergency Response Plan	
(MERP):	
1. The agency nurse is required to develop a	
Medical Emergency Response Plan (MERP) for	
all conditions marked with an "R" in the e-CHAT	
summary report. The agency nurse should use	
her/his clinical judgment and input from the	
Interdisciplinary Team (IDT) to determine whether shown as "C" in the e-CHAT summary	
report or other conditions also warrant a MERP.	
2. MERPs are required for persons who have	
one or more conditions or illnesses that present	
a likely potential to become a life-threatening	
situation.	

other interactions for which billing is generated. 5. Each Provider Agency is responsible for maintaining the daily or other contact notes documenting the nature and frequency of service delivery, as well as data tracking only for the services provided by their agency. 6. The current Client File Matrix found in Appendix A Client File Matrix details the minimum requirements for records to be stored in agency office files, the delivery site, or with DSP while providing services in the community. 7. All records pertaining to JCMs must be retained permanently and must be made available to DDSD upon request, upon the termination or expiration of a provider agreement, or upon provider withdrawal from services.

Tag # 1A37 Individual Specific Training	Standard Level Deficiency		
 Developmental Disabilities (DD) Waiver Service Standards 2/26/2018; Re-Issue: 12/28/2018; Eff 1/1/2019 Chapter 17: Training Requirements: The purpose of this chapter is to outline requirements for completing, reporting and documenting DDSD training requirements for DD Waiver Provider Agencies as well as requirements for certified trainers or mentors of DDSD Core curriculum training. 17.1 Training Requirements for Direct Support Personnel and Direct Support Supervisors: Direct Support Personnel (DSP) and Direct Support Supervisors (DSS) include staff and contractors from agencies providing the following services: Supported Living, Family Living, CIHS, IMLS, CCS, CIE and Crisis Supports. DSP/DSS must successfully: a. Complete IST requirements in accordance with the specifications described in the ISP of each person supported and as outlined in 17.10 Individual-Specific Training below. b. Complete training on DOH-approved ANE reporting procedures in accordance with NMAC 7.1.14 c. Complete training in universal precautions. The training materials shall meet Occupational Safety and Health Administration (OSHA) requirements d. Complete and maintain certification in First Aid and CPR. The training materials shall meet OSHA requirements/guidelines. e. Complete relevant training in accordance with OSHA requirements (if job involves exposure to hazardous chemicals). f. Become certified in a DDSD-approved system 	Based on record review, the Agency did not ensure that Individual Specific Training requirements were met for 6 of 101 Agency Personnel. Review of personnel records found no evidence of the following: Direct Support Personnel (DSP): • Individual Specific Training (#526, 548, 559, 575, 586, 589)	Provider: State your Plan of Correction for the deficiencies cited in this tag here (How is the deficiency going to be corrected? This can be specific to each deficiency cited or if possible an overall correction?): → Provider: Enter your ongoing Quality Assurance/Quality Improvement processes as it related to this tag number here (What is going to be done? How many individuals is this going to affect? How often will this be completed? Who is responsible? What steps will be taken if issues are found?): →	

