Improvement/Quality Management Bureau: Yolanda Herrera, RN, QMB Nurse Healthcare

Surveyor/IMB Nurse Investigator

Dear Ms. Analisa Martinez:

The Division of Health Improvement/Quality Management Bureau has completed a compliance survey of the services identified above. The purpose of the survey was to determine compliance with federal and state standards; to assure the health, safety, and welfare of individuals receiving services through the Developmental Disabilities Waiver; and to identify opportunities for improvement. This Report of Findings will be shared with the Developmental Disabilities Supports Division for their use in determining your current and future provider agreements. Upon receipt of this letter and Report of Findings your agency must immediately correct all deficiencies which place Individuals served at risk of harm.

Determination of Compliance:

The Division of Health Improvement, Quality Management Bureau has determined your agency is in:

DIVISION OF HEALTH IMPROVEMENT

5301 Central Avenue NE, Suite 400 • Albuquerque, New Mexico • 87108 (505) 222-8623 • FAX: (505) 222-8661 • https://nmhealth.org/about/dhi

Non-Compliance: This determination is based on noncompliance with 17 or more total Tags with 0 to 5 Condition of Participation Level Tags with 75% to 100% of the survey sample affected in any Condition of Participation Level tag or any amount of Standard Level Tags with 6 or more Condition of Participation Level Tags (*refer to Attachment D for details*). The attached QMB Report of Findings indicates Standard Level and Condition of Participation Level deficiencies identified and requires completion and implementation of a Plan of Correction.

The following tags are identified as Condition of Participation Level:

- Tag # 1A08.3 Administrative Case File Individual Service Plan / ISP Components
- Tag # 1A32 Administrative Case File: Individual Service Plan / ISP Components
- Tag # 1A22 Agency Personnel Competency
- Tag # 1A09 Medication Delivery Routine Medication Administration
- Tag # 1A09.1 Medication Delivery PRN Medication Administration
- Tag # 1A15.2 Administrative Case File: Healthcare Requirements & Follow-up
- Tag #1A31 Client Rights/Human Rights

The following tags are identified as Standard Level:

- Tag # 1A08 Administrative Case File
- Tag # 1A08.1 Administrative and Residential Case File: Progress Notes
- Tag # 1A32.1 Administrative Case File: Individual Service Plan Implementation
- Tag # 1A26 Consolidated On-Line Registry Employee Abuse Registry
- Tag # 1A37 Individual Specific Training
- Tag # 1A43.1 General Events Reporting: Individual Reporting
- Tag # 1A09.1.0 Medication Delivery PRN Medication Administration
- Tag # IS25 Community Integrated Employment Services Reimbursement
- Tag # IS30 Customized Community Supports Reimbursement
- Tag # LS26 Supported Living Reimbursement
- Tag # IH32 Customized In-Home Supports Reimbursement

Plan of Correction:

The attached Report of Findings identifies the deficiencies found during your agency's on-site compliance review. You are required to complete and implement a Plan of Correction. Your agency has a total of 45 business days (10 business days to submit your POC for approval and 35 days to implement your *approved* Plan of Correction) from the receipt of this letter.

You were provided information during the exit meeting portion of your on-site survey. Please refer to this information (Attachment A) for specific instruction on completing your Plan of Correction. At a minimum your Plan of Correction should address the following for each Tag cited:

Corrective Action for Current Citation:

How is the deficiency going to be corrected? (i.e. obtained documents, retrain staff, individuals and/or staff
no longer in service, void/adjusts completed, etc.) This can be specific to each deficiency cited or if possible
an overall correction, i.e. all documents will be requested and filed as appropriate.

On-going Quality Assurance/Quality Improvement Processes:

- What is going to be done on an ongoing basis? (i.e. file reviews, etc.)
- How many individuals is this going to effect? (i.e. percentage of individuals reviewed, number of files reviewed, etc.)
- How often will this be completed? (i.e. weekly, monthly, quarterly, etc.)
- Who is responsible? (responsible position within your agency)
- What steps will be taken if issues are found? (i.e. retraining, requesting documents, filing RORA, etc.)
- How is this integrated in your agency's QIS, QI Committee reviews and annual report?

Submission of your Plan of Correction:

Please submit your agency's Plan of Correction in the available space on the two right-hand columns of the Report of Findings. (See attachment "A" for additional guidance in completing the Plan of Correction).

Within 10 business days of receipt of this letter your agency Plan of Correction must be submitted to the parties below:

- 1. Quality Management Bureau, Attention: Monica Valdez, Plan of Correction Coordinator in any of the following ways:
 - a. Electronically at MonicaE. Valdez@state.nm.us (preferred method)
 - b. Fax to 505-222-8661. or
 - c. Mail to POC Coordinator, 5301 Central Ave NE Suite 400, Albuquerque, New Mexico 87108

2. Developmental Disabilities Supports Division Regional Office for region of service surveyed

Upon notification from QMB that your *Plan of Correction has been approved*, you must implement all remedies and corrective actions to come into compliance. If your Plan of Correction is denied, you must resubmit a revised plan as soon as possible for approval, as your POC approval and all remedies must be completed within 45 business days of the receipt of this letter.

Failure to submit your POC within the allotted 10 business days or complete and implement your Plan of Correction within the total 45 business days allowed may result in the imposition of a \$200 per day Civil Monetary Penalty until it is received, completed and/or implemented.

Billing Deficiencies:

If you have deficiencies noted in this report of findings under the *Service Domain: Medicaid Billing/Reimbursement*, you must complete a "Void/Adjust" claim or remit the identified overpayment via a check within 30 calendar days of the date of this letter to HSD/OIG/PIU, *though this is not the preferred method of payment*. If you choose to pay via check, please include a copy of this letter with the payment. Make the check payable to the New Mexico Human Services Department and mail to:

Attention: Lisa Medina-Lujan HSD/OIG/Program Integrity Unit 1474 Rodeo Road Santa Fe, New Mexico 87505

If you have questions and would like to speak with someone at HSD/OIG/PIU, please contact:

Lisa Medina-Lujan (Lisa.medina-lujan @state.nm.us)

Please be advised that there is a one-week lag period for applying payments received by check to Void/Adjust claims. During this lag period, your other claim payments may be applied to the amount you owe even though you have sent a refund, reducing your payment amount. For this reason, we recommend that you allow the system to recover the overpayment instead of sending in a check.

Request for Informal Reconsideration of Findings (IRF):

If you disagree with a finding of deficient practice, you have 10 business days upon receipt of this notice to request an IRF. Submit your request for an IRF in writing to:

ATTN: QMB Bureau Chief Request for Informal Reconsideration of Findings 5301 Central Ave NE Suite #400 Albuquerque, NM 87108 Attention: IRF request/QMB

See Attachment "C" for additional guidance in completing the request for Informal Reconsideration of Findings. The request for an IRF will not delay the implementation of your Plan of Correction which must be completed within 45 total business days (10 business days to submit your POC for approval and 35 days to implement your *approved* Plan of Correction). Providers may not appeal the nature or interpretation of the standard or regulation, the team composition or sampling methodology. If the IRF approves the modification or removal of a finding, you will be advised of any changes.

Please contact the Plan of Correction Coordinator, <u>Monica Valdez at 505-273-1930 or email at:</u> <u>MonicaE.Valdez@state.nm.us</u> if you have questions about the Report of Findings or Plan of Correction. Thank you for your cooperation and for the work you perform.

Sincerely,

Lei Lani Nava, MPH

Provider Instructions for Completing the QMB Plan of Correction (POC) Process

Introduction:

After a QMB Compliance Survey, your QMB Report of Findings will be sent to you via e-mail.

Each provider must develop and implement a Plan of Correction (POC) that identifies specific quality assurance and quality improvement activities the agency will implement to correct deficiencies and prevent continued deficiencies and non-compliance.

Agencies must submit their Plan of Correction within ten (10) business days from the date you receive the QMB Report of Findings. (Providers who do not submit a POC within 10 business days may be referred to the DDSD Regional Office for purposes of contract management or the Internal Review Committee [IRC] for possible actions or sanctions).

Agencies must fully implement their approved Plan of Correction within 45 business days (10 business days to submit your POC for approval and 35 days to implement your approved Plan of Correction) from the date they receive the QMB Report of Findings. Providers who fail to complete a POC within the 45-business days allowed will be referred to the IRC for possible actions or sanctions.

If you have questions about the Plan of Correction process, call the Plan of Correction Coordinator at 505-273-1930 or email at MonicaE.Valdez@state.nm.us. Requests for technical assistance must be requested through your Regional DDSD Office.

The POC process cannot resolve disputes regarding findings. If you wish to dispute a finding on the official Report of Findings, you must file an Informal Reconsideration of Findings (IRF) request within ten (10) business days of receiving your report. Please note that you must still submit a POC for findings that are in question (see Attachment C).

Instructions for Completing Agency POC:

Required Content

Your Plan of Correction should provide a step-by-step description of the methods to correct each deficient practice cited to prevent recurrence and information that ensures the regulation cited comes into and remains in compliance. The remedies noted in your POC are expected to be added to your Agency's required, annual Quality Assurance (QA) Plan.

If a deficiency has already been corrected since the on-site survey, the plan should state how it was corrected, the completion date (date the correction was accomplished), and how possible recurrence of the deficiency will be prevented.

The following details should be considered when developing your Plan of Correction:

The Plan of Correction must address each deficiency cited in the Report of Findings unless otherwise noted with a "No Plan of Correction Required statement." The Plan of Correction must address the five (5) areas listed below:

- 1. How the specific and realistic corrective action will be accomplished for individuals found to have been affected by the deficient practice.
- 2. How the agency will identify other individuals who have the potential to be affected by the same deficient practice, and how the agency will act to protect those individuals in similar situations.
- 3. What Quality Assurance measures will be put into place and what systemic changes made to ensure the deficient practice will not recur.
- 4. Indicate how the agency plans to monitor its performance to make certain solutions are sustained. The agency must develop a QA plan for ensuring correction is achieved and sustained. This QA plan must be implemented, and the corrective action is evaluated for its effectiveness. The plan of correction is integrated into the agency quality assurance system; and
- 5. Include dates when corrective actions will be completed. The corrective action completion dates must be acceptable to the State.

The following details should be considered when developing your Plan of Correction:

- Details about how and when Individual Served, agency personnel and administrative and service delivery site files are audited by agency personnel to ensure they contain required documents;
- Information about how medication administration records are reviewed to verify they contain all required information before they are distributed to service sites, as they are being used, and after they are completed;
- Your processes for ensuring that all required agency personnel are trained on required DDSD required trainings;
- How accuracy in billing/reimbursement documentation is assured;
- How health, safety is assured;
- For Case Management providers, how Individual Service Plans are reviewed to verify they meet requirements, how the timeliness of level of care (LOC) packet submissions and consumer visits are tracked;
- Your process for gathering, analyzing and responding to quality data indicators; and,
- Details about Quality Targets in various areas, current status, analyses about why targets were not met, and remedies implemented.

Note: Instruction or in-service of staff alone may not be a sufficient plan of correction. This is a good first step toward correction, but additional steps must be taken to ensure the deficiency is corrected and will not recur.

Completion Dates

- The plan of correction must include a completion date (entered in the far right-hand column) for each finding.
 Be sure the date is realistic in the amount of time your Agency will need to correct the deficiency; not to exceed 45 total business days.
- Direct care issues should be corrected immediately and monitored appropriately.
- Some deficiencies may require a staged plan to accomplish total correction.
- Deficiencies requiring replacement of equipment, etc., may require more time to accomplish correction but should show reasonable time frames.

Initial Submission of the Plan of Correction Requirements

- 1. The Plan of Correction must be completed on the official QMB Survey Report of Findings/Plan of Correction Form and received by QMB within ten (10) business days from the date you received the report of findings.
- 2. For questions about the POC process, call the POC Coordinator, Monica Valdez at 505-273-1930 or email at MonicaE.Valdez@state.nm.us for assistance.
- 3. For Technical Assistance (TA) in developing or implementing your POC, contact your Regional DDSD Office.
- 4. Submit your POC to Monica Valdez, POC Coordinator in any of the following ways:
 - a. Electronically at MonicaE. Valdez@state.nm.us (preferred method)
 - b. Fax to 505-222-8661, or
 - c. Mail to POC Coordinator, 5301 Central Ave NE Suite 400, Albuquerque, New Mexico 87108
- 5. <u>Do not submit supporting documentation</u> (evidence of compliance) to QMB <u>until after</u> your POC has been approved by the QMB.
- 6. QMB will notify you when your POC has been "approved" or "denied."
 - a. During this time, whether your POC is "approved," or "denied," you will have a maximum of 45-business days from the date of receipt of your Report of Findings to correct all survey deficiencies.
 - b. If your POC is denied, it must be revised and resubmitted as soon as possible, as the 45-business day limit is in effect.
 - c. If your POC is denied a second time your agency may be referred to the Internal Review Committee.
 - d. You will receive written confirmation when your POC has been approved by QMB and a final deadline for completion of your POC.
 - e. Please note that all POC correspondence will be sent electronically unless otherwise requested.
- 7. Failure to submit your POC within 10 business days without prior approval of an extension by QMB will result in a referral to the Internal Review Committee and the possible implementation of monetary penalties and/or sanctions.

POC Document Submission Requirements

Once your POC has been approved by the QMB Plan of Correction Coordinator you must submit copies of documents as evidence that all deficiencies have been corrected, as follows.

1. Your internal documents are due within a maximum of 45-business days of receipt of your Report of Findings.

- 2. It is preferred that you submit your documents via USPS or other carrier (scanned and saved to CD/DVD disc, flash drive, etc.). If documents containing HIPAA Protected Health Information (PHI) documents must be submitted through S-Comm (Therap), Fax or Postal System, do not send PHI directly to NMDOH email accounts. If the documents do not contain protected Health information (PHI) then you may submit your documents electronically scanned and attached to e-mails.
- 3. All submitted documents <u>must be annotated</u>; please be sure the tag numbers and Identification numbers are indicated on each document submitted. Documents which are not annotated with the Tag number and Identification number may not be accepted.
- 4. Do not submit original documents; Please provide copies or scanned electronic files for evidence. Originals must be maintained in the agency file(s) per DDSD Standards.
- 5. In lieu of some documents, you may submit copies of file or home audit forms that clearly indicate cited deficiencies have been corrected, other attestations of correction must be approved by the Plan of Correction Coordinator prior to their submission.
- 6. When billing deficiencies are cited, you must provide documentation to justify billing and/or void and adjust forms submitted to Xerox State Healthcare, LLC for the deficiencies cited in the Report of Findings.

Revisions, Modifications or Extensions to your Plan of Correction (post QMB approval) must be made in writing and submitted to the Plan of Correction Coordinator, prior to the completion date and are approved on a case-by-case basis. No changes may be made to your POC or the timeframes for implementation without written approval of the POC Coordinator.

Attachment B

Department of Health, Division of Health Improvement QMB Determination of Compliance Process

The Division of Health Improvement, Quality Management Bureau (QMB) surveys compliance of the Developmental Disabilities Waiver (DDW) standards and other state and federal regulations. For the purpose of the LCA / CI survey the CMS waiver assurances have been grouped into four (4) Service Domains: Plan of Care (ISP Implementation); Qualified Providers; Health, Welfare and Safety; and Administrative Oversight (note that Administrative Oversight listed in this document is not the same as the CMS assurance of Administrative Authority. Used in this context it is related to the agency's operational policies and procedures, Quality Assurance system and Medicaid billing and reimbursement processes.)

The QMB Determination of Compliance process is based on provider compliance or non-compliance with standards and regulations identified during the on-site survey process and as reported in the QMB Report of Findings. All areas reviewed by QMB have been agreed to by DDSD and DHI/QMB and are reflective of CMS requirements. All deficiencies (non-compliance with standards and regulations) are identified and cited as either a Standard level deficiency or a Condition of Participation level deficiency in the QMB Reports of Findings. All deficiencies require corrective action when non-compliance is identified.

Each deficiency in your Report of Findings has been predetermined to be a Standard Level Deficiency, a Condition of Participation Level Deficiency, if below 85% compliance or a non-negotiable Condition of Participation Level Deficiency. Your Agency's overall Compliance Determination is based on a Scope and Severity Scale which takes into account the number of Standard and Condition Level Tags cited as well as the percentage of Individuals affected in the sample.

Conditions of Participation (CoPs)

CoPs are based on the Centers for Medicare and Medicaid Services, Home and Community-Based Waiver required assurances, in addition to the New Mexico Developmental Disability Waiver (DDW) Service Standards. The Division of Health Improvement (DHI), in conjunction with the Developmental Disability Support Division (DDSD), has identified certain deficiencies that have the potential to be a Condition of Participation Level, if the tag falls below 85% compliance based on the number of people affected. Additionally, there are what are called nonnegotiable Conditions of Participation, regardless if one person or multiple people are affected. In this context, a CoP is defined as an essential / fundamental regulation or standard, which when out of compliance directly affects the health and welfare of the Individuals served. If no deficiencies within a Tag are at the level of a CoP, it is cited as a Standard Level Deficiency.

Service Domains and CoPs for Living Care Arrangements and Community Inclusion are as follows:

<u>Service Domain: Service Plan: ISP Implementation -</u> Services are delivered in accordance with the service plan, including type, scope, amount, duration and frequency specified in the service plan.

Potential Condition of Participation Level Tags, if compliance is below 85%:

- 1A08.3 Administrative Case File: Individual Service Plan / ISP Components
- 1A32 Administrative Case File: Individual Service Plan Implementation
- LS14 Residential Service Delivery Site Case File (ISP and Healthcare Requirements)
- IS14 CCS / CIES Service Delivery Site Case File (ISP and Healthcare Requirements)

<u>Service Domain: Qualified Providers -</u> The State monitors non-licensed/non-certified providers to assure adherence to waiver requirements. The State implements its policies and procedures for verifying that provider training is conducted in accordance with State requirements and the approved waiver.