of crisis prevention and intervention (e.g., MANDT, Handle with Care, CPI) before using EPR. Agency DSP and DSS shall maintain certification in a DDSD-approved system if any person they support has a BCIP that includes the use of EPR. g. Complete and maintain certification in a DDSD-approved medication course if required to assist with medication clower for equired to assist with medication clower for equired to assist with medication clower and the HPAA. 2. Any staff being used in an emergency to fill in or cover a shift must have at a minimum the DDSD orguniced core training regarding the HIPAA. 7.10 Individual-Specific Training: The following are elements of IST: defined standards of performance, curriculum tailored to teach skills and knowledge necessary to meet those standards of performance, using the established DDSD training levels of awareness, knowledge, and skill. Reaching an awareness , knowledge, and skill. Reaching an awareness knowledge, and skill. Reaching an awareness intervent of information. The traine is cognizant of information. The traine is cognizant of information can verify awareness. Reaching as awareness , knowledge, and skill. Reaching an awareness includent of basic information. The traine is cognizant of information can verify awareness. Reaching a fill showledge level may take the form of observing a plan in action, reading a plan more thoroughy, or having a plan described by the author or their designed. Verbal or written recall or demonstration may verify this level of competence. Reaching a kill level involves being trained by a herrapish, nurse, designated or experienced designated trainer. The trainer shall demonstrate the techniques according to the plan. Then they		
EPR, Agency DSP and DSS shall maintain certification in a DDSD-approved system if any person they support has a BCIP that includes the use of EPR. g. Complete and maintain certification in a DDSD-approved medication course if required to assist with medication delivery. h. Complete training regarding the HIPAA. 2. Any staff being used in an emergency to fill in or cover a shift must have at a minimum the DDSD required core trainings and be on shift with a DSP who has completed the relevant IST. 17.10 Individual-Specific Training: The following are elements of IST: defined standards of performance, curriculum tailored to teach skills and knowledge necessary to meet those standards of performance, and formal examination or demonstration to verify standards of performance, and formal examination or demonstration to verify standards of performance, showledge, and skill. Reaching an awareness know ledge, and skill. Reaching a thowledge level may take the form of observing a plan in action, reading a plan more thoroughly, or having a plan described by the author or their designee. Verbal or written recall or demonstration may written they defined by a therapist, nurse, designated or experienced designated trainer. The traine rshall demonstrate		
eertification in a DDSD-approved system if any person they support has a BCIP that includes the use of EPR. g. the Individual-Specific Training Requirements:		
Support Plans section of the ISP and notify the		
plan authors when new DSP are hired to		
arrange for trainings.		
7. If a therapist, BSC, nurse, or other author of a		
plan, healthcare or otherwise, chooses to		
designate a trainer, that person is still		
responsible for providing the curriculum to the		
designated trainer. The author of the plan is also		
responsible for ensuring the designated trainer		
is verifying competency in alignment with their		
curriculum, doing periodic quality assurance		
checks with their designated trainer, and re-		
certifying the designated trainer at least annually		
and/or when there is a change to a person's		
plan.		
17.10.1 IST Training Rosters: IST Training		
Rosters are required for all IST trainings:		
1. IST Training Rosters must include:		
a. the name of the person receiving DD Waiver		
services;		
b. the date of the training;		
c. IST topic for the training;		
d. the signature of each trainee;		
e. the role of each trainee (e.g., CIHS staff, CIE		
staff, family, etc.); and		
f. the signature and title or role of the trainer.		
2. A competency based training roster (required		
for CARMPs) includes all information above but		
also includes the level of training (awareness,		
knowledge, or skilled) the trainee has attained.		
(See Chapter 5.5 Aspiration Risk Management		
for more details about CARMPs.)		
3. A copy of the training roster is submitted to		
the agency employing the staff trained within		
seven calendar days of the training date. The		
original is retained by the trainer.		

Tag # 1A43.1 General Events Reporting - Individual Reporting	Standard Level Deficiency	
Individual Reporting Developmental Disabilities (DD) Waiver Service Standards 2/26/2018; Re-Issue: 12/28/2018; Eff 1/1/2019 Chapter 19: Provider Reporting Requirements: 19.2 General Events Reporting (GER): The purpose of General Events Reporting (GER) is to report, track and analyze events, which pose a risk to adults in the DD Waiver program, but do not meet criteria for ANE or other reportable incidents as defined by the IMB. Analysis of GER is intended to identify emerging patterns so that preventative action can be taken at the individual, Provider Agency, regional and statewide level. On a quarterly and annual basis, DDSD analyzes GER data at the provider, regional and statewide levels to identify any patterns that warrant intervention. Provider Agency use of GER in Therap is required as follows: 1. DD Waiver Provider Agencies approved to provide Customized In- Home Supports, Family Living, IMLS, Supported Living, Customized Community Supports, Community Integrated Employment, Adult Nursing and Case Management must use GER in the Therap system. 2. DD Waiver Provider Agencies referenced above are responsible for entering specified information into the GER section of the secure website operated under contract by Therap according to the GER Reporting Requirements in Appendix B GER Requirements. 3. At the Provider Agency's discretion additional events, which are not required by DDSD, may also be tracked within the GER section of Therap.	Based on record review, the Agency did not follow the General Events Reporting requirements as indicated by the policy for 1 of 18 individuals. The following General Events Reporting records contained evidence that indicated the General Events Report was not entered and / or approved within the required timeframe: Individual #7 • General Events Report (GER) indicates on 3/27/2019 the Individual tripped (Fall). GER was approved on 4/1/2019.	Provider: State your Plan of Correction for the deficiency going to be corrected? This can be specific to each deficiency cited or if possible an overall correction?): → Provider: Enter your ongoing Quality Assurance/Quality Improvement processes as it related to this tag number here (What is going to be done? How many individuals is this going to affect? How often will this be completed? Who is responsible? What steps will be taken if issues are found?): →