Potential Condition of Participation Level Tags, if compliance is below 85%:

- 1A20 Direct Support Personnel Training
- 1A22 Agency Personnel Competency
- 1A37 Individual Specific Training

Non-Negotiable Condition of Participation Level Tags (one or more Individuals are cited):

- 1A25.1 Caregiver Criminal History Screening
- 1A26.1 Consolidated On-line Registry Employee Abuse Registry

<u>Service Domain: Health, Welfare and Safety -</u> The State, on an ongoing basis, identifies, addresses and seeks to prevent occurrences of abuse, neglect and exploitation. Individuals shall be afforded their basic human rights. The provider supports individuals to access needed healthcare services in a timely manner.

Potential Condition of Participation Level Tags, if compliance is below 85%:

- 1A08.2 Administrative Case File: Healthcare Requirements & Follow-up
- 1A09 Medication Delivery Routine Medication Administration
- **1A09.1** Medication Delivery PRN Medication Administration
- 1A15.2 Administrative Case File: Healthcare Documentation (Therap and Required Plans)

Non-Negotiable Condition of Participation Level Tags (one or more Individuals are cited):

- 1A05 General Requirements / Agency Policy and Procedure Requirements
- 1A07 Social Security Income (SSI) Payments
- 1A09.2 Medication Delivery Nurse Approval for PRN Medication
- 1A15 Healthcare Coordination Nurse Availability / Knowledge
- 1A31 Client Rights/Human Rights
- LS25.1 Residential Reqts. (Physical Environment Supported Living / Family Living / Intensive Medical Living)

Attachment C

Guidelines for the Provider Informal Reconsideration of Finding (IRF) Process

Introduction:

Throughout the QMB Survey process, surveyors are openly communicating with providers. Open communication means surveyors have clarified issues and/or requested missing information before completing the review through the use of the signed/dated "Document Request," or "Administrative Needs," etc. forms. Regardless, there may still be instances where the provider disagrees with a specific finding. Providers may use the following process to informally dispute a finding.

Instructions:

- The Informal Reconsideration of the Finding (IRF) request must be received in writing to the QMB Bureau
 Chief <u>within 10 business days</u> of receipt of the final Report of Findings (*Note: No extensions are granted for the IRF*).
- 2. The written request for an IRF *must* be completed on the QMB Request for Informal Reconsideration of Finding form available on the QMB website: https://nmhealth.org/about/dhi/cbp/irf/
- 3. The written request for an IRF must specify in detail the request for reconsideration and why the finding is inaccurate.
- 4. The IRF request must include all supporting documentation or evidence.
- 5. If you have questions about the IRF process, email the IRF Chairperson, Valerie V. Valdez at valerie.valdez@state.nm.us for assistance.

The following limitations apply to the IRF process:

- The written request for an IRF and all supporting evidence must be received within 10 business days.
- Findings based on evidence requested during the survey and not provided may not be subject to reconsideration.
- The supporting documentation must be new evidence not previously reviewed or requested by the survey team.
- Providers must continue to complete their Plan of Correction during the IRF process
- Providers may not request an IRF to challenge the sampling methodology.
- Providers may not request an IRF based on disagreement with the nature of the standard or regulation.
- Providers may not request an IRF to challenge the team composition.
- Providers may not request an IRF to challenge the DHI/QMB determination of compliance or the length of their DDSD provider contract.

A Provider forfeits the right to an IRF if the request is not received within 10 business days of receiving the report and/or does not include all supporting documentation or evidence to show compliance with the standards and regulations.

The IRF Committee will review the request; the Provider will be notified in writing of the ruling; no face-to-face meeting will be conducted.

When a Provider requests that a finding be reconsidered, it does not stop or delay the Plan of Correction process. **Providers must continue to complete the Plan of Correction, including the finding in dispute regardless of the IRF status.** If a finding is removed or modified, it will be noted and removed or modified from the Report of Findings. It should be noted that in some cases a Plan of Correction may be completed prior to the IRF process being completed. The provider will be notified in writing on the decisions of the IRF committee.

QMB Determinations of Compliance

Compliance:

The QMB determination of *Compliance* indicates that a provider has either no deficiencies found during a survey or that no deficiencies at the Condition of Participation Level were found. The agency has obtained a level of compliance such that there is a minimal potential for harm to individuals' health and safety. To qualify for a determination of *Compliance*, the provider must have received no Conditions of Participation Level Deficiencies and have a minimal number of Individuals on the sample affected by the findings indicated in the Standards Level Tags.

Partial-Compliance with Standard Level Tags:

The QMB determination of *Partial-Compliance with Standard Level Tags* indicates that a provider is in compliance with all Condition of Participation Level deficiencies but is out of compliance with a certain percentage of Standard Level deficiencies. This partial-compliance, if not corrected, may result in a negative outcome or the potential for more than minimal harm to individuals' health and safety. There are two ways to receive a determination of Partial Compliance with Standard Level Tags:

- 1. Your Report of Findings includes 16 or fewer Standards Level Tags with between 75% and 100% of the survey sample affected in any tag.
- 2. Your Report of Findings includes 17 or more Standard Level Tags with between 50% to 74% of the survey sample affected in any tag.

Partial-Compliance with Standard Level Tags and Condition of Participation Level Tags:

The QMB determination of Partial-Compliance with Standard Level Tags and Condition of Participation Level Tags indicates that a provider is out of compliance with one to five (1 - 5) Condition of Participation Level Tags. This partial-compliance, if not corrected, may result in a serious negative outcome or the potential for more than minimal harm to individuals' health and safety.

Non-Compliance:

The QMB determination of *Non-Compliance* indicates a provider is significantly out of compliance with both Standard Level deficiencies and Conditions of Participation level deficiencies. This non-compliance, if not corrected, may result in a serious negative outcome or the potential for more than minimal harm to individuals' health and safety. There are three ways an agency can receive a determination of Non-Compliance:

- 1. Your Report of Findings includes 17 or more total Tags with 0 to 5 Condition of Participation Level Tags with 75% to 100% of the survey sample affected in any Condition of Participation Level tag.
- 2. Your Report of Findings includes any amount of Standard Level Tags with 6 or more Condition of Participation Level Tags.

Compliance				Weighting			
Determination	LC)W		MEDIUM		Н	IGH
T . 17		T 4=		T 4=		4-	T

3. Provider Agencies are responsible for			
ensuring that all plans created by nurses, RDs,			

therapists or BSCs are present in all needed settings. 4. Provider Agencies must maintain records of all documents produced by agency personnel or contractors on behalf of each person, including any routine notes or data, annual assessments, semi-annual reports, evidence of training provided/received, progress notes, and any other interactions for which billing is generated. 5. Each Provider Agency is responsible for maintaining the daily or other contact notes documenting the nature and frequency of service delivery, as well as data tracking only for the services provided by their agency. 6. The current Client File Matrix found in Appendix A Client File Matrix details the minimum requirements for records to be stored in agency office files, the delivery site, or with DSP while providing services in the community. 7. All records pertaining to JCMs must be retained permanently and must be made available to DDSD upon request, upon the termination or expiration of a provider agreement, or upon provider withdrawal from services.		
20.5.1 Individual Data Form (IDF): The Individual Data Form provides an overview of demographic information as well as other key personal, programmatic, insurance, and health related information. It lists medical information; assistive technology or adaptive equipment; diagnoses; allergies; information about whether a guardian or advance directives are in place; information about behavioral and health related needs; contacts of Provider Agencies and team members and other critical information. The IDF automatically loads information into other fields and forms and must be complete and kept current. This form is initiated by the CM. It must be opened and		

continuously updated by Living Supports, CCS- Group, ANS, CIHS and case management when applicable to the person in order for accurate data to auto populate other documents like the Health Passport and Physician Consultation Form. Although the Primary Provider Agency is ultimately responsible for keeping this form current, each provider collaborates and communicates critical information to update this form.		
Chapter 3: Safeguards 3.1.2 Team Justification Process: DD Waiver participants may receive evaluations or reviews conducted by a variety of professionals or clinicians. These evaluations or reviews typically include recommendations or suggestions for the person/guardian or the team to consider. The team justification process includes: 1. Discussion and decisions about non- health related recommendations are documented on the Team Justification form. 2. The Team Justification form documents that the person/guardian or team has considered the recommendations and has decided: a. to implement the recommendation; b. to create an action plan and revise the ISP, if necessary; or c. not to implement the recommendation currently. 3. All DD Waiver Provider Agencies participate in information gathering, IDT meeting attendance, and accessing supplemental resources if needed and desired. 4. The CM ensures that the Team		
Justification Process is followed and complete.

	OMP P + (Fi II F I O II + A	<u> </u>	L

information) and other elements depending on the age of the individual. The ISP templates may be revised and reissued by DDSD to incorporate initiatives that improve person - centered planning practices. Companion documents may also be issued by DDSD and be required for use in order to better demonstrate required elements of the PCP process and ISP development.