obligations to report ANE or other reportable	
incidents as described in Chapter 18: Incident	
Management System.	
5. GER does not replace a Provider Agency's	
obligations related to healthcare coordination,	
modifications to the ISP, or any other risk	
management and QI activities.	
Appendix B GER Requirements: DDSD is	
pleased to introduce the revised General Events	
Reporting (GER), requirements. There are two	
important changes related to medication error	
reporting:	
1. Effective immediately, DDSD requires ALL	
medication errors be entered into Therap GER	
with the exception of those required to be	
reported to Division of Health Improvement-	
Incident Management Bureau.	
2. No alternative methods for reporting are	
permitted.	
The following events need to be reported in	
the Therap GER:	
- Emergency Room/Urgent Care/Emergency	
Medical Services	
- Falls Without Injury	
- Injury (including Falls, Choking, Skin	
Breakdown and Infection)	
- Law Enforcement Use	
- Medication Errors	
- Medication Documentation Errors	
- Missing Person/Elopement	
- Out of Home Placement- Medical:	
Hospitalization, Long Term Care, Skilled Nursing	
or Rehabilitation Facility Admission	
- PRN Psychotropic Medication	
- Restraint Related to Behavior	
- Suicide Attempt or Threat	
Entry Guidance: Provider Agencies must	
complete the following sections of the GER with	
detailed information: profile information, event	

information, other event information, general information, notification, actions taken or planned, and the review follow up comments section. Please attach any pertinent external documents such as discharge summary, medical consultation form, etc. <u>Provider</u> <u>Agencies must enter and approve GERs within 2</u> <u>business days with the exception of Medication</u> <u>Errors which must be entered into GER on at</u> <u>least a monthly basis</u> .

DEPARTMENT.	
Chapter 18 Incident Managements	
Chapter 18 Incident Management: 18.1 Training on Abuse, Neglect, and	
Exploitation (ANE) Recognition and	
Reporting: All employees, contractors, and	

volunteers shall be trained on the in-person ANE	
training curriculum approved by DOH.	
Employees or volunteers can work with a DD	
Waiver participant prior to receiving the training	
only if directly supervised, at all times, by a	
trained staff. Provider Agencies are responsible	
for ensuring the training requirements outlined	
below are met.	
1. DDSD ANE On-line Refresher trainings shall	
be renewed annually, within one year of	
successful completion of the DDSD ANE	
classroom training.	
2. Training shall be conducted in a language	
that is understood by the employee,	
subcontractor, or volunteer.	
3. Training must be conducted by a DOH	
certified trainer and in accordance with the Train	
the Trainer curriculum provided by the DOH.	
4. Documentation of an employee, subcontractor	
or volunteer's training must be maintained for a	
period of at least three years, or six months after	
termination of an employee's employment or the	
volunteer's work.	
NMAC 7.1.14.9 INCIDENT MANAGEMENT	
SYSTEM REQUIREMENTS:	
A. General: All community-based service	
providers shall establish and maintain an	
incident management system, which	
emphasizes the principles of prevention and	
staff involvement. The community-based service	
provider shall ensure that the incident	
management system policies and procedures	
requires all employees and volunteers to be	
competently trained to respond to, report, and	
preserve evidence related to incidents in a	
timely and accurate manner.	
B. Training curriculum: Prior to an employee or volunteer's initial work with the community-	
based service provider, all employees and	

volunteers shall be trained on an applicable		
written training curriculum including incident		
policies and procedures for identification, and		
timely reporting of abuse, neglect, exploitation,		
suspicious injury, and all deaths as required in		
Subsection A of 7.1.14.8 NMAC. The trainings		
shall be reviewed at annual, not to exceed 12-		
month intervals. The training curriculum as set		
forth in Subsection C of 7.1.14.9 NMAC may		
include computer-based training. Periodic		
reviews shall include, at a minimum, review of		
the written training curriculum and site-specific		
issues pertaining to the community-based		
service provider's facility. Training shall be		
conducted in a language that is understood by		
the employee or volunteer.		
D. Training documentation: All community-		
based service providers shall prepare training		
documentation for each employee and volunteer		
to include a signed statement indicating the		
date, time, and place they received their incident		
management reporting instruction. The		
community-based service provider shall		
maintain documentation of an employee or		
volunteer's training for a period of at least three		
years, or six months after termination of an		
employee's employment or the volunteer's work.		
Training curricula shall be kept on the provider		
premises and made available upon request by		
the department. Training documentation shall be		
made available immediately upon a division		
representative's request. Failure to provide		
employee and volunteer training documentation		
shall subject the community-based service		
provider to the penalties provided for in this rule.		
NMAC 7.1.14.8 INCIDENT MANAGEMENT		
SYSTEM REPORTING REQUIREMENTS FOR		
COMMUNITY-BASED SERVICE PROVIDERS:		

F. Quality assurance/quality improvement		
program for community-based service		
roviders: The community-based service		
provider shall establish and implement a quality		
mprovement program for reviewing alleged		
complaints and incidents of abuse, neglect, or		
exploitation against them as a provider after the		
division's investigation is complete. The incident		
management program shall include written		
documentation of corrective actions taken. The		
community-based service provider shall take all		
easonable steps to prevent further incidents.		
The community-based service provider shall		
provide the following internal monitoring and		
acilitating quality improvement program:		
1) community-based service providers shall		
have current abuse, neglect, and exploitation		
management policy and procedures in place that		
comply with the department's requirements;		
2) community-based service providers providing		
ntellectual and developmental disabilities		
ervices must have a designated incident		
management coordinator in place; and		
3) community-based service providers providing		
ntellectual and developmental disabilities		
services must have an incident management		
committee to identify any deficiencies, trends,		
patterns, or concerns as well as opportunities for		
uality improvement, address internal and		
external incident reports for the purpose of		
examining internal root causes, and to take		
action on identified issues.

 Developmental Disabilities (DD) Waiver Service Standards 2/26/2018; Re-Issue: 12/28/2018; Eff 1/1/2019 Chapter 10: Living Care Arrangements (LCA) 10.3.2 Nursing Supports: Annual nursing assessments are required for all people receiving any of the Livings Supports (Supported Living, Family Living, IMLS). Nursing assessments are required to determine the appropriate level of nursing and other supports needed within the Living Supports. Funding for nursing services is already bundled into the Supported Living and IMLS reimbursement rates. In Family Living, nursing supports must be accessed separately by requesting units for Adult Nursing Services (ANS) on the budget. 10.3.3 Nursing Staffing and On-call Nursing: A Registered Nurse (RN) licensed by the State of New Mexico must be an employee or a sub- contractor of Provider Agencies of Living Supports. An LPN may not provide service without an RN supervisor. The RN must provide face-to-face supervision of LPNs, CNAs and DSP who have been delegated nursing tasks as required by the New Mexico Nurse Practice Act and these service standards. Living Supports Provider Agencies must assure on-call nursing coverage according to requirements detailed in Chapter 13.2.13 Monitoring, Oversight, and On- Call Nursing. 	 After an analysis of the evidence it has been determined there is a significant potential for a negative outcome to occur. Based on record review, the Agency did not ensure nursing services were available and implemented as required by Standard for 10 of 18 Individuals. Review of Agency records found no evidence of RN supervision / oversight of LPN activities as required by Standard. Review of Healthcare Plans and Medical Emergency Response Plans found they were authored by the LPN with no indication of review with the date and signature of a supervising RN (#5, 6, 8, 10, 11, 12, 13, 15, 16, 19). 	Provider: State your Plan of Correction for the deficiencies cited in this tag here (How is the deficiency going to be corrected? This can be specific to each deficiency cited or if possible an overall correction?): → Provider: Enter your ongoing Quality Assurance/Quality Improvement processes as it related to this tag number here (What is going to be done? General Nursing Services Requirements: The following general requirements are applicable			

for all RNs and LPNs in in the DD Waiver System whether providing nursing through a bundled model in Supported Living, Intensive Medical Living Services(IMLS), Customized Community Supports Group (CCS-G) or separately budgeted through Adult Nursing Services (ANS). Refer to the Chapter 10: Living Care Arrangements (LCA) for provider agency responsibilities related to nursing.		
 13.2.1 Licensing and Supervision: All DD Waiver Nursing services must be provided by a Registered Nurse (RN) or licensed practical nurse (LPN) with a current New Mexico license in good standing. Nurses must comply with all aspects of the New Mexico Nursing Practice Act including:		
 13.2.9 Healthcare Plans (HCP): 12. Dates for HCP and MERPs must be noted on the e-CHAT Summary Sheet and updated as plans are created or revised. 13.2.10 Medical Emergency Response Plans (MERPS): 10. Revisions authored by an LPN must have RN review and approval as indicated by review date and signature. 13.3.2 Scope of Ongoing Adult Nursing Services (OANS): Ongoing Adult Nursing Services (OANS) are an array of services that are available to young adult and adults who require supports for specific chronic or acute health conditions. OANS may only begin after 		