The ISP is completed by the CM with the IDT input and must be completed according to the following requirements:

- 1. DD Waiver Provider Agencies should not recommend service type, frequency, and amount (except for required case management services) on an individual budget prior to the Vision Statement and Desired Outcomes being developed.
- 2. The person does not require IDT agreement/approval regarding his/her dreams, aspirations, and desired long-term outcomes.
- 3. When there is disagreement, the IDT is required to plan and resolve conflicts in a manner that promotes health, safety, and quality of life through consensus. Consensus means a state of general agreement that allows members to support the proposal, at least on a trial basis.
- 4. A signature page and/or documentation of participation by phone must be completed.
- 5. The CM must review a current Addendum A and DHI ANE letter with the person and Court appointed guardian or parents of a minor, if applicable.

6.6.3 Additional Requirements for Adults:

Because children have access to other funding sources, a larger array of services are available to adults than to children through the DD Waiver. (See Chapter 7: Available Services and Individual Budget Development). The ISP Template for adults is also more extensive, including Action Plans, Teaching

- "With staff assistance,...will research and identify activities by using her tablet."
- "...will attend and evaluate activity."

Individual #13:

TSS not found for the following Fun / Relationship Outcome Statement / Action Steps:

"...will deposit \$20 to his ABLE savings account."

and Support Strategies (TSS), Written Direct Support Instructions (WDSI), and Individual Specific Training (IST) requirements.		
 6.6.3.1. Action Plan: Each Desired Outcome requires an Action Plan. The Action Plan addresses individual strengths and capabilities in reaching Desired Outcomes. Multiple service types may be included in the Action Plan under a single Desired Outcome. Multiple Provider Agencies can and should be contributing to Action Plans toward each Desired Outcome. 1. Action Plans include actions the person will take; not just actions the staff will take. 2. Action Plans delineate which activities will be completed within one year. 3. Action Plans are completed through IDT consensus during the ISP meeting. 4. Action Plans must indicate under "Responsible Party" which DSP or service provider (i.e. Family Living, CCS, etc.) are responsible for carrying out the Action Step. 		
6.6.3.2 Teaching and Supports Strategies (TSS) and Written Direct Support Instructions (WDSI): After the ISP meeting, IDT members conduct a task analysis and assessments necessary to create effective TSS and WDSI to support those Action Plans that require this extra detail. All TSS and WDSI should support the person in achieving his/her Vision.		
6.6.3.3 Individual Specific Training in the ISP: The CM, with input from each DD Waiver Provider Agency at the annual ISP meeting, completes the IST requirements section of the ISP form listing all training needs specific to the individual. Provider Agencies bring their proposed IST to the annual meeting. The IDT must reach a consensus about who needs to be trained, at what level (awareness,		

knowledge or skill), and within what timeframe. (See Chapter 17.10 Individual-Specific Training for more information about IST.) 6.8 ISP Implementation and Monitoring: All DD Waiver Provider Agencies with a signed SFOC are required to provide services as detailed in the ISP. The ISP must be readily accessible to Provider Agencies on the approved budget. (See Chapter 20: Provider Documentation and Client Records.) CMs facilitate and maintain communication with the person, his/her representative, other IDT members, Provider Agencies, and relevant parties to ensure that the person receives the maximum benefit of his/her services and that revisions to the ISP are made as needed. All DD Waiver Provider Agencies are required to cooperate with monitoring activities conducted by the CM and the DOH. Provider Agencies are required to respond to issues at the individual level and agency level as described in Chapter 16: Qualified Provider Agencies.		
Chapter 20: Provider Documentation and Client Records: 20.2 Client Records Requirements: All DD Waiver Provider Agencies are required to create and maintain individual client records. The contents of client records vary depending on the unique needs of the person receiving services and the resultant information produced. The extent of documentation required for individual client records per service type depends on the location of the file, the type of service being provided, and the information necessary.

According to the Work/Learn Outcome;
 Action Step for "...will choose location given
 2 choices using communication system" is to be completed 1 time per week. Evidence found indicated it was not being completed

- 8. Client records must contain all documents essential to the service being provided and essential to ensuring the health and safety of the person during the provision of the service.

 9. Provider Agencies must have readily accessible records in home and community settings in paper or electronic form. Secure access to electronic records through the Therap web-based system using computers or mobile devices is acceptable.

 10. Provider Agencies are responsible for ensuring that all plans created by nurses, RDs, therapists or BSCs are present in all needed settings.
- 11. Provider Agencies must maintain records of all documents produced by agency personnel or contractors on behalf of each person, including any routine notes or data, annual assessments, semi-annual reports, evidence of training provided/received, progress notes, and any other interactions for which billing is generated.
- 12. Each Provider Agency is responsible for maintaining the daily or other contact notes documenting the nature and frequency of service delivery, as well as data tracking only for the services provided by their agency.
- 13. The current Client File Matrix found in Appendix A Client File Matrix details the minimum requirements for records to be stored in agency office files, the delivery site, or with DSP while providing services in the community.
- **14.** All records pertaining to JCMs must be retained permanently and must be made available to DDSD upon request, upon the termination or expiration of a provider agreement, or upon provider withdrawal from services.

at the required frequency as indicated in the ISP for 3/2021 - 4/2021.

Community Integrated Employment Services Data Collection/Data Tracking / Progress with regards to ISP Outcomes:

Individual #8

 According to the Work/Learn, Outcome; Action Step for "...will improve health to ensure less call in's" is to be completed 1 time per week. Evidence found indicated it was not being completed at the required frequency as indicated in the ISP for 3/2021 – 4/2021.

described by the author or their designee. Verbal or written recall or demonstration may verify this level of competence.

Reaching a skill level involves being trained by a therapist, nurse, designated or experienced designated trainer. The trainer shall demonstrate the techniques according to the plan. Then they observe and provide feedback to the trainee as they implement the techniques. This should be repeated until competence is demonstrated. Demonstration of skill or observed implementation of the techniques or strategies verifies skill level competence. Trainees should be observed on more than one occasion to ensure appropriate techniques are maintained and to provide additional coaching/feedback. Individuals shall receive services from competent and qualified Provider Agency personnel who must successfully complete IST requirements in accordance with the specifications described in the ISP of each person supported.

- 1. IST must be arranged and conducted at least annually. IST includes training on the ISP Desired Outcomes, Action Plans, strategies, and information about the person's preferences regarding privacy, communication style, and routines. More frequent training may be necessary if the annual ISP changes before the year ends.
- 2. IST for therapy-related WDSI, HCPs, MERPs, CARMPs, PBSA, PBSP, and BCIP, must occur at least annually and more often if plans change, or if monitoring by the plan author or agency finds incorrect implementation, when new DSP or CM are assigned to work with a person, or when an existing DSP or CM requires a refresher.
- 3. The competency level of the training is based on the IST section of the ISP.
- 4. The person should be present for and involved in IST whenever possible.

When DSP were asked, if the Individual had a Comprehensive Aspiration Risk Management Plan (CARMP) and where was it located, the following was reported:

 DSP #579 stated, "Umm, I think it had something related to Covid but to what I know she does not have a strict CARMP." As indicated by the Individual Specific Training section of the ISP individual has a Comprehensive Aspiration Risk Management Plan (CARMP). (Individual #1)

When DSP were asked, if the Individual's had Health Care Plans, where could they be located and if they had been trained, the following was reported:

 DSP #579 stated, "There is a constipation plan, an ADL plan, and Covid plan." As indicated by the Electronic Comprehensive Health Assessment Tool, the Individual also requires Health Care Plans for Status of Care/Hygiene, Infection Control (Is immunosuppressed) and Colonized/Infected with multidrug. (Individual #1)

When DSP were asked, if the Individual's had Medical Emergency Response Plans and where could they be located, the following was reported, the following was reported:

- DSP #579 stated, "No. "As indicated by the Electronic Comprehensive Health Assessment Tool, the Individual requires Health Care Plans for Infection Control (Is immunosuppressed) and Colonized/Infected with multidrug. (Individual #1)
- DSP #518 stated, "Yes, they are, aspiration, constipation, and they are in with the

When Direct Support Personnel were asked, what State Agency do you report suspected Abuse, Neglect or Exploitation, the following was reported:

• DSP #519 stated, "That would be I believe. DOH or DHS (APS 1-866-654-3219) or 1-800-252-5400 ANE Hotline." Staff did not provide the correct DHI/IMB Hotline.

person's plan.