the Nursing Assessment and Consultation has been completed.			
Tag # 1A15.2Administrative Case File:Healthcare Documentation (Therap and Required Plans)	Standard Level Deficiency		
 Developmental Disabilities (DD) Waiver Service Standards 2/26/2018; Re-Issue: 12/28/2018; Eff 1/1/2019 Chapter 20: Provider Documentation and Client Records: 20.2 Client Records Requirements: All DD Waiver Provider Agencies are required to create and maintain individual client records. The contents of client records vary depending on the unique needs of the person receiving services and the resultant information produced. The extent of documentation required for individual client records per service type depends on the location of the file, the type of service being provided, and the information necessary. DD Waiver Provider Agencies are required to adhere to the following: Client records must contain all documents essential to the service being provided and essential to ensuring the health and safety of the person during the provision of the service. Provider Agencies must have readily accessible records in home and community settings in paper or electronic form. Secure access to electronic records through the Therap web based system using computers or mobile devices is acceptable. Provider Agencies are responsible for ensuring that all plans created by nurses, RDs, therapists or BSCs are present in all needed settings. Provider Agencies must maintain records of all documents produced by agency personnel or contractors on behalf of each person, including any routine notes or data, annual assessments, 	 Based on record review, the Agency did not maintain the required documentation in the Individuals Agency Record as required by standard for 2 of 18 individual Review of the administrative individual case files revealed the following items were not found, incomplete, and/or not current: Comprehensive Aspiration Risk Management Plan: Not Found (#12, 16) 	Provider: State your Plan of Correction for the deficiencies cited in this tag here (How is the deficiency going to be corrected? licensed medical or healthcare practitioners]
such as a Nurse Practitioner (NP or CNP),	
Physician Assistant (PA) or Dentist;	
b. clinical recommendations made by	
registered/licensed clinicians who are either	
members of the IDT or clinicians who have	
performed an evaluation such as a video-	
fluoroscopy;	
c. health related recommendations or	
suggestions from oversight activities such as the	
Individual Quality Review (IQR) or other DOH	
review or oversight activities; and	
d. recommendations made through a Healthcare	
Plan (HCP), including a Comprehensive	
Aspiration Risk Management Plan (CARMP), or	
another plan.	
2. When the person/quardian diagarage with a	
2. When the person/guardian disagrees with a	
recommendation or does not agree with the	
implementation of that recommendation,	
Provider Agencies follow the DCP and attend	
the meeting coordinated by the CM. During this	
meeting: a. Providers inform the person/guardian of the	
rationale for that recommendation, so that the	
benefit is made clear. This will be done in	
layman's terms and will include basic sharing of	
information designed to assist the	
person/guardian with understanding the risks	
and benefits of the recommendation.	
b. The information will be focused on the specific	
area of concern by the person/guardian.	
Alternatives should be presented, when	
available, if the guardian is interested in	
considering other options for implementation.	
c. Providers support the person/guardian to	
make an informed decision.	
d. The decision made by the person/guardian	
during the meeting is accepted; plans are	
modified; and the IDT honors this health	
חוסטווופט, מווט נווב וביד חטווטוס נוווס וופמונוו	

decision in every setting.	
Chapter 13 Nursing Services: 13.2.5	
Electronic Nursing Assessment and	
Planning Process: The nursing assessment	
process includes several DDSD mandated tools:	
the electronic Comprehensive Nursing	
Assessment Tool (e-CHAT), the Aspiration Risk	
Screening Tool (ARST) and the Medication	
Administration Assessment Tool (MAAT) . This	
process includes developing and training Health	
Care Plans and Medical Emergency Response	
Plans.	
The following hierarchy is based on budgeted	
services and is used to identify which Provider	
Agency nurse has primary responsibility for	
completion of the nursing assessment process	
and related subsequent planning and training.	
Additional communication and collaboration for	
planning specific to CCS or CIE services may be	
needed.	
The hierarchy for Nursing Assessment and	
Planning responsibilities is:	
1. Living Supports: Supported Living, IMLS or	
Family Living via ANS;	
2. Customized Community Supports- Group;	
and	
3. Adult Nursing Services (ANS):	
a. for persons in Community Inclusion with	
health-related needs; or	
b. if no residential services are budgeted but	
assessment is desired and health needs may	
exist.	
13.2.6 The Electronic Comprehensive Health	
Assessment Tool (e-CHAT)	
1. The e-CHAT is a nursing assessment. It may	
not be delegated by a licensed nurse to a non-	
licensed person.	
2. The nurse must see the person face-to-face	

to complete the number of a second set. A delition of	
to complete the nursing assessment. Additional	
information may be gathered from members of	
the IDT and other sources.	
3. An e-CHAT is required for persons in FL, SL,	
IMLS, or CCS-Group. All other DD Waiver	
recipients may obtain an e-CHAT if needed or	
desired by adding ANS hours for assessment	
and consultation to their budget.	
4. When completing the e-CHAT, the nurse is	
required to review and update the electronic	
record and consider the diagnoses, medications,	
treatments, and overall status of the person.	
Discussion with others may be needed to obtain	
critical information.	
5. The nurse is required to complete all the e-	
CHAT assessment questions and add additional	
pertinent information in all comment sections.	
13.2.7 Aspiration Risk Management	
Screening Tool (ARST)	
13.2.8 Medication Administration	
Assessment Tool (MAAT):	
1. A licensed nurse completes the DDSD	
Medication Administration Assessment Tool	
(MAAT) at least two weeks before the annual	
ISP meeting.	
2. After completion of the MAAT, the nurse will	
present recommendations regarding the level of	
assistance with medication delivery (AWMD) to	
the IDT. A copy of the MAAT will be sent to all	
the team members two weeks before the annual	
ISP meeting and the original MAAT will be	
retained in the Provider Agency records.	
3. Decisions about medication delivery are made	
by the IDT to promote a person's maximum	
independence and community integration. The	
IDT will reach consensus regarding which	
criteria the person meets, as indicated by the	
results of the MAAT and the nursing	
receive of the first first and the fidiolog	

recommendations, and the decision is	
documented this in the ISP.	
13.2.9 Healthcare Plans (HCP):	
1. At the nurse's discretion, based on prudent	
nursing practice, interim HCPs may be	
developed to address issues that must be	
implemented immediately after admission,	
readmission or change of medical condition to	
provide safe services prior to completion of the	
e-CHAT and formal care planning process. This	
includes interim ARM plans for those persons	
newly identified at moderate or high risk for	
aspiration. All interim plans must be removed if	
the plan is no longer needed or when final HCP	
including CARMPs are in place to avoid	
duplication of plans.	
2. In collaboration with the IDT, the agency	
nurse is required to create HCPs that address all	
the areas identified as required in the most	
current e-CHAT summary report which is	
indicated by "R" in the HCP column. At the	
nurse's sole discretion, based on prudent	
nursing practice, HCPs may be combined where	
clinically appropriate. The nurse should use	
nursing judgment to determine whether to also	
include HCPs for any of the areas indicated by	
"C" on the e-CHAT summary report. The nurse	
may also create other HCPs plans that the nurse	
determines are warranted.	
13.2.10 Medical Emergency Response Plan	
(MERP):	
1. The agency nurse is required to develop a	
Medical Emergency Response Plan (MERP) for	
all conditions marked with an "R" in the e-CHAT	
summary report. The agency nurse should use	
her/his clinical judgment and input from the	
Interdisciplinary Team (IDT) to determine whether shown as "C" in the e-CHAT summary	

2. MERPs are required for persons who have one or more conditions or illnesses that present a likely potential to become a life-threatening situation. Chapter 20: Provider Documentation and Client Records: 20.5.3 Health Passport and Physician Consultation Form: All Primary and Secondary Provider Agencies must use the Health Passport and Physician Consultation form from the Therap system. This standardized document contains individual, physician and emergency contact information, a complete list of current medical diagnoses, health and safety risk factors, allergies, and information regarding insurance, guardianship, and advance directives. The Health Passport also includes a standardized form to use at medical appointments called the Physician Consultation form.