Tag # 1A26 Consolidated On-line Registry Employee Abuse Registry	Standard Level Deficiency		
Employee Abuse Registry NMAC 7.1.12.8 - REGISTRY ESTABLISHED; PROVIDER INQUIRY REQUIRED: Upon the effective date of this rule, the department has established and maintains an accurate and complete electronic registry that contains the name, date of birth, address, social security number, and other appropriate identifying information of all persons who, while employed by a provider, have been determined by the department, as a result of an investigation of a complaint, to have engaged in a substantiated registry-referred incident of abuse, neglect or exploitation of a person receiving care or services from a provider. Additions and updates to the registry shall be posted no later than two (2) business days following receipt. Only department staff designated by the custodian may access, maintain and update the data in the registry. A. Provider requirement to inquire of registry. A provider, prior to employing or contracting with an employee, shall inquire of the registry whether the individual under consideration for employment. A provider may not employ or contract with an individual to be an employee if the individual is listed on the registry as having a substantiated registry-referred incident of abuse, neglect or exploitation of a person receiving care or services from a provider.	Based on record review, the Agency did not maintain documentation in the employee's personnel records that evidenced inquiry into the Employee Abuse Registry prior to employment for 1 of 112 Agency Personnel. The following Agency Personnel records contained evidence that indicated the Employee Abuse Registry check was completed after hire: Direct Support Personnel (DSP): #578 – Date of hire 10/5/2020, completed 10/7/2020.	Provider: State your Plan of Correction for the deficiencies cited in this tag here (How is the deficiency going to be corrected? This can be specific to each deficiency cited or if possible an overall correction?): → Provider: Enter your ongoing Quality Assurance/Quality Improvement processes as it related to this tag number here (What is going to be done? How many individuals is this going to affect? How often will this be completed? Who is responsible? What steps will be taken if issues are found?): →	
services from a provider. C. Applicant's identifying information required. In making the inquiry to the registry prior to employing or contracting with an employee, the provider shall use identifying information concerning the individual under consideration for employment or contracting sufficient to reasonably and completely search the registry, including the name, address, date of birth, social security number, and other			

		,
appropriate identifying information required by		
the registry.		
D. Documentation of inquiry to registry.		
The provider shall maintain documentation in		
the employee's personnel or employment		
records that evidences the fact that the		
provider made an inquiry to the registry		
concerning that employee prior to employment.		
Such documentation must include evidence,		
based on the response to such inquiry		
received from the custodian by the provider,		
that the employee was not listed on the registry		
as having a substantiated registry-referred		
incident of abuse, neglect or exploitation.		
E. Documentation for other staff. With		
respect to all employed or contracted		
individuals providing direct care who are		
licensed health care professionals or certified		
nurse aides, the provider shall maintain		
documentation reflecting the individual's		
current licensure as a health care professional		
or current certification as a nurse aide.		
F. Consequences of noncompliance. The		
department or other governmental agency		
having regulatory enforcement authority over a		
provider may sanction a provider in		
accordance with applicable law if the provider		
fails to make an appropriate and timely inquiry		
of the registry, or fails to maintain evidence of		
such inquiry, in connection with the hiring or		
contracting of an employee; or for employing or		
contracting any person to work as an		
employee who is listed on the registry. Such		
sanctions may include a directed plan of correction, civil monetary penalty not to exceed		
five thousand dollars (\$5000) per instance, or		
termination or non-renewal of any contract with		
the department or other governmental agency.		
the department of other governmental agency.

of each person supported and as outlined			
in 17.10 Individual-Specific Training below.			
b. Complete training on DOH-approved ANE			
reporting procedures in accordance with			
NMAC 7.1.14			
c. Complete training in universal precautions.			
The training materials shall meet			
Occupational Safety and Health			
Administration (OSHA) requirements			
d. Complete and maintain certification in First			
Aid and CPR. The training materials shall			
meet OSHA requirements/guidelines.			
e. Complete relevant training in accordance			
with OSHA requirements (if job involves			
exposure to hazardous chemicals).			
f. Become certified in a DDSD-approved			
system of crisis prevention and			
intervention (e.g., MANDT, Handle with			
Care, CPI) before using EPR. Agency DSP			
and DSS shall maintain certification in a			
DDSD-approved system if any person they			

support has a BCIP that includes the use		
of EPR.		
g. Complete and maintain certification in a		
DDSD-approved medication course if		
required to assist with medication delivery.		
h. Complete training regarding the HIPAA.		
Any staff being used in an emergency		
to fill in or cover a shift must have at a		
minimum the DDSD required core trainings		
and be on shift with a DSP who has		
completed the relevant IST.		
17.10 Individual-Specific Training: The		
following are elements of IST: defined		
standards of performance, curriculum tailored		
to teach skills and knowledge necessary to		
meet those standards of performance, and		
formal examination or demonstration to verify		
standards of performance, using the		
established DDSD training levels of		
awareness, knowledge, and skill.		
Reaching an awareness level may be		
accomplished by reading plans or other		
information. The trainee is cognizant of		
information related to a person's specific		
condition. Verbal or written recall of basic		
information or knowing where to access the		
information can verify awareness.		
Reaching a knowledge level may take the		
form of observing a plan in action, reading a		
plan more thoroughly, or having a plan		
described by the author or their designee.		
Verbal or written recall or demonstration may		
verify this level of competence.		
Reaching a skill level involves being trained		
by a therapist, nurse, designated or		
experienced designated trainer. The trainer		
shall demonstrate the techniques according to		
the plan. Then they observe and provide		
feedback to the trainee as they implement the		
techniques. This should be repeated until		
competence is demonstrated. Demonstration		

of skill or observed implementation of the

techniques or strategies verifies skill level		
competence. Trainees should be observed on		
more than one occasion to ensure appropriate		
techniques are maintained and to provide		
additional coaching/feedback.		
Individuals shall receive services from		
competent and qualified Provider Agency		
personnel who must successfully complete IST		
requirements in accordance with the		
specifications described in the ISP of each		
person supported.		
IST must be arranged and conducted at		
least annually. IST includes training on the ISP		
Desired Outcomes, Action Plans, strategies,		
and information about the person's		
preferences regarding privacy, communication		
style, and routines. More frequent training may		
be necessary if the annual ISP changes before		
the year ends.		
2. IST for therapy-related WDSI, HCPs,		
MERPs, CARMPs, PBSA, PBSP, and BCIP,		
must occur at least annually and more often if		
plans change, or if monitoring by the plan		
author or agency finds incorrect		
implementation, when new DSP or CM are		
assigned to work with a person, or when an		
existing DSP or CM requires a refresher.		
3. The competency level of the training is		
based on the IST section of the ISP.		
4. The person should be present for and		
involved in IST whenever possible.		
5. Provider Agencies are responsible for		
tracking of IST requirements.		
6. Provider Agencies must arrange and		
ensure that DSP's are trained on the contents		
of the plans in accordance with timelines		
indicated in the Individual-Specific Training		
Requirements: Support Plans section of the		
ISP and notify the plan authors when new		
DSP are hired to arrange for trainings.		
7. If a therapist, BSC, nurse, or other author		
of a plan, healthcare or otherwise, chooses to		
designate a trainer, that person is still	OMP Papart of Findings - Traces Inc Couthwest - May 17, 29, 2021	

responsible for providing the curriculum to the designated trainer. The author of the plan is also responsible for ensuring the designated trainer is verifying competency in alignment with their curriculum, doing periodic quality assurance checks with their designated trainer, and re-certifying the designated trainer at least annually and/or when there is a change to a person's plan.		
Rosters are required for all IST trainings: 1. IST Training Rosters must include: a. the name of the person receiving DD Waiver services; b. the date of the training; c. IST topic for the training; d. the signature of each trainee; e. the role of each trainee (e.g., CIHS staff, CIE staff, family, etc.); and f. the signature and title or role of the trainer. 2. A competency-based training roster (required for CARMPs) includes all information above but also includes the level of training (awareness, knowledge, or skilled) the trainee has attained. (See Chapter 5.5 Aspiration Risk Management for more details about CARMPs.) 3. A copy of the training roster is submitted to the agency employing the staff trained within seven calendar days of the training date. The original is retained by the trainer.

reportable incidents as described in Chapter 18: Incident Management System.

5. GER does not replace a Provider Agency's obligations related to healthcare coordination, modifications to the ISP, or any other risk management and QI activities.

Appendix B GER Requirements: DDSD is pleased to introduce the revised General Events Reporting (GER), requirements. There are two important changes related to medication error reporting:

- 1. Effective immediately, DDSD requires ALL medication errors be entered into Therap GER with the exception of those required to be reported to Division of Health Improvement-Incident Management Bureau.
- 2. No alternative methods for reporting are permitted.

The following events need to be reported in the Therap GER:

- Emergency Room/Urgent Care/Emergency Medical Services
- Falls Without Injury
- Injury (including Falls, Choking, Skin Breakdown and Infection)
- Law Enforcement Use
- Medication Errors
- Medication Documentation Errors
- Missing Person/Elopement
- Out of Home Placement- Medical: Hospitalization, Long Term Care, Skilled Nursing or Rehabilitation Facility Admission
- PRN Psychotropic Medication
- · Restraint Related to Behavior
- Suicide Attempt or Threat

Entry Guidance: Provider Agencies must complete the following sections of the GER with detailed information: profile information, event information, other event information,

- General Events Report (GER) indicates on 11/2/2020 the Individual was taken into the ER per RN to have swollen foot assessed. (Hospital). GER was approved 11/23/2020.
- General Events Report (GER) indicates on 1/12/2021 the Individual received their first dose of the Covid-19 vaccine. (Communicable Disease). GER was approved 1/19/2021.
- General Events Report (GER) indicates on 2/9/2021 the Individual received their second dose of the Covid-19 vaccine. (Communicable Disease). GER was approved 2/16/2021.