Tag # 1A29 Complaints / Grievances – Acknowledgement	Standard Level Deficiency		
 NMAC 7.26.3.6 A These regulations set out rights that the department expects all providers of services to individuals with developmental disabilities to respect. These regulations are intended to complement the department's Client Complaint Procedures (7 NMAC 26.4) [now 7.26.4 NMAC]. NMAC 7.26.3.13 Client Complaint Procedure Available. A complainant may initiate a complaint as provided in the client complaint procedure to resolve complaints alleging that a service provider has violated a client's rights as described in Section 10 [now 7.26.3.10 NMAC]. The department will enforce remedies for substantiated complaints of violation of a client's rights as provided in client complaint procedure. [09/12/94; 01/15/97; Recompiled 10/31/01] NMAC 7.26.4.13 Complaint Process: A. (2). The service provider's complaint or grievance procedure shall provide, at a minimum, that: (a) the client is notified of the service provider's complaint or grievance procedure	Based on record review, the Agency did not provide documentation, the complaint procedure had been made available to individuals or their legal guardians for 3 of 18 individuals. Review of the Agency individual case files revealed the following items were not found and/or incomplete: Grievance/Complaint Procedure Acknowledgement: • Not found (#1, 6, 10)	Provider: State your Plan of Correction for the deficiencies cited in this tag here (How is the deficiency going to be corrected? This can be specific to each deficiency cited or if possible an overall correction?): → Provider: Enter your ongoing Quality Assurance/Quality Improvement processes as it related to this tag number here (What is going to be done? How many individuals is this going to affect? How often will this be completed? Who is responsible? What steps will be taken if issues are found?): →	

Tag # 1A31 Client Rights/Human Rights	Condition of Participation Level Deficiency	
NMAC 7.26.3.11 RESTRICTIONS OR LIMITATION OF CLIENT'S RIGHTS: A. A service provider shall not restrict or limit a client's rights except: (1) where the restriction or limitation is allowed in an emergency and is necessary to prevent imminent risk of physical harm to the client or another person; or (2) where the interdisciplinary team has determined that the client's limited capacity to exercise the right threatens his or her physical safety; or (3) as provided for in Section 10.1.14 [now Subsection N of 7.26.3.10 NMAC]. B. Any emergency intervention to prevent physical harm shall be reasonable to prevent harm, shall be the least restrictive intervention necessary to meet the emergency, shall be allowed no longer than necessary and shall be subject to interdisciplinary team (IDT) review. The IDT upon completion of its review may refer its findings to the office of quality assurance. The emergency intervention may be subject to review by the service provider's behavioral support committee or human rights committee in accordance with the behavioral support policies or other department regulation or policy. C. The service provider may adopt reasonable program policies of general applicability to clients served by that service provider that do not violate client rights. [09/12/94; 01/15/97; Recompiled 10/31/01] Developmental Disabilities (DD) Waiver Service Standards 2/26/2018; Re-Issue: 12/28/2018; Eff 1/1/2019	 After an analysis of the evidence it has been determined there is a significant potential for a negative outcome to occur. Based on record review, the Agency did not ensure the rights of Individuals was not restricted or limited for 2 of 18 Individuals. A review of Agency Individual files found no documentation of Positive Behavior Support Plans and/or Behavior Crisis Intervention Plans, which contain restrictions being reviewed at least quarterly by the Human Rights Committee. (#6, 18) A review of Agency Individual files indicated Human Rights Committee Approval was required for restrictions. No documentation was found regarding Human Rights Approval for the following: Physical Restraint - No evidence found of Human Rights Committee approval. (Individual #6) Line of sight - No evidence found of Human Rights Committee approval. (Individual #18) 	Provider: State your Plan of Correction for the deficiencies cited in this tag here (How is the deficiency going to be corrected? This can be specific to each deficiency cited or if possible an overall correction?): → Provider: Enter your ongoing Quality Assurance/Quality Improvement processes as it related to this tag number here (What is going to be done? How many individuals is this going to affect? How often will this be completed? Who is responsible? What steps will be taken if issues are found?): →

Chapter 2: Human Rights: Civil rights apply to everyone, including all waiver participants, family members, guardians, natural supports, and Provider Agencies, Everyone has a responsibility to make sure those rights are not violated. All Provider Agencies play a role in person-centered planning (PCP) and have an obligation to contribute to the planning process, always focusing on how to best support the person. Chapter 3: Safeguards: 3.3.1 HRC Procedural Requirements: 1. An invitation to participate in the HRC meeting of a rights restriction review will be given to the person (regardless of verbal or cognitive ability), his/her guardian, and/or a family member (if desired by the person), and the Behavior Support Consultant (BSC) at least 10 working days prior to the meeting (except for in emergency situations). If the person (and/or the guardian) does not wish to attend, his/her stated preferences may be brought to the meeting by someone whom the person chooses as his/her representative. 2. The Provider Agencies that are seeking to