Individual #3

- General Events Report (GER) indicates on 3/16/2021 the Individual was taken into ER for psychiatric evaluation per physician. (Hospital). GER was approved 3/19/2021.
- General Events Report (GER) indicates on 4/3/2021 the Individual called Law Enforcement asking for assistance because he heard his son on the roof. (Law Enforcement Involvement). GER was approved 4/9/2021.

Individual #4

- General Events Report (GER) indicates on 5/26/2020 the Individual had numerous bumps, bruises, and minor injuries on his face, arms, and chest. (ER Visit). GER was approved 6/1/2020.
- General Events Report (GER) indicates on 5/26/2020 the Individual had numerous bumps, bruises, and minor injuries on his

general information, notification, actions taken or planned, and the review follow up comments section. Please attach any pertinent external documents such as discharge summary, medical consultation form, etc. Provider Agencies must enter and approve GERs within 2 business days with the exception of Medication Errors which must be entered into GER on at least a monthly basis.

- face, arms, and chest. (Injury). GER was approved 6/1/2020.
- General Events Report (GER) indicates on 10/11/2020 the Individual had an abrasion on wrist. (Injury). GER was approved 11/9/2020.
- General Events Report (GER) indicates on 1/6/2021 the Individual had small abrasion from rubbing his face. (Injury). GER was approved 1/13/2021.
- General Events Report (GER) indicates on 3/3/2021 the Individual was eating breakfast and began to cough he refused to finish his breakfast. (Choking). GER was approved 3/10/2021.
- General Events Report (GER) indicates on 3/21/2021 the Individual received their first dose of the Covid-19 vaccine. (Communicable Disease). GER was approved 4/13/2021.
- General Events Report (GER) indicates on 4/7/2021 the Individual had a bruise after banging own hand against the window in the car because the individual couldn't open the toy. (Injury). GER was approved 4/13/2021.

Individual #5

- General Events Report (GER) indicates on 10/6/2020 the Individual stepped off the sidewalk, lost balance and scraped arm. (Injury). GER was approved 10/9/2020.
- General Events Report (GER) indicates on 1/11/2021 the Individual was encouraged to be taken to the ER per RN to be evaluated for confusion and being lethargic. (Hospital). GER was approved 1/20/2021.

 General Events Report (GER) indicates on 3/22/2021 the Individual stated her finger was hurting. (Injury). GER was approved 3/25/2021.

Individual #6

- General Events Report (GER) indicates on 5/18/2020 the Individual was self-harming and destroying property, RN approved use of PRN Psychotropic med. (PRN). GER was approved 6/4/2020.
- General Events Report (GER) indicates on 6/1/2020 the Individual was threatening to destroy the neighbor's property, RN approved use of PRN Psychotropic med. (PRN). GER was approved 6/4/2020.
- General Events Report (GER) indicates on 7/11/2020 the Individual had redness on her back. (Injury). GER was approved 7/28/2020.
- General Events Report (GER) indicates on 7/13/2020 the Individual was sent to have Covid-19 testing. (Communicable Disease). GER was approved 7/17/2020.
- General Events Report (GER) indicates on 8/3/2020 the Individual had a scratch on right butt and 2 small bruises under left forearm. (Injury). GER was approved 08/07/2020.
- General Events Report (GER) indicates on 8/4/2020 the Individual was getting nails trimmed as she moved staff accidently snipped a piece of skin. (Injury). GER was approved 8/7/2020.

- General Events Report (GER) indicates on 8/5/2020 the Individual had a small bruise on right upper leg. (Injury). GER was approved 8/10/2020.
- General Events Report (GER) indicates on 8/15/2020 the Individual had redness on right leg shin area due to scratching because it itched. (Injury). GER was approved 8/21/2020.
- General Events Report (GER) indicates on 8/25/2020 the Individual had redness on forehead from scratching. (Injury). GER was approved 8/31/2020.
- General Events Report (GER) indicates on 9/1/2020 the Individual noticed mark on right arm. (Injury). GER was approved 9/8/2020.
- General Events Report (GER) indicates on 9/3/2020 the Individual had a bruise on right knee. (Injury). GER was approved 9/8/2020.
- General Events Report (GER) indicates on 9/16/2020 the Individual had a bruise on right upper thigh. (Injury). GER was approved 9/28/2020.
- General Events Report (GER) indicates on 9/23/2020 the Individual had a bruise right outer arm. (Injury). GER was approved 9/30/2020.
- General Events Report (GER) indicates on 9/26/2020 the Individual had a scratch on left hip. (Injury). GER was approved 10/02/2020.
- General Events Report (GER) indicates on 11/12/2020 the Individual tripped and got a

scrape on left knee. (Injury). GER was approved 11/30/2020.

- General Events Report (GER) indicates on 4/5/2021 the Individual had scratches on back from scratching it. (Injury). GER was approved 4/16/2021.
- General Events Report (GER) indicates on 4/8/2021 the Individual registered for the first dose of Covid-19 Vaccine. (Communicable Disease). GER was approved 4/30/2021.
- General Events Report (GER) indicates on 4/28/2021 the Individual had a quarter sized bruise on left knee. (Injury). GER was approved 5/3/2021.

Individual #7

 General Events Report (GER) indicates on 11/5/2020 the Individual had 2 dime sized bruises on right arm. (Injury). GER was approved 11/10/2020.

Individual #8

 General Events Report (GER) indicates on 4/8/2021 the Individual received first dose of the Covid-19 Vaccine. (Communicable Disease). GER was approved 4/13/2021.

The following events were not reported in the General Events Reporting System as required by policy:

Individual #7

 Documentation reviewed indicates on 5/9/2021 the Individual received a Covid-19 PCR test at hospital (neg). (Communicable disease). No GER was found.

maintaining the daily or other contact notes documenting the nature and frequency of service delivery, as well as data tracking only for the services provided by their agency.

- 6. The current Client File Matrix found in Appendix A Client File Matrix details the minimum requirements for records to be stored in agency office files, the delivery site, or with DSP while providing services in the community.
- 7. All records pertaining to JCMs must be retained permanently and must be made available to DDSD upon request, upon the termination or expiration of a provider agreement, or upon provider withdrawal from services.

Chapter 3 Safeguards: 3.1.1 Decision Consultation Process (DCP): Health decisions are the sole domain of waiver participants, their guardians or healthcare decision makers. Participants and their healthcare decision makers can confidently make decisions that are compatible with their personal and cultural values. Provider Agencies are required to support the informed decision making of waiver participants by supporting access to medical consultation, information, and other available resources according to the following:

- 1. The DCP is used when a person or his/her guardian/healthcare decision maker has concerns, needs more information about health-related issues, or has decided not to follow all or part of an order, recommendation, or suggestion. This includes, but is not limited to:
- a. medical orders or recommendations from the Primary Care Practitioner, Specialists or other licensed medical or healthcare practitioners such as a Nurse Practitioner (NP or CNP), Physician Assistant (PA) or Dentist:

the on-site survey. Provider please complete POC for ongoing QA/QI.)

Health Care Plans:

Colonized/Infected with multidrug:

 Individual #5 - According to Electronic Comprehensive Health Assessment Tool the individual is required to have a plan. Not Linked or Attached in Therap.

Diabetes:

 Individual #11 - According to Electronic Comprehensive Health Assessment Tool the individual is required to have a plan. Evidence indicated the plan was not current.

Infection Control (Is immunocompromised):

Individual #5 - According to Electronic Comprehensive Health Assessment Tool the individual is required to have a plan. Not Linked or Attached in Therap. (Note: Linked / attached in Therap during the onsite survey. Provider please complete POC for ongoing QA/QI.)

Respiratory/Asthma:

 Individual #11 - According to Electronic Comprehensive Health Assessment Tool the individual is required to have a plan. Evidence indicated the plan was not current.

Respiratory (treatment or equipment):

 Individual #5 - According to Electronic Comprehensive Health Assessment Tool the individual is required to have a plan. Not Linked or Attached in Therap. (Note: Linked / attached in Therap during the onsite survey. Provider please complete POC for ongoing QA/QI.)

- clinical recommendations made by registered/licensed clinicians who are either members of the IDT or clinicians who have performed an evaluation such as a video-fluoroscopy;
- health related recommendations or suggestions from oversight activities such as the Individual Quality Review (IQR) or other DOH review or oversight activities; and
- d. recommendations made through a Healthcare Plan (HCP), including a Comprehensive Aspiration Risk Management Plan (CARMP), or another plan.
- 2. When the person/guardian disagrees with a recommendation or does not agree with the implementation of that recommendation, Provider Agencies follow the DCP and attend the meeting coordinated by the CM. During this meeting:
 - a. Providers inform the person/guardian of the rationale for that recommendation, so that the benefit is made clear. This will be done in layman's terms and will include basic sharing of information designed to assist the person/guardian with understanding the risks and benefits of the recommendation.
 - b. The information will be focused on the specific area of concern by the person/guardian. Alternatives should be presented, when available, if the guardian is interested in considering other options for implementation.
 - c. Providers support the person/guardian to make an informed decision.
 - d. The decision made by the person/guardian during the meeting is accepted; plans are modified; and the IDT honors this health decision in every setting.