needed and desired by the person and/or the IDT. PBS emphasizes the acquisition and maintenance of positive skills (e.g. building healthy relationships) to increase the person's	
maintenance of positive skills (e.g. building healthy relationships) to increase the person's	
healthy relationships) to increase the person's	
quality of life understanding that a natural	
reduction in other challenging behaviors will	
follow. At times, aversive interventions may be	
temporarily included as a part of a person's	
behavioral support (usually in the BCIP), and	
therefore, need to be reviewed prior to	
implementation as well as periodically while the	
restrictive intervention is in place. PBSPs not	
containing aversive interventions do not require	
HRC review or approval.	
Plans (e.g., ISPs, PBSPs, BCIPs PPMPs, and/or	
RMPs) that contain any aversive interventions	
are submitted to the HRC in advance of a	
meeting, except in emergency situations.	
3.3.4 Interventions Requiring HRC Review	
and Approval: HRCs must review prior to	
implementation, any plans (e.g. ISPs, PBSPs,	
BCIPs and/or PPMPs, RMPs), with strategies,	
including but not limited to:	
1. response cost;	
2. restitution;	
3. emergency physical restraint (EPR);	
4. routine use of law enforcement as part of a	
BCIP;	
5. routine use of emergency hospitalization	
procedures as part of a BCIP;	
6. use of point systems;	
7. use of intense, highly structured, and	
specialized treatment strategies, including level	
systems with response cost or failure to earn	
components;	
8. a 1:1 staff to person ratio for behavioral	
reasons, or, very rarely, a 2:1 staff to person	
ratio for behavioral or medical reasons;	
9. use of PRN psychotropic medications;	
10. use of protective devices for behavioral	

Le manuelle de la la la contra la contra de	
purposes (e.g., helmets for head banging, Posey	
gloves for biting hand);	
11. use of bed rails;	
12. use of a device and/or monitoring system	
through PST may impact the person's privacy or	
other rights; or	
13. use of any alarms to alert staff to a person's	
whereabouts.	
3.4 Emergency Physical Restraint (EPR):	
Every person shall be free from the use of	
restrictive physical crisis intervention measures	
that are unnecessary. Provider Agencies who	
support people who may occasionally need	
intervention such as Emergency Physical	
Restraint (EPR) are required to institute	
procedures to maximize safety.	
3.4.5 Human Rights Committee: The HRC	
reviews use of EPR. The BCIP may not be	
implemented without HRC review and approval	
whenever EPR or other restrictive measure(s)	
are included. Provider Agencies with an HRC	
are required to ensure that the HRCs:	
1. participate in training regarding required	
constitution and oversight activities for HRCs;	
2. review any BCIP, that include the use of EPR;	
3. occur at least annually, occur in any quarter	
where EPR is used, and occur whenever any	
change to the BCIP is considered;	
4. maintain HRC minutes approving or	
disallowing the use of EPR as written in a BCIP;	
and	
5. maintain HRC minutes of meetings reviewing	
the implementation of the BCIP when EPR is	
used.

MICHELLE LUJAN GRISHAM GOVERNOR

KATHYLEEN M. KUNKEL CABINET SECRETARY

Date: September 27, 2019

To: Bill Kesatie, Executive Director

Provider:Su Vida Services IncorporatedAddress:8501 Candelaria, Building ACity, State, Zip:Albuquerque, New Mexico 87112

E-mail Address: billkesatie@suvidaservices.com

Region:Northwest, Southwest, MetroSurvey Date:July 5 - 11, 2019Program Surveyed:Developmental Disabilities Waiver

Service Surveyed: **2018:** Supported Living, Family Living, Customized In-Home Supports, Customized Community Supports.

Survey Type: Routine

Dear Bill Kesatie:

The Division of Health Improvement Quality Management Bureau received and reviewed the documents you submitted for your Plan of Correction. Your Plan of Correction is not closed.

Your Plan of Correction will be considered for closure when a Verification survey confirms that you have corrected all survey deficiencies and sustained all corrections.

The Quality Management Bureau will need to conduct a verification survey to ensure previously cited deficiencies have been corrected and that systemic Quality Improvement and Quality Assurance processes have been effective at sustaining corrections.

If the Verification survey determines survey deficiencies have been corrected and corrective measures have effectively maintained compliance with DDW Standards, your Plan of Correction will be considered for closure.

If the Verification survey identifies repeat deficiencies, the Plan of Correction process will continue and your case may be referred to the Internal Review Committee for discussion of possible civil monetary penalties possible monetary fines and/or other sanctions.

Thank you for your cooperation with the Plan of Correction process. Sincerely,

Monica Valdez