Medical Emergency Response Plans: Aspiration Risk:

 Individual #1 - According to Electronic Comprehensive Health Assessment Tool the individual is required to have a plan. No evidence of a plan found.

Colonized/Infected with multidrug:

- Individual #1 According to Electronic Comprehensive Health Assessment Tool the individual is required to have a plan. No evidence of a plan found.
- Individual #5 According to Electronic Comprehensive Health Assessment Tool the individual is required to have a plan. Not Linked or Attached in Therap.

Diabetes:

 Individual #11 - As indicated by the IST section of ISP the individual is required to have a plan. No evidence of a plan found. (Note: Completed and Linked / attached in Therap during the on-site survey. Provider please complete POC for ongoing QA/QI.)

Falls

- Individual #9 According to Electronic Comprehensive Health Assessment Tool the individual is required to have a plan. Not Linked or Attached in Therap. (Note: Linked / attached in Therap during the on-site survey. Provider please complete POC for ongoing QA/QI.)
- Individual #10 As indicated by the IST section of ISP the individual is required to have a plan. No evidence of a plan found.

GERD

Chapter 13 Nursing Services: 13.2.5 Electronic Nursing Assessment and

Planning Process: The nursing assessment process includes several DDSD mandated tools: the electronic Comprehensive Nursing Assessment Tool (e-CHAT), the Aspiration Risk Screening Tool (ARST) and the Medication Administration Assessment Tool (MAAT). This process includes developing and training Health Care Plans and Medical Emergency Response Plans.

The following hierarchy is based on budgeted services and is used to identify which Provider Agency nurse has primary responsibility for completion of the nursing assessment process and related subsequent planning and training. Additional communication and collaboration for planning specific to CCS or CIE services may be needed.

The hierarchy for Nursing Assessment and Planning responsibilities is:

- 1. Living Supports: Supported Living, IMLS or Family Living via ANS;
- 2. Customized Community Supports- Group; and
- 3. Adult Nursing Services (ANS):
 - a. for persons in Community Inclusion with health-related needs; or
 - if no residential services are budgeted but assessment is desired and health needs may exist.

13.2.6 The Electronic Comprehensive Health Assessment Tool (e-CHAT)

- 1. The e-CHAT is a nursing assessment. It may not be delegated by a licensed nurse to a non-licensed person.
- 2. The nurse must see the person face-to-face to complete the nursing assessment. Additional information may be gathered from members of the IDT and other sources.
- 3. An e-CHAT is required for persons in FL,

 Individual #10 - As indicated by the IST section of ISP the individual is required to have a plan. No evidence of a plan found.

Impaired Neurological Status

 Individual #10 - As indicated by the IST section of ISP the individual is required to have a plan. No evidence of a plan found.

Infection Control (Is immunocompromised):

- Individual #1 According to Electronic Comprehensive Health Assessment Tool the individual is required to have a plan. No evidence of a plan found.
- Individual #5 According to Electronic Comprehensive Health Assessment Tool the individual is required to have a plan. Not Linked or Attached in Therap. (Note: Linked / attached in Therap during the on-site survey. Provider please complete POC for ongoing QA/QI.)

Respiratory (treatment or equipment):

 Individual #5 - According to Electronic Comprehensive Health Assessment Tool the individual is required to have a plan. Not Linked or Attached in Therap. (Note: Linked / attached in Therap during the on-site survey. Provider please complete POC for ongoing QA/QI.)

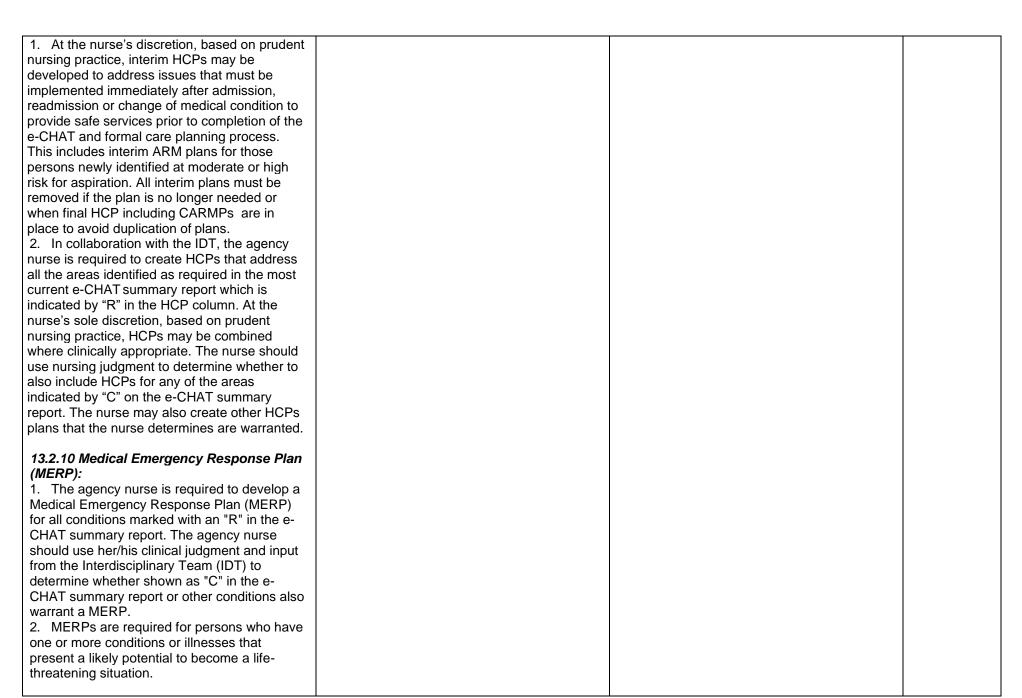

Respiratory/Asthma:

 Individual #11 - As indicated by the IST section of ISP the individual is required to have a plan. No evidence of a plan found. (Note: Completed and Linked / attached in Therap during the on-site survey. Provider please complete POC for ongoing QA/QI.)

Urinary Incontinence:

SL, IMLS, or CCS-Group. All other DD Waiver recipients may obtain an e-CHAT if needed or desired by adding ANS hours for assessment and consultation to their budget. 4. When completing the e-CHAT, the nurse is required to review and update the electronic record and consider the diagnoses, medications, treatments, and overall status of the person. Discussion with others may be needed to obtain critical information. 5. The nurse is required to complete all the e-CHAT assessment questions and add additional pertinent information in all comment sections.	Individual #4 - As indicated by the IST section of ISP the individual is required to have a plan. No evidence of a plan found.	
13.2.7 Aspiration Risk Management Screening Tool (ARST)		
13.2.8 Medication Administration Assessment Tool (MAAT): 1. A licensed nurse completes the DDSD Medication Administration Assessment Tool (MAAT) at least two weeks before the annual ISP meeting. 2. After completion of the MAAT, the nurse will present recommendations regarding the level of assistance with medication delivery (AWMD) to the IDT. A copy of the MAAT will be sent to all the team members two weeks before the annual ISP meeting and the original MAAT will be retained in the Provider Agency records. 3. Decisions about medication delivery are made by the IDT to promote a person's maximum independence and community integration. The IDT will reach consensus regarding which criteria the person meets, as indicated by the results of the MAAT and the nursing recommendations, and the decision is documented this in the ISP.		

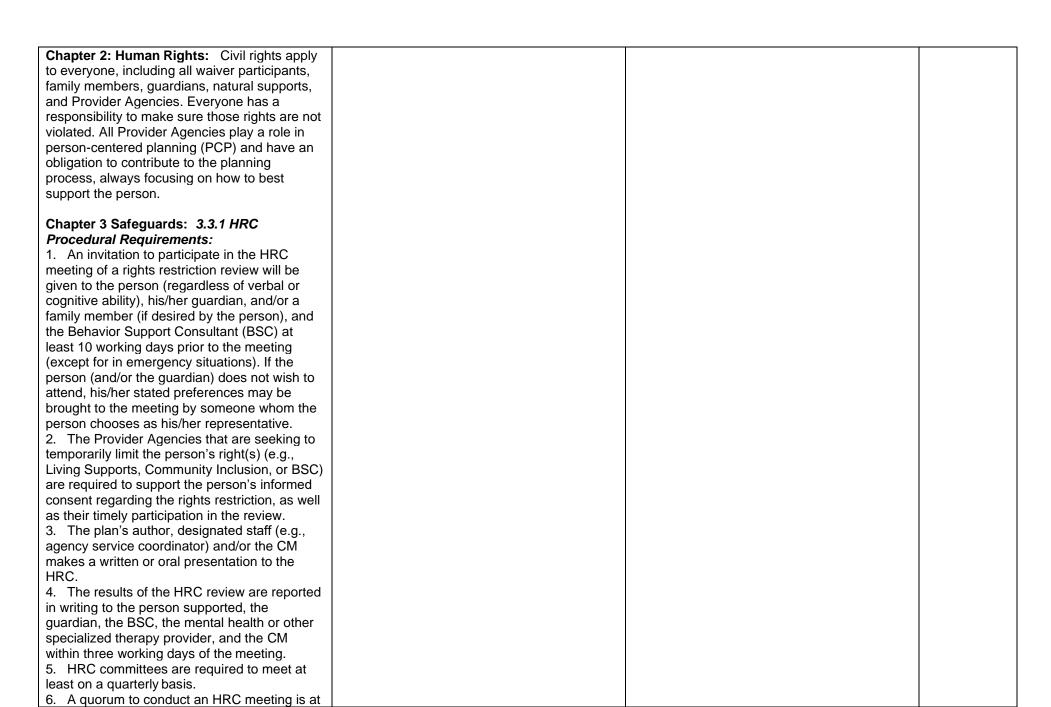

13.2.9 Healthcare Plans (HCP):

least three voting members eligible to vote in		1
each situation and at least one must be a		1
community member at large.		1
7. HRC members who are directly involved in		1
the services provided to the person must		1
excuse themselves from voting in that		1
situation.		1
Each HRC is required to have a provision for		1
emergency approval of rights restrictions		1
based upon credible threats of harm against		1
self or others that may arise between		1
scheduled HRC meetings (e.g., locking up		1
sharp knives after a serious attempt to injure		1
self or others or a disclosure, with a credible		1
plan, to seriously injure or kill someone). The		1
confidential and HIPAA compliant emergency		1
meeting may be via telephone, video or		1
conference call, or secure email. Procedures		1
may include an initial emergency phone		1
meeting, and a subsequent follow-up		1
emergency meeting in complex and/or ongoing		1
situations.		1
8. The HRC with primary responsibility for		1
implementation of the rights restriction will		1
record all meeting minutes on an individual		1
basis, i.e., each meeting discussion for an		1
individual will be recorded separately, and		1
minutes of all meetings will be retained at the		1
agency for at least six years from the final date		1
of continuance of the restriction.		1
		1
3.3.3 HRC and Behavioral Support: The		1
HRC reviews temporary restrictions of rights		1
that are related to medical issues or health and		1
safety considerations such as decreased		1
mobility (e.g., the use of bed rails due to risk of		1
falling during the night while getting out of		
bed). However, other temporary restrictions		
may be implemented because of health and		
safety considerations arising from behavioral		
issues.		
Positive Behavioral Supports (PBS) are		
mandated and used when behavioral support		.

the II main healt quali redu follow temp beha there imple the required and/ointernadva	eded and desired by the person and/or DT. PBS emphasizes the acquisition and tenance of positive skills (e.g. building hy relationships) to increase the person's ty of life understanding that a natural ction in other challenging behaviors will w. At times, aversive interventions may be orarily included as a part of a person's vioral support (usually in the BCIP), and fore, need to be reviewed prior to ementation as well as periodically while estrictive intervention is in place. PBSPs ontaining aversive interventions do not re HRC review or approval. (e.g., ISPs, PBSPs, BCIPs PPMPs, or RMPs) that contain any aversive ventions are submitted to the HRC in nice of a meeting, except in emergency tions.		
and imple BCIF	Interventions Requiring HRC Review Approval: HRCs must review prior to ementation, any plans (e.g. ISPs, PBSPs, Ps and/or PPMPs, RMPs), with strategies, ding but not limited to: response cost; restitution; emergency physical restraint (EPR); routine use of law enforcement as part of a BCIP;		
5.	routine use of emergency hospitalization procedures as part of a BCIP;		
6. 7.	use of point systems; use of intense, highly structured, and specialized treatment strategies, including level systems with response cost or failure to earn components;		
8.	a 1:1 staff to person ratio for behavioral reasons, or, very rarely, a 2:1 staff to person ratio for behavioral or medical reasons;		
9. 10.	use of PRN psychotropic medications; use of protective devices for behavioral		

12.	purposes (e.g., helmets for head banging, Posey gloves for biting hand); use of bed rails; use of a device and/or monitoring system through PST may impact the person's privacy or other rights; or use of any alarms to alert staff to a person's whereabouts.		
res me: Age occ Em	Emergency Physical Restraint (EPR): ery person shall be free from the use of trictive physical crisis intervention asures that are unnecessary. Provider encies who support people who may easionally need intervention such as ergency Physical Restraint (EPR) are uired to institute procedures to maximize ety.		
revieus impl whe are are 1.	5 Human Rights Committee: The HRC ews use of EPR. The BCIP may not be emented without HRC review and approval never EPR or other restrictive measure(s) included. Provider Agencies with an HRC required to ensure that the HRCs: participate in training regarding required constitution and oversight activities for HRCs; review any BCIP, that include the use of		
3.	EPR; occur at least annually, occur in any quarter where EPR is used, and occur whenever any change to the BCIP is considered; maintain HRC minutes approving or		
5.	disallowing the use of EPR as written in a BCIP; and maintain HRC minutes of meetings reviewing the implementation of the BCIP when EPR is used.

the following for a period of at least six years		
from the payment date:		
a. treatment or care of any eligible recipient;		
b. services or goods provided to any		
eligible recipient;		
c. amounts paid by MAD on behalf of any eligible recipient; and		
d. any records required by MAD for the administration of Medicaid.		
21.9 Billable Units: The unit of billing depends on the service type. The unit may be		
a 15-minute interval, a daily unit, a monthly		
unit or a dollar amount. The unit of billing is identified in the current DD Waiver Rate Table.		
Provider Agencies must correctly report service units.		
21.9.1 Requirements for Daily Units: For services billed in daily units, Provider Agencies		
must adhere to the following:		
A day is considered 24 hours from		
midnight to midnight.		
2. If 12 or fewer hours of service are		
provided, then one-half unit shall be billed. A		
whole unit can be billed if more than 12 hours		
of service is provided during a 24-hour period.		
3. The maximum allowable billable units		
cannot exceed 340 calendar days per ISP year or 170 calendar days per six months.		
4. When a person transitions from one		
Provider Agency to another during the ISP year,		
a standard formula to calculate the units billed		
by each Provider Agency must be applied as		
follows:		
a. The discharging Provider Agency bills the		
number of calendar days that services were		
provided multiplied by .93 (93%).		
b. The receiving Provider Agency bills the		
remaining days up to 340 for the ISP year.		

21.9.2 Requirements for Monthly Units: For		
services billed in monthly units, a Provider		
Agency must adhere to the following:		
1. A month is considered a period of 30		
calendar days.		
2. At least one hour of face-to-face billable		
services shall be provided during a calendar		
month where any portion of a monthly unit is		
billed.		
3. Monthly units can be prorated by a half		
unit.		
Agency transfers not occurring at the		
beginning of the 30-day interval are required to		
be coordinated in the middle of the 30-day		
interval so that the discharging and receiving		
agency receive a half unit.		
21.9.3 Requirements for 15-minute and		
hourly units: For services billed in 15-minute		
or hourly intervals, Provider Agencies must		
adhere to the following:		
1. When time spent providing the service is not exactly 15 minutes or one hour, Provider		
Agencies are responsible for reporting time		
correctly following NMAC 8.302.2.		
2. Services that last in their entirety less than		
eight minutes cannot be billed.		
eight minutes cannot be billed.

State/Zip: Las Cruces, New Mexico 88005

E-mail Address: amartinez@trescoinc.org

CC: Stacie Valdez, Manager E-mail Address: svaldez@trescoinc.org

Region: Southwest

Survey Date: May 17 – 28, 2021

Program Surveyed: Developmental Disabilities Waiver

Service Surveyed: **2018:** Supported Living; Customized In-Home Supports; Customized

Community Supports, and Community Integrated Employment Services

Survey Type: Routine

Dear Ms. Martinez:

The Division of Health Improvement Quality Management Bureau received and reviewed the documents you submitted for your Plan of Correction. Your Plan of Correction is not closed.

Your Plan of Correction will be considered for closure when a Verification survey confirms that you have corrected all survey deficiencies and sustained all corrections.

The Quality Management Bureau will need to conduct a verification survey to ensure previously cited deficiencies have been corrected and that systemic Quality Improvement and Quality Assurance processes have been effective at sustaining corrections.

If the Verification survey determines survey deficiencies have been corrected and corrective measures have effectively maintained compliance with DDW Standards, your Plan of Correction will be considered for closure.

If the Verification survey identifies repeat deficiencies, the Plan of Correction process will continue and your case may be referred to the Internal Review Committee for discussion of possible civil monetary penalties possible monetary fines and/or other sanctions.

Thank you for your cooperation with the Plan of Correction process.

Sincerely,

Monica Valdez, BS

Monica Valdez, BS Healthcare Surveyor Advanced/Plan of Correction Coordinator Quality Management Bureau/DHI
